

Love Sex And Psychic Energy

Love, Sex, and Your Heart - Alexander Lowen
1994

A renowned psychotherapist shows how exercises that release tension and increase your sexual energy can put more love in your life and strengthen your heart. For centuries the heart has been a symbol of love and sexual desire. But as Dr. Alexander Lowen shows in this bold study, the connection between love and the heart is far more than symbolic - it's real. Repressed emotions - especially unresolved sexual conflicts - and deep psychic hurts can actually rigidify the chest, so it becomes like an armored breastplate. In this way trapped emotional energy can literally constrict your heart. Lowen traces his revolutionary thesis through poignant case histories, applying the principles of his mentor, the great Wilhelm Reich, to analyze the effects of emotional trauma on the body. Diagrams show how we experience pain at various points in life and how pain can damage our overall health as well as inhibit our ability to express and receive love. Lowen's physical and psychological exercises teach you how to release the pain of the past to become more flexible, more sensual, and more personally fulfilled. The results are a softening of your bodily "armor," an expansive feeling in the chest, the exhilarating discovery of sexual pleasure and a stronger, healthier heart.

Psychic Psychology - John Friedlander
2011-08-09

This useful guide from two of America's preeminent psychics is unique in its focus on individual psychology and interpersonal relationships. It begins with simple meditations during which practitioners learn how to recognize their own psychic energy—and also determine if that energy is constrained. *Psychic Psychology* shows how to free energy through such tools as grounding, clearing psychic entanglement, and finding the space from which to respond most openly, resourcefully, and generously to life. An entire chapter is devoted to exploring the specific energies men and women have based on their biological

differences and helping them to deal with their own energy and that of the other sex.

Friedlander and Hemsher present the everyday usefulness of clairvoyant skills within a big picture where they explain that we create our reality, but do not control it; and that the personality—like the soul—is eternal and always growing. The final section describes how psychic skills can be applied in real-world contexts, which are often ambiguous and contradictory. The book explores common issues such as dealing with self-doubt without jumping to unwarranted, blind confidence and how to communicate effectively, with clear boundaries. From the Trade Paperback edition.

Myths and Mysteries of Same-Sex Love -

The Mystery of Sex - Elizabeth Keyes 1975

What causes men and women to have almost opposite concepts of the word 'love'? Why do men feel superior to women? Why do women find it easier to use intuition than logic? Why can men fight, shake hands and forget it, but women who fight never forget it? Why the importance given virginity in women but not in men? Why have women revolted against their natural role of motherhood? Why homosexuality? Are we missing greater experiences by confining sex to a physical level? These and other questions are answered in this book, from sources of ancient and modern wisdom, gathered by the author over many years of study and research. Sex is one of the most dominating subjects of our time. It is substituted for love; it is used with love and without love. People are confused about it. Some do not know which sex they are. It is the most misunderstood, misused and commercialized force in our culture. Polarity exists on every level, and is essential to the creation of all life. An understanding of this principle brings harmony out of conflict; cooperation instead of competition.

The Spellcaster's Reference - Eileen Holland
2009-10-01

Need to bless a newborn babe? Wondering what color candle to use for a winter handfasting? What herbs are best to use when the Moon is in Cancer? Magick is intent, but any witch will tell you that intent requires forethought and preparation. And even the most seasoned ritualist needs a reference to determine the best timing and most powerful ingredients for their magical work. From Solstice to Saturday to Seven O' Clock, from Vervain to Mandrake to Amber, using the right magickal correspondences strengthens any spell, ceremony, or ritual. Here Eileen Holland has gathered together a wealth of magickal knowledge, complete with everything from hours, days, weeks, and astrological alignment to proper corresponding plants, animals, oils, herbs, and deities, and compiled them into the ultimate reference book for anyone seeking guidance in creating their own enchantments. Includes a glossary of less familiar terms and

deities, as well as a glossary of ingredients. Sexology, The Basis of Endocrinology and Criminology - Samael Aun Weor 2018-08-03

Each of us was created through sex, and every day we are influenced by sex. Our hormones influence us continually, in our thinking, feeling, and body. Therefore, it is simple logic to recognize that a saint or holy person is a result of an upright, pure sexual life, while a criminal or a liar is the result of a degenerated, impure sexual life. The sexual energy of a saint fills their heart, mind, and body with pure thoughts, pure emotions, and vitalizing energy. The sexual energy of a criminal fills their heart, mind, and body with degenerated thoughts, emotions, and energy. Therefore, if we want a better life, we simply need to learn how to use our sexual energy in a better way. We can do so by understanding the connections between three sciences: sexology, endocrinology, and criminology. Sexology studies love, the most powerful force in human life. It inspires our greatest acts, sustains us in difficult times, gives us hope, inspiration, and purpose. But more than that, love is the power that turns the common person into a superhuman. The sexual energy — which fuels the love of a couple and creates children — is also the wellspring of the love expressed by the greatest human beings, such as Jesus, Buddha, Joan of Arc, etc. While it is well known that serious spiritual seekers preserve their sexual energy for spiritual purposes, science has largely ignored why. The preservation of the sexual energy (called chastity, tantra, alchemy, karezza, coitus interruptus) supercharges the endocrine system and the brain. On the other hand, the worst human beings are always sexual degenerates whose bodies and minds are decayed. Endocrinology studies the active agent of sex: our endocrine system, the incredible power of hormones. The hormones not only push us towards sexual activity, they also power the pineal and pituitary glands, which facilitate our ability to imagine, to “see” with our “mind’s eye.” The hormones influence the brain and the heart: when a person is in love, the hormones inspire that love, and raise the quality of life to the highest, while also filling the mind with beautiful visions of the beloved. When a person is afflicted by lust, the hormones saturate the

brain and heart with lustful desire and degenerated, selfish fantasies. For the suprasexual, the hormones are the vitalizing influence that regenerates the brain and heart, and empowers visions, clairvoyance, conscious dreams, and spiritual powers. For the infrasexual, the hormones — being corrupted by desire, lust, anger, and pride — cloud the mind, degenerate the emotions into selfishness, and hypnotize the consciousness with paranoia, hallucinations, obsessions, fantasies of wealth and power, motivating the person towards crime, violence, rape, etc. This is criminology: the science that examines how desire, expressed through mental images, is the basis of crime. If we want to guide our life towards higher level, or if we want to help those who suffer — such as criminals, the mentally ill, the paranoids, or the depressed — then we need to understand how to use the sexual energy in a restorative and regenerating way.

Dark Laughter II - Eve Halloway 2012-11

Psychic sex abuse is enabled by remote viewing and visualization. Called remote influencing, it is practiced by military operatives. Also, an object can be imbued with psychic energy, called human psychotronic energy, and be used as a weapon. When it is used for a sexual attack, it is very painful. The attack leaves the victim shattered, but it leaves no scars, so there is no legal recourse. In addition to psychic abuse this book contains information previously in the Sci-Fi category. Well, not so much now, folks. There's information about all kinds of other psychic phenomena, psychic warfare, EM pulse weapons, the real story on those lights over Pheonix, why the ETs are here, the so-called alien abductions, the military and ETs, talking trees, bees that listen, the consciousness of machines, and much more. This book, like my previous book, *Dark Laughter: Portrait of a*

Witch - Lisa Lister 2017-05-09

A compelling book urging modern women to reconnect with their inborn feminine powers. Reclaim your inner witch with the magical rituals, divination tools, spells and ancient wisdom in this revolutionary book. A witch is a woman in her power. She's wise, a healer, someone who is aligned with the cycles of Mother Nature and the phases of the Moon. Yet for so long, the word 'witch' has had negative connotations - being used as an insult, a slur and

to perpetuate fear. In this book, third generation hereditary witch Lisa Lister explains the history behind witchcraft, why in past centuries the word 'witch' has led women to be tortured, drowned and burned at the stake, and why the witch is now waking once again in women across the world today. This book will help women to remember, reconnect and reclaim the word 'witch' and its power. It explores the many different versions of witchcraft and their core principles and practices, and shares ancient wisdom made relevant for waking witches, including how to:

- Align your energy with the wheel of the year, the sabbats and the cycles of the Moon
- Connect with and trust your intuition
- Use divination tools such as oracle cards, scrying and rune reading
- Cast circles, create altars and set sacred space
- Work with the elements of nature and use herbs and crystals
- Discover and work with five different aspects of the witch: the Force of Nature, the Creatrix, the Healer, the Oracle and the Sorceress

Rediscover your powers and manifest your reality with spell casting Lisa also shares her own journey to reclaiming the word 'witch', along with personal, hands-on rituals and spells from her family lineage of gypsy witch magic.

An Introduction to Theories of Personality - Robert Ewen B 2014-01-21

This 7th Edition helps students unravel the mysteries of human behavior through its highly readable introduction to the ideas of the most significant personality theorists. Engaging biographical sketches begin each chapter, and

unique capsule summaries help students review key concepts. Theories come alive through the inclusion of quotations from the theorists' writings and numerous applications such as dream interpretation, psychopathology, and psychotherapy. Significant changes in the 7th edition include an extended discussion of the practical applications of personality theory, with an emphasis on guidelines that can help people increase their self-knowledge, make better decisions, and live more fulfilling lives. Fictionalized but true-to-life examples illustrating the perils of inadequate self-knowledge include college students, parents, terrorists, business executives, and politicians, while other examples show the positive outcomes that can result from a better understanding of one's unconscious. This 7th edition also includes a more extensive discussion of how a lack of self-understanding caused difficulties for such noted theorists as Freud and Erikson, and a new section that explains how behavior can be strongly influenced by the situation as well as by one's personality. Finally, a new interactive web site provides practice test

questions and other topics of interest.
