

Sex Trafficking

Sex Trafficking - Kimberly A. McCabe 2010-04-12

Global estimates of human trafficking range from 600,000 to four million victims each year with the majority being victims of sex trafficking. This strikingly large range belies the difficulty in gathering, defining, and accountability of sex-trafficking data. Victims of sex trafficking may be forced into pornography, prostitution for the military or militia, spousal prostitution, and prostitution for the sex-tourism industry. In response to the problem of sex trafficking, many nations have either misunderstood the definition or failed to comprehend the magnitude that have occurs within their borders. The United Nations has defined 'human trafficking' as 'the recruitment, transfer, harboring or receipt of persons by threat or use of force.'

Similarly, the U.S. State Department's Trafficking Victims Protection Act 2000 describes severe forms of trafficking as: (a) sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such an act has not attained 18 years of age; or (b) the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery. In Sex Trafficking: A Global Perspective, sex trafficking is discussed in terms of its multiple purposes and its victims. The essays provide information to build upon the limited knowledge-base on the subject of sex trafficking and the legislative responses to

human trafficking by the various highlighted countries. This collection is unique because it serves the needs of those studying human trafficking from a global perspective by targeting the issue within every geographic region, it provides a general profile of geographic regions in terms of demographic characteristics and political conditions that may support the growth of sex trafficking, and it is written on a basic information-supply-level to provide readers with a foundation on human trafficking throughout the world.

Global Perspectives on Prostitution and Sex

Trafficking - Rochelle L. Dalla
2011-04-08

This book is part of a two-volume set that examines prostitution and sex trafficking on a global scale, with each chapter devoted to a particular country in one of seven "geo-cultural" areas of the world. Each of the 18 chapters in this volume provides a distinct perspective from which to

contemplate the global commercial sex industry as well as a spectrum of implications for continued scholarship and research, legislative maneuvers and policy change, and suggestions for collaboration across NGOs, clinicians, and service providers.

Human Trafficking, Human Security, and the Balkans

H. Richard Friman 2008-10-01

In the aftermath of four Yugoslav wars, ongoing efforts at reconstruction in South Eastern Europe have devoted relatively limited attention to dimensions of human security that enhance protections for the region's most vulnerable populations in their daily lives. It is in this context that South Eastern Europe, and especially the Western Balkan region, has emerged as a nexus point in human trafficking. Human Trafficking, Human Security, and the Balkans brings together leading scholars, NGO representatives, and government officials to analyze and offer solutions to this challenge. The contributors

explore the economic dynamics of human trafficking in an era of globalization, which has greatly facilitated not only the flow of goods and services but also the trade in human beings. They also examine the effectiveness of international and transnational policies and practice, the impact of peacekeeping forces, and the emergence of national and regional action plans in the Western Balkans and, more broadly, in South Eastern Europe. Finally, they consider the nature and ramifications of the gap between human security rhetoric and institutional policy steps against human trafficking.

Offender and Victim Networks in Human Trafficking - Ella Cockbain 2018-05-30

Millions of pounds are spent every year trying to tackle human trafficking, modern slavery and child sexual exploitation. These are apparently threats perpetrated by 'criminal masterminds', spreading at a dizzying rate and approaching epidemic proportions - or so the story

goes. Amid all the bold rhetoric and sweeping claims, there is very little robust research to help understand these problems and inform evidence-based policy and practice. In this book, readers are invited to delve inside the murky world of human trafficking. It focuses on the internal (domestic) trafficking of children for sexual exploitation. It is based on far-reaching analysis of six of the earliest and largest such investigations in the United Kingdom (UK), including the infamous Derby and Rochdale cases that sparked nationwide concerns about 'street grooming' and 'Asian sex gangs'. Innovative methods, analytical rigour and truly extraordinary data underpin the research: a nuanced and sometimes unsettling exploration of the offender and victim networks, their characteristics, structure, activity and dynamics and the problems they pose for investigation and prosecution. The results paint a picture of a sprawling and dynamic system of grooming and abuse that is

deeply embedded in complex webs of social relations and interactions. This book challenges accepted wisdom, debunks myths and introduces new and fundamentally different ways of thinking about trafficking and its prevention. An accessible and compelling read, this book is for academics, policymakers, practitioners and others interested in serious and organised crime.

Migration, Agency and Citizenship in Sex Trafficking -

R. Andrijasevic 2010-11-03

Providing a new perspective on migration and sex work in Europe, this book is based on interviews with migrant women in the sex sector. It brings together issues of migration, labour and political subjectivity in order to refocus scholarly and policy agenda away from sex slavery and organized crime, towards agency and citizenship.

A Feminist Perspective on Human Trafficking of Women and Girls - Nancy M. Sidun 2019-04-30

Focusing on the trafficking of

women and girls from a feminist perspective, this book examines how social structures and gender influence human trafficking. While women and girls are not the only victims of trafficking, they tend to be disproportionately represented.

Structural inequities - including poverty, gender-based violence, racism, class and caste-based discrimination and other forms of oppression and marginalization - place some individuals at substantially greater risk to be trafficked. The contributors explore topics including trauma-informed assessment of, and therapy with, survivors of human trafficking; issues facing children of trafficked women when they are reintegrated into their communities post-trafficking; the intersection of trafficking with racial and cultural oppression; critical aspects of international sex trafficking; and commercial sexual exploitation of children. The book concludes with a discussion of how human trafficking intersects with both

Human Trafficking - Malloch

Margaret Malloch 2016-01-18

What is human trafficking?

Despite legislative developments and national and international interventions, we still lack firm definitions, estimates of its full extent, effective responses to perpetrators and sound survivor care. This volume critically examines the competing discourses surrounding human trafficking, the conceptual basis of global responses and the impact of these horrific acts worldwide.

Sex Trafficking - Siddharth

Kara 2017-08-29

“The best book ever written on human trafficking for sexual exploitation”—the basis for the feature film, *Trafficked*, starring Ashley Judd (Kevin Bales, president of Free the Slaves). Every year, hundreds of thousands of women and children are abducted, deceived, seduced, or sold into

forced prostitution. These trafficked sex slaves form the backbone of one of the world’s most profitable illicit enterprises and generate huge profits for their exploiters, for unlike narcotics, which must be grown, harvested, refined, and packaged, sex slaves require no such “processing,” and can be repeatedly “consumed.” In this book, Kara provides a riveting account of his four-continent journey into this unconscionable industry, sharing the moving stories of its victims and revealing the shocking conditions of their exploitation. He draws on his background in finance, economics, and law to provide the first ever business analysis of contemporary slavery worldwide, focusing on its most profitable and barbaric form: sex trafficking. Kara describes the local factors and global economic forces that gave rise to this and other forms of modern slavery over the past two decades and quantifies, for the first time, the size, growth, and profitability of each industry. Finally, he identifies

the sectors of the sex trafficking industry that would be hardest hit by specifically designed interventions and recommends the specific legal, tactical, and policy measures that would target these vulnerable sectors and help to abolish this form of slavery, once and for all. The author will donate a portion of the proceeds of this book to the anti-slavery organization, Free the Slaves. "Sex trafficking is more of a problem than most people realize. Read this well-written book and find out."—Kirk Douglas

Sex Trafficking - Marie Segrave 2012-12-06
Trafficking in persons, particularly the trafficking of women into sexual servitude (sex trafficking) has generated much attention over the past decade. This book provides a critical examination of the international and national frameworks developed to respond to this issue - focused both on the design of policy responses and their implementation. Uniquely it brings together, and brings to

life, the voices of policymakers, non-government agencies and trafficked women. The analysis is grounded in rich empirical work and research in Europe, Asia, Australia and North America. This book examines how sex trafficking has been mobilized within anti-trafficking policies across the globe and offers a close examination of the dominant international framework, drawing upon a rich and diverse set of case studies: Australia, Serbia and Thailand. This analysis draws upon over 100 interviews with trafficking 'experts' across the three nations-including policymakers, police, immigration authorities, socialworkers, lawyers, UN agencies, local and international NGOs, activists. Critically, it also draws upon the voices of women who have been trafficked.

Sex Trafficking in Postcolonial Literature - Laura Barberán Reinas 2014-08-27

in Postcolonial Literature adds an original perspective on this issue by examining representations of sex trafficking in postcolonial literature. This book is a sustained interdisciplinary study bridging postcolonial literature, in English and Spanish, and sex trafficking, as analyzed through literary theory, anthropology, sociology, history, trauma theory, journalism, and globalization studies. It encompasses postcolonial theory and literature's aesthetic analysis of sex trafficking together with research from social sciences, psychology, anthropology, and economics with the intention of offering a comprehensive analysis of the topic beyond the type of Orientalist discourse so prevalent in the media. This is an important and innovative resource for scholars in literature, postcolonial studies, gender studies, human rights and global justice.

Sex, Slavery and the Trafficked Woman - Ramona Vijeyarasa

2016-03-03

Sex, Slavery and the Trafficked Woman is a go-to text for readers who seek a comprehensive overview of the meaning of 'human trafficking' and current debates and perspectives on the issue. It presents a more nuanced understanding of human trafficking and its victims by examining - and challenging - the conventional assumptions that sit at the heart of mainstream approaches to the topic. A pioneering study, the arguments made in this book are largely drawn from the author's fieldwork in Ukraine, Vietnam and Ghana. The author demonstrates to readers how a law enforcement and criminal justice-oriented approach to trafficking has developed at the expense of a migration and human rights perspective. She highlights the importance of viewing trafficking within a broad spectrum of migratory movement. The author contests the coerced, female victim archetype as stereotypical and challenges the reader to understand trafficking in an

alternative manner, introducing the counterintuitive concept of the 'voluntary victim'. Overall, this text provides readers of migration and development, gender studies, women's rights and international law a comprehensive and multidisciplinary analysis of the concept of trafficking.

Defining Human Trafficking and Identifying Its Victims -

Venla Roth 2011-12-09

This book offers a comprehensive analysis of the legal framework against trafficking in human beings and examines why anti-trafficking strategies and activities have proved to be more ineffective and unsuccessful than anticipated on the international level and specifically in Finland.

Handbook of Sex Trafficking

- Lenore Walker 2018-12-24

This definitive reference assembles the current knowledge base on the scope and phenomena of sex trafficking as well as best practices for treatment of its survivors. A global feminist

framework reflects a profound understanding of the entrenched social inequities and ongoing world events that fuel trafficking, including in its lesser-known forms.

Empirically sound insights shed salient light on who buyers and traffickers are, why some survivors become victimizers, and the experiences of victim subpopulations (men, boys, refugees, sexual minorities), as well as emerging trends in prevention and protection, resilience and rehabilitation.

These powerful dispatches also challenge readers to consider complex questions found at the intersections of gender, race, socioeconomic status, and politics. A sampling of topics in the Handbook: · An

organizational systems view of sex trafficking. · Vulnerability factors when women and girls are trafficked. · Men, boys, and LGBTQ: invisible victims of human trafficking. · Organized crime, gangs, and trafficking. · Human trafficking prevention efforts for kids (NEST). ·

tasks. · From Trafficked to Safe House (C-SAFE). The Handbook of Sex Trafficking will interest a wide professional audience, particularly mental health workers, legal professionals, and researchers in these and related fields. Public health and law enforcement professionals will also find it an important resource.

Sex Trafficking, Human Rights, and Social Justice -

Tiantian Zheng 2010-09-13
The recognition of women's human rights to migrate and work as sex workers is disregarded and dismissed by anti-trafficking discourses of rescue in the latest United Nation's definition of trafficking. This volume explores the life experiences, agency, and human rights of trafficked women in order to shed light on the complicated processes in which anti-trafficking, human rights and social justice are intersected. In these articles, the authors critically analyze not only the conflation of trafficking with sex work in international and

national discourses and its effects on migrant women, but also the global anti-trafficking policy and the root causes for the undocumented migration and employment. Featuring case studies on eleven countries including the US, Iran, Denmark, Paris, Hong Kong, and south east Asia and offering perspectives from transnational migrant population, the contributors rearticulate the trafficking discourses away from the state control of immigration and the global policing of borders, and reassert the social justice and the needs, agency, and human rights of migrant and working communities. This book will be of interest to students and scholars of politics, gender studies, human rights, migration, sociology and anthropology.

What is Wrong with Human Trafficking? - Rita Haverkamp

The overarching objective of this volume is to discuss and critique the legal regulation of human trafficking in national and transnational context.

Specifically, discussion is needed not only with regard to the historical and philosophical points of departure for any criminalisation of trafficking, but also, regarding the societal and social framework, the empirical dimension such as existing statistics in the area, and the need for more data. The book combines descriptive and normative analyses of the crime of trafficking in human beings from a cross-legal perspective. Notwithstanding the enhanced interest for human trafficking in politics, the public and the media, a critical perspective such as the one pursued herewith has so far been largely absent. Against this background, this approach allows for theoretical findings to be addressed by pointing out and elaborating different, interdisciplinary conflicts and inconsistencies in the regulation of human trafficking. The book discusses the phenomenon of human trafficking critically from various angles, giving it 'shape' and showing how it comes to life in the legal regulation.

Sex Trafficking of Children Online - Beatriz Susana Uitts 2022-07-20

This book argues that forms of online child sexual exploitation equate to slavery-like practices under international law and that States have a responsibility to punish offenders as such, based on a careful review of relevant legal instruments and standards.

The Role of Consent in Human Trafficking - Jessica Elliott 2014-10-24

Human trafficking is consistently featured on the global political agenda. This book examines the trafficking of adult female victims for sexual exploitation, and specifically the understanding of consent and its influence in the identification and treatment of trafficking victims. Jessica Elliott argues that when applied to situations of human trafficking, migration and sexual exploitation, the notion of consent presents problems which current international laws are unable to address. Establishing the presence of 'coercion' and a

lack of consent can be highly problematic, particularly in situations of human trafficking and exploitative prostitution; activities which may be deemed inherently coercive and problematically clandestine. By examining legal definitions of human trafficking in international instruments and their domestic implementation in different countries, the book explores victimhood in the context of exploitative migration, and argues that no clear line can be drawn between those who have been smuggled, trafficked, or 'consensually trafficked' into a situation of exploitation. The book will be great use and interest to students and researchers of migration law, transnational criminal law, and gender studies.

Transnational Policing and Sex Trafficking in Southeast Europe - Georgios Papanicolaou 2011-05-03
Mounting a vigorous critique on existing approaches to transnational policing, this book lays out an argument situating transnational policing

within contemporary transformations of the capitalist state and imperialism, looking at the particular case of regional police cooperation against sex trafficking in Southeast Europe.

The Politics of Sex Trafficking - E. O'Brien
2013-09-06

This book offers a unique insight into the moral politics behind human trafficking policy in Australia and the USA, including rare interviews with key political actors, and a critical account of Congressional and Parliamentary hearings.

Sex Trafficking - Tsachi Keren-Paz 2013-06-07

trafficking, this book offers a comparative doctrinal and socio-legal analysis of private law remedies, their justification, and their effectiveness. Tsachi Keren-Paz innovatively and convincingly makes the argument that all those directly involved in breaching the rights of victims of sex trafficking should

compensate them for their losses, and make restitution of the profits made at their expense. *Sex Trafficking: A Private Law Response* will be invaluable to both academics and practitioners concerned with prostitution, modern slavery and trafficking, and those interested in private law theory and practice.
