Fantasy Girls - Elyce Rae Helford 2000-05-30  
A new collection on women in American television in the 90s uncovers a cultural obsession with tough yet sexy heroines in mythical pasts, the 'girl power' present, and utopic futures. Xena, Buffy, Sabrina, and a host of other characters have become household words, as well as icons of pop culture 'feminism.' Their popularity makes for successful programming, however, how much does this trend truly represent a contemporary feminist

breakthrough? And what does it mean for feminism in the next few decades? *Fantasy Girls: Navigating the New Universe of Science Fiction and Fantasy Television* seeks to explore as well as challenge the power and the promises of this recent media phenomenon. Such TV programming offers the exciting opportunity to rethink established gender norms, but how far is it really pushing the limits of the status quo? Amidst the exuberant optimism of fanzines and dotting fan websites, the contributors to this volume endeavor to provide us with a much needed critical analysis of this contemporary trend. These essays explore the contradictions and limitations inherent in the genre, forcing readers to take a fresh and critical look through a variety of lenses including girl power, postfeminism, cyborg feminism, disability politics, queer studies, and much more. Programs covered are *Babylon 5*, *Buffy the Vampire Slayer*, Disney's *Cinderella*, *Lois and Clark*, *Mystery Science Theater 3000*, *Sabrina*

the *Teenage Witch*, *Star Trek: Voyager*, *The X-Files*, *Third Rock from the Sun*, and *Xena: Warrior Princess*.

### **Bullies and Mean Girls in Popular Culture -**

Patrice A. Opliger 2013-09-19

The numerous anti-bullying programs in schools across the United States have done little to reduce the number of reported bullying instances. One reason for this is that little attention has been paid to the role of the media and popular culture in adolescents' bullying and mean-girl behavior. This book addresses media role models in television, film, picture books, and the Internet in the realm of bullying and relational aggression. It highlights portrayals with unproductive strategies that lead to poor resolutions or no resolution at all. Young viewers may learn ineffective, even dangerous, ways of handling aggressive situations. Victims may feel discouraged when they are unable to handle the situation as easily as in media portrayals. They may also feel their experiences are trivialized by

comic portrayals. Entertainment programming, aimed particularly at adolescents, often portray adults as incompetent or uncaring and include mean-spirited teasing. In addition, overuse of the term "bully" and defining all bad behavior as "bullying" may dilute the term and trivialize the problem.
