Victorian Display Alphabets - Dan X. Solo 1976

"This is a collection of 100 unusual and authentic Victorian type fonts for artists, designers and craftsmen. Selected from Solotype Typographers Catalog, these complete alphabets amply display the Victorian fascination with varieties of type. As copyright-free material, much of which does not appear in other typographer's catalogs, this is an excellent sourcebook for use in all graphics work calling for old-fashioned Victorian flavor. Included are both plain and decorative alphabets, some ornamented with streamers, fans, ribbons, bars, filigrees, vine leaves, harp strings, and more. Some fonts such as Calliope, Buffalo Bill, Shaded Barnum, Fargo, Jackpot, and Burlesque have a carnival or Wild West atmosphere. Others like Tangier and Cabalistic, are rather exotic. You will also find heavy-duty fonts, Bohemia and Broadside, along with such delicate ones as Aeolian Open and Arboret. Many of the alphabets include lower as well as upper case letters, and many also include a complete set of numbers. Several Victorian printer's ornaments have also been included."--back cover.

The Solotype Catalog of 4,147 Display Typefaces - Dan X. Solo 2011-12-28

The author of many books on typography, Dan X. Solo is also the proprietor of his own typography shop in Oakland, California — an establishment dedicated to unusual typography and special effects. This comprehensive catalog offers graphic designers a dazzling selection of over 4,000 typefaces and optical effects available from Solotype Typographers. Here, in Solo's words, is "a great cast of characters" — the alphabet — abetted by a cornucopia of typographical ideas and an endless resource of letters, words, phrases, slogans, logos, humorous comments, headlines, and graphic symbols. Individual sections of the book display a rich variety of typefaces in categories such as Condensed, Victorian, Art Nouveau, Art Deco, Rustic, Thick-and-tin, Calligraphic, Uncials,

Latins, and Blackletter. Samples are imaginatively presented. "Stagecoach," for example, is printed in Fargo typeface, evoking dusty trails, rawhide, and ten-gallon hats, while "Sizzling summer savings" appears appropriately in the flamboyant Firebug typeface. All typefaces are indexed for quick and easy reference. As entertaining as it is practical and useful, this impressive treasury of versatile typefaces and optical effects will be indispensable to busy commercial artists as an inexhaustible source of typographic ideas and a "swipe file" of words, phrases, and letters for use in graphic art projects.

Awesome Alphabets - Mike Artell 1999-01-01
Can you draw letters that look like bones, pencils, or tools? What about broken, slimy, or fuzzy letters? Kids will love copying these wacky alphabets, and will be inspired to create their own fonts. The book includes examples of 17 different alphabets, followed by sections on cartoon words (such as drawing words in the shape of the things they describe), special effects (such as loops), and ideas for what to do with these newly learned skills. Use this resource to encourage students to be imaginative and to make lettering that can enhance school projects of all kinds. Grades 2-8. Illustrated. GDY539.
