**The Real Me Behind the Disguise for Everyone Else -**

Kieshan Wilburn 2020-09-18

The real me behind the disguise for everyone else is a powerful self-evaluation about the disguises that I and many people struggle with: putting different masks on in different situations and around different people; looking for closures in life that sometime isn't meant to have closure to; looking for love in all the wrong places; not loving yourself or putting yourself first; basically living your life for everyone else but you. I mean, its hit many different topics in life that many of us struggle with every day, from falling in love, getting your heart broken multiple times, forcing pieces to the life puzzle that just don't fit, asking questions that never

get answered, losing yourself in loving someone else, dealing with being a single parent, to feeling like just giving up on life because, at times, it become too overwhelming, even getting even with revenge. We have some lovemaking wrapped up in this too, along with family issues, and much more. This is a book that relates to everyone in the world on many different levels. Just know everyone has a story and is, most of the time, similar to another's. You are never alone.

**Rain City Gothic** - Peter D. Baker 2022-11-01

She's trained with him. She's hunted with him. She's killed with him. Now he's missing. After the loss of her mother years ago, he is all she has left, and she will do whatever she can to find him. They had made a pact, a rule never to be

broken: If we don't hear anything after three days, we investigate. Three days passed. Now Bethany must take all her years of training, all the skills she developed, and leave the place she's called home her whole life. What begins as a simple search and rescue soon turns into a violent meandering through the darkest recesses of the Pacific Northwest underworld as Bethany pieces together cryptic clues from her father's journal. Far from everything and everyone she knows and loves, Bethany must navigate this realm of secrets and peril—and for the first time, she must do it alone. Every step brings her closer to the truth but closer to danger. This is the way of things when infernal cults and hellish fiends are involved. Vampires are not forgiving. Rain City Gothic is a story of devotion, betrayal, and redemption. It is a story of the human spirit and the lengths we will go to save the ones we love.

**Stop Lusting and Start Living** - Paul F. Davis

2017-03-27

This book is a sword of deliverance and battle plan for sexual freedom. Lust will take you further than you want to go, keep you longer than you want to stay and cost you more than you want to pay. Once ensnared it can be awfully difficult to break away. What you do with your body effects your mind. The sex drive is not evil and therefore should not be ignored. It must however be

understood and properly controlled. You do not have to be a slave to your own lusts. Your body does not have to be your master. This book will show you how to: - Get a grip on your flesh.- Harness and possess your soul. - Govern and rule over your bodily appetites.- Avoid seduction and enticements.- Discern the origins of urges and feelings before being drawn away by them.- Differentiate between spirit, mind and body.- Practice eye control on demand.- Cultivate meaningful relationships.- Fight to preserve your personal integrity.- Live your life to the fullest.- Put sex in its proper place. - Properly evaluate and establish your manhood.- Esteem women as God created them and see them more than sex objects.- Know yourself and others by the Spirit.- Live freely in the Spirit and cut the strings of seduction. Promiscuous sex is like eating cotton candy. Though it does not nourish you, it tastes good for a little while. However the more you indulge

and eat eventually the sicker you'll feel. Having sex doesn't make you a man. Dogs can have sex. Manhood is determined by your ability to control your bodily appetites and rightly direct them according to your life's purpose. Love is not lust. Love gives. Lust is insatiably selfish and only takes Life is meant to be lived, not enslaved. Liberation is yours for the taking. Stop lusting and start living!

*Becoming Orgasmic* - Julia R.

*LoveSex* - Cabby Laffy  
2018-05-08

This book looks at how our brains, minds, bodies, and emotions interact to create our experience of sexuality, and how we can create a sense of sexual self-esteem and a nutritious sexual diet for ourselves. As the author notes in her Introduction, 'we think and talk about sex as something we do, rather than sexuality being something that we have; and being sexual, as something that we are. We talk little about feeling sexual or the emotional and relational reasons for sexual desire; about the fact that it is usually an 'other' that we want to be sexual with. Our focus seems to be on how much sex we can have rather than how we want to express ourselves sexually.' This book challenges the cultural commodification of sex and sexuality, and encourages the reader to experience 'being sexual' rather than 'doing sex' or 'looking sexy'. This is crucial to our development of sexual

self-esteem, particularly in an era of ubiquitous online pornography.

**A Life Of Self-Destruction -**

Sol Berray 2021-07-16

The stories in this book will shock and stun you. It was easy to get drawn into the author's journey of self destruction, chaos and dysfunction in his life. You will find yourself in his stories. Thrown into adulthood way too soon as a young boy, the author divulges the years of turmoil he faced from exposure to sexual behavior. Turning to the world of fitness as a healthy release, the author found that avenue too was rife with corruption, destruction, and bad choices. The challenges which led him down a dark path to an unhealthy relationship to sex and intimacy throughout his life would ultimately empower Maltese to find his authentic voice. Pain, heartbreak, and the authors eventual redemption makes this book a must-read.

**God Made Men Too** - John Dykers 2019-06-19

This is not a "easy" read. The subject and the style require the reader to make broad connections about the individual relationships between men and women, and even broader connections between that relationship and other relationships. Trying to create a mathematical scaffold for pregnancy prevention and climate change is difficult enough. When we must stretch that connection to include our capacity to organize ourselves, our economics, our religions and our cultures, we are required to put our hearts and brains to work. However, when some of these switches click, we may gain insights that make our individual and our political lives make more sense. Preventing unintended pregnancies may be more useful than building seawalls, but this book challenges us to evaluate both in a more useful way for our survival as a species. Are we worth it?
