

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia 1787 1861

Fugitive Slaves and Spaces of Freedom in North America - Damian Alan Pargas 2020-09-08

This volume introduces a new way to study the experiences of runaway slaves by defining different “spaces of freedom” they inhabited. It also provides a groundbreaking continental view of fugitive slave migration, moving beyond the usual regional or national approaches to explore locations in Canada, the U.S. North and South, Mexico, and the Caribbean. Using newspapers, advertisements, and new demographic data, contributors show how events like the

Revolutionary War and westward expansion shaped the slave experience. Contributors investigate sites of formal freedom, where slavery was abolished and refugees were legally free, to determine the extent to which fugitive slaves experienced freedom in places like Canada while still being subject to racism. In sites of semiformal freedom, as in the northern United States, fugitives’ claims to freedom were precarious because state abolition laws conflicted with federal fugitive slave laws. Contributors show how local committees

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

strategized to interfere with the work of slave catchers to protect refugees. Sites of informal freedom were created within the slaveholding South, where runaways who felt relocating to distant destinations was too risky formed maroon communities or attempted to blend in with free black populations. These individuals procured false documents or changed their names to avoid detection and pass as free. The essays discuss slaves' motivations for choosing these destinations, the social networks that supported their plans, what it was like to settle in their new societies, and how slave flight impacted broader debates about slavery. This volume redraws the map of escape and emancipation during this period, emphasizing the importance of place in defining the meaning and extent of freedom. Contributors: Kyle Ainsworth | Mekala Audain | Gordon S. Barker | Sylviane A. Diouf | Roy E. Finkenbine | Graham Russell Gao Hodges | Jeffrey R. Kerr-Ritchie | Viola Franziska Müller | James David Nichols |

Nothing More than Freedom - Giuliana Perrone
2023-05-31

Reveals that slavery has remained embedded in private law well after its ostensible demise.

Notorious in the Neighborhood - Joshua D. Rothman
2003-12-04

Laws and cultural norms militated against interracial sex in Virginia before the Civil War, and yet it was ubiquitous in cities, towns, and plantation communities throughout the state. In *Notorious in the Neighborhood*, Joshua Rothman examines the full spectrum of interracial sexual relationships under slavery--from Thomas Jefferson, Sally Hemings, and the intertwined interracial families of Monticello and Charlottesville to commercial sex in Richmond, the routinized sexual exploitation of enslaved women, and adultery across the color line. He explores the complex considerations of legal and

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

1787 1861

judicial authorities who handled cases involving illicit sex and describes how the customary toleration of sex across the color line both supported and undermined racism and slavery in the early national and antebellum South. White Virginians allowed for an astonishing degree of flexibility and fluidity within a seemingly rigid system of race and interracial relations, Rothman argues, and the relationship between law and custom regarding racial intermixture was always shifting. As a consequence, even as whites never questioned their own racial supremacy, the meaning and significance of racial boundaries, racial hierarchy, and ultimately of race itself always stood on unstable ground--a reality that whites understood and about which they demonstrated increasing anxiety as the nation's sectional crisis intensified.

Claiming the Union - Susanna Michele Lee
2014-04-14

This book examines Southerners' claims to loyal

citizenship in the reunited nation after the American Civil War. Southerners - male and female; elite and non-elite; white, black, and American Indian - disagreed with the federal government over the obligations citizens owed to their nation and the obligations the nation owed to its citizens. Susanna Michele Lee explores these clashes through the operations of the Southern Claims Commission, a federal body that rewarded compensation for wartime losses to Southerners who proved that they had been loyal citizens of the Union. Lee argues that Southerners forced the federal government to consider how white men who had not been soldiers and voters, and women and racial minorities who had not been allowed to serve in those capacities, could also qualify as loyal citizens. Postwar considerations of the former Confederacy potentially demanded a reconceptualization of citizenship that replaced exclusions by race and gender with inclusions according to loyalty.

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

Scandal at Bizarre - Cynthia A. Kierner 2006
In the early 1790s Richard Randolph was accused of fathering a child by his sister-in-law, Nancy, and murdering the baby shortly after its birth. Rumors about the incident, which occurred during a visit to the plantation of close family friends, spread like wildfire. Randolph found himself on trial for the crime largely because of the public outrage fueled by these rumors. The rest of the household suffered too, and only Nancy, who later married the esteemed New York statesman Gouverneur Morris, would find any degree of happiness. A tale of family passion, betrayal, and deception, *Scandal at Bizarre* is a fascinating historical portrait of the social and political realities of a world long vanished.

Family, Law, and Inheritance in America - Yvonne Pitts 2013-05-20

Yvonne Pitts explores nineteenth-century inheritance practices by focusing on testamentary capacity trials in Kentucky in

1787 1861
which disinherited family members challenged relatives' wills, claiming the testator lacked the capacity required to write a valid will. By anchoring the study in the history of local communities and the texts of elite jurists, Pitts demonstrates that "capacity" was a term laden with legal meaning and competing communal values.

Blue Laws and Black Codes - Peter Wallenstein 2004

Particularly notable was the abolition of segregation laws, modified versions of southern states' "black codes" dating back to the era of slavery and the first years after emancipation. Virginia's long road to racial equality under the law included the efforts of black civil rights lawyers to end racial discrimination in the public schools, the 1960 Richmond sit-ins, a case against segregated courtrooms, and a court challenge to a law that could imprison or exile an interracial couple for their marriage. While emphasizing a single state, *Blue Laws and Black*

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

1787 1861

Codes is framed in regional and national contexts. Regarding blue laws, Virginia resembled most American states. Regarding racial policy, Virginia was distinctly southern. Book jacket.

Legal History of the Color Line - Frank W. Sweet 2005

Annotation. This analysis of the nearly 300 appealed court cases that decided the "race" of individual Americans may be the most thorough study of the legal history of the U.S. color line yet published.

Becoming Free, Becoming Black - Alejandro de la Fuente 2020-01-16

Shows that the law of freedom, not slavery, determined the way that race developed over time in three slave societies.

A Companion to Thomas Jefferson - Francis D. Cogliano 2011-09-15

A Companion to Thomas Jefferson presents a state-of-the-art assessment and overview of the life and legacy of Thomas Jefferson through a

collection of essays grounded in the latest scholarship. Features essays by the leading scholars in the field, including Pulitzer Prize winners Annette Gordon-Reed and Jack Rakove Includes a section that considers Jefferson's legacy Explores Jefferson's wide range of interests and expertise, and covers his public career, private life, his views on democracy, and his writings Written to be accessible for the non-specialist as well as Jefferson scholars

Happy Dreams of Liberty - R. Isabela Morales 2022-05-02

A poignant, multi-generational saga of a mixed-race family in the US West and South from the antebellum period through the rise of Jim Crow. When Samuel Townsend died at his home in Madison County, Alabama, in November 1856, the fifty-two-year-old white planter left behind hundreds of slaves, thousands of acres of rich cotton land, and a net worth of approximately \$200,000. In life, Samuel had done little to distinguish himself from other members of the

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

1787 1861

South's elite slaveholding class. But he made a name for himself in death by leaving almost the entirety of his fortune to his five sons, four daughters, and two nieces: all of them his slaves. In this deeply researched, movingly narrated portrait of the extended Townsend family, R. Isabela Morales reconstructs the migration of this mixed-race family across the American West and South over the second half of the nineteenth century. Searching for communities where they could exercise their newfound freedom and wealth to the fullest, members of the family homesteaded and attended college in Ohio and Kansas; fought for the Union Army in Mississippi; mined for silver in the Colorado Rockies; and, in the case of one son, returned to Alabama to purchase part of the old plantation where he had once been held as a slave. In Morales's telling, the Townsends' story maps a new landscape of opportunity and oppression, where the meanings of race and freedom--as well as opportunities for social and economic

mobility--were dictated by highly local circumstances. During the turbulent period between the Civil War and the rise of Jim Crow at the turn of the twentieth century, the Townsends carved out spaces where they were able to benefit from their money and mixed-race ancestry, pass down generational wealth, and realize some of their happy dreams of liberty.

Public Affairs - Paul Apostolidis 2004-01-14
DIVCollection of essays analyzing political sex scandals and U.S. political culture from a variety of theoretical angles, including feminism, cultural studies, Marxist critical theory, queer theory, and critical race theory. /div

At the Precipice - Shearer Davis Bowman
2010-10-04

Why did eleven slave states secede from the Union in 1860-61? Why did the eighteen free states loyal to the Union deny the legitimacy of secession, and take concrete steps after Fort Sumter to subdue what President Abraham Lincoln deemed treasonous rebellion? At the

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

1787 1861

Precipice seeks to answer these and related questions by focusing on the different ways in which Americans, North and South, black and white, understood their interests, rights, and honor during the late antebellum years. Rather than give a narrative account of the crisis, Shearer Davis Bowman takes readers into the minds of the leading actors, examining the lives and thoughts of such key figures as Abraham Lincoln, James Buchanan, Jefferson Davis, John Tyler, and Martin Van Buren. Bowman also provides an especially vivid glimpse into what less famous men and women in both sections thought about themselves and the political, social, and cultural worlds in which they lived, and how their thoughts informed their actions in the secession period. Intriguingly, secessionists and Unionists alike glorified the Declaration of Independence and the Constitution of the United States, yet they interpreted those sacred documents in markedly different ways and held very different notions of what constituted

"American" values.

Families in Crisis in the Old South - Loren Schweninger 2012-09-10

In the antebellum South, divorce was an explosive issue. As one lawmaker put it, divorce was to be viewed as a form of "madness," and as another asserted, divorce reduced communities to the "lowest ebb of degeneracy." How was it that in this climate, the number of divorces rose steadily during the antebellum era? In *Families in Crisis in the Old South*, Loren Schweninger uses previously unexplored records to argue that the difficulties these divorcing families faced reveal much about the reality of life in a slaveholding society as well as the myriad difficulties confronted by white southern families who chose not to divorce. Basing his argument on almost 800 divorce cases from the southern United States, Schweninger explores the impact of divorce and separation on white families and on the enslaved and provides insights on issues including domestic violence, interracial adultery,

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

1787 1861

alcoholism, insanity, and property relations. He examines how divorce and separation laws changed, how married women's property rights expanded, how definitions of inhuman treatment of wives evolved, and how these divorces challenged conventional mores.

Race in Mind - Paul Spickard 2015-11-19

These essays analyze how race affects people's lives and relationships in all settings, from the United States to Great Britain and from Hawai'i to Chinese Central Asia. They contemplate the racial positions in various societies of people called Black and people called White, of Asians and Pacific Islanders, and especially of those people whose racial ancestries and identifications are multiple. Here for the first time are Spickard's trenchant analyses of the creation of race in the South Pacific, of DNA testing for racial ancestry, and of the meaning of multiplicity in the age of Barack Obama.

Taming Manhattan - Catherine McNeur
2014-11-03

From 1815 to 1865, as city blocks encroached on farmland to accommodate Manhattan's exploding population, prosperous New Yorkers developed new ideas about what an urban environment should contain—ideas that poorer immigrants resisted. As Catherine McNeur shows, taming Manhattan came at the cost of amplifying environmental and economic disparities.

America's Forgotten Caste - Rodney Barfield
2013-05-14

Free blacks in antebellum America lived in a twilight world of oppressive laws and customs designed to suppress their mobility and their integration into civil society. Free blacks were free only to the extent of white tolerance in their community or town. They were at the mercy of the lowest members of the dominant race who could punish them on a whim. They were, in the words of a 19th century European traveler to America, "masterless slaves." Nonetheless, many successful and even prominent blacks emerged

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

1787, 1861

from the mire of oppressive laws and general public disdain to realize major achievements. Though excluded from the political process, from education, and from most professions they became preachers, teachers, missionaries, contractors, artisans, boat captains, and wealthy entrepreneurs. Members of this twilight social and legal class, which numbered nearly a half million by 1860, made great accomplishments against strong opposition in the first half of the 19th century. The history of America and of American slavery is woefully incomplete without their story.

Flush Times and Fever Dreams - Joshua D. Rothman 2012-11-01

In 1834 Virgil Stewart rode from western Tennessee to a territory known as the "Arkansas morass" in pursuit of John Murrell, a thief accused of stealing two slaves. Stewart's adventure led to a sensational trial and a wildly popular published account that would ultimately help trigger widespread violence during the

summer of 1835, when five men accused of being professional gamblers were hanged in Vicksburg, nearly a score of others implicated with a gang of supposed slave thieves were executed in plantation districts, and even those who tried to stop the bloodshed found themselves targeted as dangerous and subversive. Using Stewart's story as his point of entry, Joshua D. Rothman details why these events, which engulfed much of central and western Mississippi, came to pass. He also explains how the events revealed the fears, insecurities, and anxieties underpinning the cotton boom that made Mississippi the most seductive and exciting frontier in the Age of Jackson. As investors, settlers, slaves, brigands, and fortune-hunters converged in what was then America's Southwest, they created a tumultuous landscape that promised boundless opportunity and spectacular wealth. Predicated on ruthless competition, unsustainable debt, brutal exploitation, and speculative financial practices

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

1787 1861

that looked a lot like gambling, this landscape also produced such profound disillusionment and conflict that it contained the seeds of its own potential destruction. Rothman sheds light on the intertwining of slavery and capitalism in the period leading up to the Panic of 1837, highlighting the deeply American impulses underpinning the evolution of the slave South and the dizzying yet unstable frenzy wrought by economic flush times. It is a story with lessons for our own day. Published in association with the Library Company of Philadelphia's Program in African American History. A Sarah Mills Hodge Fund Publication.

Race, Sex, and Social Order in Early New Orleans - Jennifer M. Spear 2009-06-15

Strikingly argued, richly researched, and methodologically sound, this wide-ranging look at how choices about sex triumphed over established class systems and artificial racial boundaries supplies a refreshing contribution to the history of early Louisiana.

Scarlet and Black - Beatrice J. Adams

2016-12-20

The 250th anniversary of the founding of Rutgers University is a perfect moment for the Rutgers community to reconcile its past, and acknowledge its role in the enslavement and debasement of African Americans and the disfranchisement and elimination of Native American people and culture. *Scarlet and Black* documents the history of Rutgers's connection to slavery, which was neither casual nor accidental—nor unusual. Like most early American colleges, Rutgers depended on slaves to build its campuses and serve its students and faculty; it depended on the sale of black people to fund its very existence. Men like John Henry Livingston, (Rutgers president from 1810-1824), the Reverend Philip Milledoler, (president of Rutgers from 1824-1840), Henry Rutgers, (trustee after whom the college is named), and Theodore Frelinghuysen, (Rutgers's seventh president), were among the most ardent anti-

Notorious In The Neighborhood Sex And Families Across The Color Line In Virginia

1787 1861

abolitionists in the mid-Atlantic. Scarlet and black are the colors Rutgers University uses to represent itself to the nation and world. They are the colors the athletes compete in, the graduates and administrators wear on celebratory occasions, and the colors that distinguish Rutgers from every other university in the United States. This book, however, uses these colors to signify something else: the blood that was spilled on the banks of the Raritan River by those dispossessed of their land and the

bodies that labored unpaid and in bondage so that Rutgers could be built and sustained. The contributors to this volume offer this history as a usable one—not to tear down or weaken this very renowned, robust, and growing institution—but to strengthen it and help direct its course for the future. The work of the Committee on Enslaved and Disenfranchised Population in Rutgers History. Visit the project's website at <http://scarletandblack.rutgers.edu>
