**Balancing Acts** - Natasha  
Kumar Warikoo 2011-02-09  
In this timely examination of  
children of immigrants in New  
York and London, Natasha  
Kumar Warikoo asks, Is there a  
link between rap/hip-hop-  
influenced youth culture and  
motivation to succeed in  
school? Warikoo challenges  
teachers, administrators, and  
parents to look beneath the  
outward manifestations of  
youth culture -- the clothing,  
music, and tough talk -- to  
better understand the internal  
struggle faced by many  
minority students as they try to  
fit in with peers while working  
to lay the groundwork for  
successful lives. Using  
ethnographic, survey, and  
interview data in two racially  
diverse, low-achieving high  
schools, Warikoo analyzes

seemingly oppositional styles,  
tastes in music, and school  
behaviors and finds that most  
teens try to find a balance  
between success with peers  
and success in school.  
Styles of Meaning and  
Meanings of Style in  
Richardson's Clarissa - Gordon  
Fulton 1999-06-08  
Using socially and culturally  
engaged discourse stylistics,  
Fulton explores ideologies of  
social formation, gender, and  
sexuality in the novel. The first  
part of the study, "Styles of  
Meaning," discusses  
Richardson's use of the genres  
of sententiousness (moral  
sentiments and proverbs) to  
engage questions of ideology.  
Fulton shows how Richardson  
draws on the socially  
significant difference between  
proverbs and maxims to  
develop contrasting styles in  
which his characters establish  
and defend personal identities  
in relation to family and  
friends. The second part,  
"Meanings of Style," explores

ways in which meanings created through linguistic choices in the critical domains of gender and sexuality both sustain and sometimes betray characters struggling either to control or to resist being controlled by others. A contribution to both critical discussion of eighteenth-century fiction and to discourse stylistics committed to relating literary texts to their social and cultural contexts, this study introduces a mode of literary stylistic analysis with exciting possibilities for cultural studies.

*Fashion, Identity, and Power in Modern Asia* - Kyunghee Pyun  
2018-10-25

This edited volume on radical dress reforms in East Asia takes a fresh look at the symbols and languages of modernity in dress and body. Dress reform movements around the turn of the twentieth century in the region

have received little critical attention as a multicultural discourse of labor, body, gender identity, colonialism, and government authority. With contributions by leading experts of costume/textile history of China, Korea, and Japan, this book presents up-to-date scholarship using diverse methodologies in costume history, history of consumption, and international trade. Thematically organized into sections exploring the garments and uniforms, accessories, fabrics, and fashion styles of Asia, this edited volume offers case studies for students and scholars in an ever-expanding field of material culture including, but not limited to, economic history, visual culture, art history, history of journalism, and popular culture. *Fashion, Identity, and Power in Modern Asia* stimulates further research on the impact of modernity and imperialism in neglected areas such as military uniform, school uniform, women's accessories, hairstyles, and

**Spiritual Reading** - Angela

Lou Harvey 2015-10-23

Reading Scripture is a spiritual practice at the very heart of the Christian faith. But how is it possible to encounter God in reading the words of the Bible?

Does reading the Christian Bible require a different approach from how one may read other texts or writings?

What is required of the spiritual reader to read well?

Seeking to answer such questions, Angela Lou Harvey provides a theological exploration of the idea of "spiritual reading" in the context of the Western church today. Drawing upon insights of theologians such as Karl Barth, Henri de Lubac, and Ellen F. Davis, the author suggests that the particulars of Christian belief profoundly shape the distinctive practice of the spiritual reading of the Bible.

*How to Deal with 21st Century American Women* - Frosty Wooldridge 2013-10-20

How to Deal with 21st Century American Women teaches men from all walks of life how to understand and adapt to the evolving male-female paradigm shift occurring at every level of American society. Today, women run companies, become school principals, military generals, police chiefs, corporation CEOs and dozens of other power positions where they make more money and give orders to male employees. Its no longer exclusively a mans world. Women compete for the highest job slots at colleges, governorships of states, Ph.D. programs and athletic money in professional sports. Where men once drove the car for dates, women demand equality in the work, family and social realm. Men need to slide over and share the driving with women. This enormous emotional, social and sexual shift in the Western

world creates a new male-female relationship dynamic. This shift proves the first of its kind in human history. The new dynamic also creates incredible confusion, frustration and exasperation. Along the way, women want men to be men. They want a good man to marry and raise a family. But early in the 21st century, half of all marriages end in divorce. Male domestic violence continues at distressing levels. Weekend fathers explode on the emotional landscape. Children suffer the loss of structure, a balanced family unit and a sense of belonging. This book enlightens, educates and encourages men to maintain their masculinity while adapting and thriving in the new male-female paradigm of the 21st century. The book presents straight-forward ideas

to men on how to deal with a 21st century American woman. This book shows men how to successfully marry the right woman for long-term success. It shows which women to avoid. The book creates new understandings to move men forward in relationships in the 21st century.
