*A Crime So Monstrous* - E. Benjamin Skinner  
2013-03-22

Two hundred years after Parliament passed the Abolition of the Slave Trade Act, over 27 million people worldwide languish in slavery, forced to work, under threat of violence, for no pay. In Africa, hundreds of thousands are considered chattel, while on the Indian subcontinent millions languish in generational debt bondage. Across the globe, women and children, sold for sex and labour, are already the second most lucrative commodity for organised crime. Through eviscerating narrative, *A Crime So Monstrous* paints a stark picture of modern slavery. Skinner infiltrates trafficking networks and slave sales on four continents, exposing a

flesh trade never before portrayed with such vivid detail. From mega-harems in Khartoum to illicit brothels in Bucharest, from slave quarries in India to urban child markets in Haiti, he lays bare a parallel universe where lives are bought, sold, used and discarded. The personal stories related here are heartbreaking but in the midst of tragedy Skinner also discovered a quiet dignity that leads some to resist and aspire to freedom. He bears witness for them and for the millions that are held in the shadows - all victims of what is the greatest human-rights challenge facing our generation.

*Human Trafficking* - Margaret Haerens  
2011-12-01

Human trafficking is a global issue, and this

volume provides the necessary global perspectives about it. Readers will first examine global trends, including learning about trafficking in Europe, the Philippines, Iceland, Bosnia, South Africa, and Israel. Over the remaining chapters, readers will evaluate factors that contribute to it, strategies to reduce it, and how we can aid victims of trafficking. Essay sources include the United Nations Office on Drugs and Crime, Integrated Regional Information Networks, Alasdair Fotheringham, Paidamoyo Muzulu, and Asumpta Lattus.

*The Boundaries of Desire* - Eric Berkowitz

2015-08-01

The act of reproduction, and its variants, never change much, but our ideas about the meaning of sex are in constant flux. Switch a decade, cross a border, or traverse class lines and the harmless pleasures of one group become the gravest crimes in another. Combining meticulous research and lively storytelling, *The Boundaries of Desire* traces the fast-moving

bloodsport of sex law over the past century, and challenges our most cherished notions about family, power, gender, and identity. Starting when courts censored birth control information as pornography and let men rape their wives, and continuing through the "sexual revolution" and into the present day (when rape, gay rights, sex trafficking, and sex on the internet saturate the news), Berkowitz shows how the law has remained out of synch with the convulsive changes in sexual morality. By focusing on the stories of real people, Berkowitz adds a compelling human element to what might otherwise be faceless legal battles. The law is made by people, after all, and nothing sparks intolerance - on the left and right -- more than sex. Ultimately, Berkowitz shows the emptiness of sanctimonious condemnation, and argues that sexual questions are too subtle and volatile for simple, catch-all solutions.

reduced to media tales of helpless young women taken by heavily accented, dark-skinned captors—but the reality is a far cry from this stereotype. In the Middle East, Dubai has been accused of being a hotbed of trafficking. Pardis Mahdavi, however, draws a more complicated and more personal picture of this city filled with migrants. Not all migrant workers are trapped, tricked, and abused. Like anyone else, they make choices to better their lives, though the risk of ending up in bad situations is high. Legislators hoping to combat human trafficking focus heavily on women and sex work, but there is real potential for abuse of both male and female migrants in a variety of areas of employment—whether on the street, in a field, at a restaurant, or at someone's house. Gridlock explores how migrants' actual experiences in Dubai contrast with the typical discussions—and global moral panic—about human trafficking. Mahdavi powerfully contrasts migrants' own stories with interviews with U.S. policy makers,

revealing the gaping disconnect between policies on human trafficking and the realities of forced labor and migration in the Persian Gulf. To work toward solving this global problem, we need to be honest about what trafficking is—and is not—and to finally get past the stereotypes about trafficked persons so we can really understand the challenges migrant workers are living through every day.

**Trafficked** - Kim Purcell 2012-02-16

Hannah has struggled ever since her parents were killed and her beloved uncle vanished. So when she's offered the chance to leave Moldova and become a nanny for a family in Los Angeles, it seems like a dream come true—and at first it is. But after weeks of working sixteen-hour days and not being able to leave the house, she still hasn't been paid. As things go from bad to worse, Hannah realizes that things are not at all what they seem and she finds herself doing things she never imagined herself capable of. But as she begins uncovering the family's

*Sex Trafficking* - Siddharth Kara 2017-08-29

"The best book ever written on human trafficking for sexual exploitation"—the basis for the feature film, *Trafficked*, starring Ashley Judd (Kevin Bales, president of Free the Slaves).

Every year, hundreds of thousands of women and children are abducted, deceived, seduced, or sold into forced prostitution. These trafficked sex slaves form the backbone of one of the world's most profitable illicit enterprises and generate huge profits for their exploiters, for unlike narcotics, which must be grown,

harvested, refined, and packaged, sex slaves require no such “processing,” and can be repeatedly “consumed.” In this book, Kara provides a riveting account of his four-continent journey into this unconscionable industry, sharing the moving stories of its victims and revealing the shocking conditions of their exploitation. He draws on his background in finance, economics, and law to provide the first ever business analysis of contemporary slavery worldwide, focusing on its most profitable and barbaric form: sex trafficking. Kara describes the local factors and global economic forces that gave rise to this and other forms of modern slavery over the past two decades and quantifies, for the first time, the size, growth, and profitability of each industry. Finally, he identifies the sectors of the sex trafficking industry that would be hardest hit by specifically designed interventions and recommends the specific legal, tactical, and policy measures that would target these vulnerable sectors and help

to abolish this form of slavery, once and for all. The author will donate a portion of the proceeds of this book to the anti-slavery organization, Free the Slaves. “Sex trafficking is more of a problem than most people realize. Read this well-written book and find out.”—Kirk Douglas

**Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States** - National Research Council 2013-11-12

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent

residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of*

Minors in the United States can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

### **Developing Community Awareness -**

Elizabeth Velazquez 2016

Human trafficking is the fastest growing criminal activity in the United States (U. S. Department of State, 2014). The majority of victims of human trafficking globally originate from the United States. In the United States, California leads in economic growth and job creation. This strong economy makes California's businesses, communities and people's targets for transnational organized crime (Harris, 2014). Nationally, California has become the leader in regards to the import and export of narcotics, weapons and human trafficking. Los Angeles is one of the main points of entry into the United States for victims of sex trafficking and San Francisco is among the cities

that are experiencing an increase in the number of sex trafficking cases (retrieved from HumanTrafficking.org, 2006). San Joaquin County is centrally located along this critical corridor that traffickers use to transport women across California. This project was developed in response to the above statistics in order to increase awareness and education among the general public of San Joaquin County in regards to the growing problem of human trafficking. This population includes high school aged students, parents, non-profit organizations, educators, government employees, and community members.

**Child Exploitation and Trafficking** - Virginia M. Kendall 2011-12-16

This book covers the history and present-day realities of the epidemic of child sexual exploitation and the law enforcement efforts to combat it. Written from the perspective of those who have spent their careers investigating, prosecuting, and adjudicating these cases, the

authors provide fresh, practical thinking to this challenging legal area.

**The Politics of Trafficking** - Stephanie Limoncelli 2010-02-23

Sex trafficking is not a recent phenomenon. Over 100 years ago, the first international traffic in women for prostitution emerged, prompting a worldwide effort to combat it. The Politics of Trafficking provides a unique look at the history of that first anti-trafficking movement, illuminating the role gender, sexuality, and national interests play in international politics. Initially conceived as a global humanitarian effort to protect women from sexual exploitation, the movement's feminist-inspired vision failed to achieve its universal goal and gradually gave way to nationalist concerns over "undesirable" migrants and state control over women themselves. Addressing an issue that is still of great concern today, this book sheds light on the ability of international non-governmental organizations to challenge state power, the

motivations for state involvement in humanitarian issues pertaining to women, and the importance of gender and sexuality to state officials engaged in nation building.

*Criminal Investigation of Sex Trafficking in America* - Leonard Territo 2013-11-01

Human trafficking is the third largest business for organized crime worldwide, next to illegal weapons trading and drugs. Written by well-respected criminal justice scholars, this book examines the criminal investigation of sex trafficking. Providing a multidisciplinary exploration of this topic, the authors discuss: International and national perspectives and the history of sex trafficking in America Effective ways to train law enforcement in investigations Major federal and state laws most applicable in sex trafficking investigations The sexual exploitation of American children and those brought in from foreign countries Interrogation of sex-trafficking suspects Crime scene examination and physical evidence The role and

responsibilities of prosecutors Effective ways to develop and maintain a multiagency task force  
**Breaking Free** - Abby Sher 2014-06-01  
Breaking Free: True Stories of Girls Who Escaped Modern Slavery, by award-winning author Abby Sher, explores the global issue of human sex trafficking from a survivor's point of view. It recounts the harrowing stories of three courageous women—Somaly Mam, Minh Dang, and Maria Suarez—who were all forced into sexual slavery as children. After escaping their captors, these three women could easily have become voiceless victims, lost to the horrors of their own histories; instead, they have each become leading advocates and activists in the anti-trafficking movement. With help from Somaly, Maria, Minh, and many other survivors and counselors, Sher tells the riveting story of what it means to be liberated from sexual trafficking and find the trust and conviction to help educate new survivors. Told with breathtaking honesty and simplicity, *Breaking Free*:

**Trauma and Sex Trafficking** - Jennifer Sarah Zimmerman 2018

The most successful treatment found to serve this population is intensive, trauma focused residential treatment. In working with youth who have been sex trafficked, one must always take into consideration how the trauma that the youth has experienced is bleeding into and affecting the present moment, situation, or conflict. There needs to be more resources. Taking on the issue of policy, there needs to be more legislation passed authorizing more funds to pay for this trauma centered therapy in these residential treatment centers.

and was hired. Good money, world travel, and the chance to help rebuild a war-torn country sounded like the perfect job. Bolkovac was shipped out to Bosnia, where DynCorp had been contracted to support the UN peacekeeping mission. She was assigned as a human rights investigator, heading the gender affairs unit. The lack of proper training provided sounded the first alarm bell, but once she arrived in Sarajevo, she found out that things were a lot worse. At great risk to her personal safety, she began to unravel the ugly truth about officers involved in human trafficking and forced prostitution and their connections to private mercenary contractors, the UN, and the U.S. State Department. After bringing this evidence to light, Bolkovac was demoted, felt threatened with bodily harm, was fired, and ultimately forced to flee the country under cover of darkness—bringing the incriminating documents with her. Thanks to the evidence she collected, she won a lawsuit against DynCorp, finally

exposing them for what they had done. This is her story and the story of the women she helped achieve justice for.
