Bisexuality in the Lives of

Men - Erich W Steinman

2014-06-03

Explore the theoretical, political, psychological, and cultural issues surrounding male bisexuality! Bisexuality in the Lives of Men is the first anthology to focus on men who love both men and women. The theoretical, scientific, and literary essays in this landmark volume dispel the fictions that bisexual men are greedy, promiscuous, confused,

deceptive, unfaithful, HIV-

positive--the dominant images of bisexual men in our culture. Whether portrayed as a coward who can't quite come out into full gayness or a smooth-talking serial killer, the bisexual man has been vilified in books and movies. In scholarly studies, they are often ignored or else lumped together with gay men. It is now widely acknowledged that human sexuality is more complex and diverse than the narrow categories "gay" and "straight." But, while the use of the term "bisexual" has become much more common in the last decade, an understanding of bisexuality itself lags far behind. A lack of research on how bisexuality is experienced, interpreted, and encoded in literature, film, and other aspects of popular culture means that stereotypes, stigma, and confusion are still prevalent. Bisexuality in the Lives of Men is a multidisciplinary examination of this neglected topic, bringing together expertise reflecting divergent

Queer Studies A Lesbian Gay Bisexual And Transgender Anthology

approaches and fields to show the whole bisexual man. Topics include: a thoughtful review and analysis of the public health research on the role of bisexual men in HIV transmission a study of the marital consequences of a husband's bisexuality, including couples who have stayed together an analysis of the heartfelt discussions taking place in an online bi-male community an empirical study of the ways that bi-negativity differs from homophobia an essay bringing together queer theory and social constructionist ideas to explain why bisexual men are much less visible than bisexual women The rigorously analytical yet accessible essays in this volume offer new information and perspectives about male bisexuality. Bisexuality in the Lives of Men is an essential resource for anyone interested in the theoretical, political, and cultural issues of male bisexuality.

Same-Sex Affairs - Peter Boag
2003-08-14

At the turn of the twentieth century, two distinct, yet at times overlapping, male same-sex sexual subcultures had emerged in the Pacific Northwest: one among the men and boys who toiled in the region's logging, fishing, mining, farming, and railroad-building industries; the other among the young urban white-collar workers of the emerging corporate order. Boag draws on police logs, court records, and newspaper accounts to create a vivid picture of the lives of these men and youths—their sexual practices, cultural networks, cross-class relations, variations in rural and urban experiences, and ethnic and racial influences.

Black Queer Studies - E. Patrick Johnson 2005-10-11
While over the past decade a number of scholars have done significant work on questions of black lesbian, gay, bisexual, and transgendered identities, this volume is the first to collect this groundbreaking work and make black queer studies visible as a developing field of study in the United

Anthology

States. Bringing together essays by established and emergent scholars, this collection assesses the strengths and weaknesses of prior work on race and sexuality and highlights the theoretical and political issues at stake in the nascent field of black queer studies. Including work by scholars based in English, film studies, black studies, sociology, history, political science, legal studies, cultural studies, and performance studies, the volume showcases the broadly interdisciplinary nature of the black queer studies project. The contributors consider representations of the black queer body, black queer literature, the pedagogical implications of black queer studies, and the ways that gender and sexuality have been glossed over in black studies and race and class marginalized in queer studies. Whether exploring the closet as a racially loaded metaphor, arguing for the inclusion of diaspora studies in black queer studies, considering how the

black lesbian voice that was so expressive in the 1970s and 1980s is all but inaudible today, or investigating how the social sciences have solidified racial and sexual exclusionary practices, these insightful essays signal an important and necessary expansion of queer studies. Contributors. Bryant K. Alexander, Devon Carbado, Faedra Chatard Carpenter, Keith Clark, Cathy Cohen, Roderick A. Ferguson, Jewelle Gomez, Phillip Brian Harper, Mae G. Henderson, Sharon P. high schools and universities, equality and representation. informative topical chapters about significant historical moments and themes, and innovative essays about sources and interpretive strategies well-suited to the history classroom, this volume is a valuable resource for anyone who thinks history should be an inclusive story.

The Lives of Transgender People - Genny Beemyn 2011-11-29

Queer Studies A Lesbian Gay Bisexual And Transgender

Anthology

Responding to a critical need for greater perspectives on transgender life in the United States, Genny Beemyn and Susan (Sue) Rankin apply their extensive expertise to a groundbreaking survey one of the largest ever conducted in the U.S. on gender development and identity-making among transsexual women, transsexual men, crossdressers, and genderqueer individuals. With nearly 3,500 participants, the survey is remarkably diverse, and with more than 400 follow-up interviews, the data offers limitless opportunities for research and interpretation. Beemyn and Rankin track the formation of gender identity across individuals and groups, beginning in childhood and marking the "touchstones" that led participants to identify as transgender. They explore when and how participants noted a feeling of difference because of their gender, the issues that caused them to feel uncertain about their gender identities, the factors that encouraged them to embrace a

transgender identity, and the steps they have taken to meet other transgender individuals. Beemyn and Rankin's findings expose the kinds of discrimination and harassment experienced by participants in the U.S. and the psychological toll of living in secrecy and fear. They discover that despite increasing recognition by the public of transgender individuals and a growing rights movement, these populations continue to face bias, violence, and social and economic disenfranchisement. Grounded in empirical data yet rich with human testimony, *The Lives of Transgender People* adds uncommon depth to the literature on this subject and introduces fresh pathways for future research.

Trans People in Higher Education - Genny Beemyn
2019-01-31

Addresses the experiences of trans college students, faculty, and staff in a single volume for the first time. While more trans

Queer Studies A Lesbian Gay Bisexual And Transgender Anthology

students, faculty, and staff have come out on US college campuses today than ever before, many still report enduring harassment and discrimination. Others avoid disclosing their gender identity because they do not feel safe or comfortable at their schools. This groundbreaking book is the first to address their experiences in a single volume. Genny Beemyn brings together personal narratives and original research to give readers both individual and large-scale perspectives, which provide unprecedented insight into the experiences of trans people in higher education. These contributions reveal that despite an improving environment, trans people continue to face widespread interpersonal and institutional opposition on campuses across the country. Some of the first published research focusing on nonbinary trans undergraduates and trans graduate students is included here, in addition to the most comprehensive research to date of trans students at

women's colleges and of trans academics. *Trans People in Higher Education* also examines the sexual health of trans students, the treatment of trans people by individuals with institutional authority, and the strategies and lessons learned from one college that successfully became more trans inclusive. Genny Beemyn is Director of the Stonewall Center at the University of Massachusetts, Amherst. They have published more than a half dozen books, including *A Queer Capital: A History of Gay Life in Washington, D.C.*; *The Lives of Transgender People* (with Susan Rankin); and *Queer Studies: A Lesbian, Gay, Bisexual, and Transgender Anthology* (coedited with Mickey Eliason).

Sexual Identities, Queer Politics - Mark Blasius
2021-02-09

In this collection, political and public policy analysts explore the social concerns of lesbians, gays, bisexuals, and the transgendered--what has come to be known as "lgbt" or "queer" politics. Compared to

Queer Studies A Lesbian Gay Bisexual And Transgender

Anthology

the humanities and to other social sciences, political science has been slow to address this phenomenon. Issues ranging from housing to adoption to laws on sodomy, however, have increasingly raised important political questions about the rights and status of sexual minorities, particularly within liberal democracies such as the United States, and also on an international level. This anthology offers the first comprehensive overview of the study of lgbt politics in political science across the discipline's main subfields and methodologies, and it spotlights lgbt movements in several regions around the world. Focusing on the politics of sexuality with regard to the politics of knowledge, the book presents a discussion of power that will interest all political scientists and others concerned with minority rights and gender as well as with transformation in the relations between public and private. The articles cover such topics as lgbt power in urban politics,

the impact of public opinion on lgbt life, means of effecting legal and political change in the United States, and international differences in lgbt political activism. The authors represent a new cadre of political scientists who are creating an interdisciplinary domain of research that is informed by and in turn generates political activism. They are Dennis Altman, M. V. Lee Badgett, Robert W. Bailey, Mark Blasius, Cathy J. Cohen, Timothy E. Cook, Paisley Currah, Juanita Díaz-Cotto, Jan-Willem Duyvendak, Leonard Harris, Bevin Hartnett, Rosalind Pollack Petchesky, David Rayside, Rebecca Mae Salokar, and Alan S. New Queer Horror Film and Television - Darren Elliott-Smith 2020-10-01

This anthology comprises essays that study the form, aesthetics and representations of LGBTQ+ identities in an emerging sub-genre of film and

Queer Studies A Lesbian Gay Bisexual And Transgender

Anthology

television termed 'New Queer Horror'. This sub-genre designates horror crafted by directors/producers who identify as gay, bi, queer or transgendered, or works like *Jepers Creepers* (2001), *Let the Right One In* (2008), *Hannibal* (2013-15), or *American Horror Story: Coven* (2013-14), which feature homoerotic or explicitly homosexual narratives with 'out' LGBTQ+ characters. Unlike other studies, this anthology argues that New Queer Horror projects contemporary anxieties within LGBTQ+ subcultures onto its characters and into its narratives, building upon the previously figurative role of Queer monstrosity in the moving image. New Queer Horror thus highlights the limits of a metaphorical understanding of queerness in the horror film, in an age where its presence has become unambiguous. Ultimately, this anthology aims to show that in recent years New Queer Horror has turned the focus of fear on itself, on its own

communities and subcultures.

The Material Queer - Donald Morton 1996-06-20

"The Material Queer" is an innovative anthology that offers a "materialist" understanding of marginal sexualities by accounting for the full range of classic and contemporary views. It breaks with the classic tradition in lesbian and gay studies and also with ludic (post)modern theory by insisting on the

embeddedness of gender and sexuality in the social division of labor.
