**Woman on the Edge of Time**

- Marge Piercy 1997-06-23

Hailed as a classic of speculative fiction, Marge Piercy's landmark novel is a transformative vision of two futures—and what it takes to will one or the other into reality. Harrowing and prescient, *Woman on the Edge of Time* speaks to a new generation on whom these choices weigh more heavily than ever before. Connie Ramos is a Mexican American woman living on the streets of New York. Once ambitious and proud, she has lost her child, her husband, her dignity—and now they want to take her sanity. After being unjustly committed to a mental institution, Connie is contacted by an envoy from the year 2137, who shows her a time of sexual and racial equality, environmental purity, and unprecedented self-actualization. But Connie also bears witness to another potential outcome: a society of

Every day, Zoe struggles to keep going. The cruel winter took her father's life and left her angry and broken hearted. As she carries her little brother through a snowstorm that could kill him in minutes, her only thought is finding shelter. The cabin beyond the woods is far from the place of safety she hoped it would be, but it is

there that she meets a man whose muscular body, marked with strange and primitive tattoos, hints at an extraordinary story. He has the power to light up the lake, and with it, Zoe's world. Zoe calls the stranger X. He is a bounty hunter, tormented by the evils of his victims, which course through his veins. X has never known anything but hate, until he meets Zoe. She shows him what a heart is really for and, if they can find a way to be together, just maybe, his pain can help Zoe forget her own. This high-stakes, heart-pounding romance will leave readers breathless for this break-out new series and its sequel.

Then that phone call and...her memory splits in two. She was Trish, a housewife and mother of four. She was Pat, a successful travel writer and mother of three. She remembers living her life as both women, so very clearly. Which memory is real - or are both just tricks of time and light? My Real Children is the story of both of Patricia Cowan's lives - each with its loves and losses, sorrows and triumphs, its possible consequences. It is a novel about how every life means the entire world.

SHORTLISTED FOR THE 2016

GORDON BURN PRIZE It's

1965, and in Primrose Hill,

north London, a beautiful

young woman has just gassed

herself to death, leaving behind

a suicide note, two small

children, and an about-to-be-

published manuscript: The Captive Wife. Like Sylvia Plath, who died in eerily similar circumstances two years earlier just two streets away, Hannah Gavron was a writer. But no-one had ever imagined that she might take her own life. Bright, sophisticated, and swept up in the progressive politics of the 1960s, Hannah was a promising academic and the wife of a rising entrepreneur. Surrounded by success, she seemed to live a gilded life. But there was another side to Hannah, as Jeremy Gavron's searching memoir of his mother reveals. Piecing together the events that led to his mother's suicide when he was just four, he discovers that Hannah's success came at a price, and that the pressures she faced as she carved out her place in a man's world may have contributed to her death. Searching for the mother who was never talked about as he grew up, he discovers letters, diaries, and photos that paint a picture of a brilliant but complex young woman

grappling to find an outlet for her creativity, sexuality, and intelligence. A Woman on the Edge of Time not only documents the too-short life of an extraordinary woman; it is a searching examination of the suffocating constrictions in place on intelligent, ambitious women in the middle of the twentieth century. PRAISE FOR JEREMY GAVRON 'Jeremy Gavron's quest [in writing A Woman on the Edge of Time] is a double quest: to find out what his mother was like in life and to find out why she killed herself ... The tenacity with which he pursues this goal is extraordinary ... The taboo of silence that shrouded Jeremy's childhood is broken. Those complicit with it aren't arraigned; the tone is patient and compassionate. But Hannah [Gavron] steps out of the shadow, 50 years on, and "the great unsaids" are finally spoken.' The Guardian 'I stayed up all night to finish A Woman on the Edge of Time, this doggedly reported, elegantly written tale of Jeremy Gavron's search to uncover the reason

for the suicide of his clever, beautiful, academic mother ... It's deeply personal, but without self-indulgence.' The Times

She says your name. Then she jumps... In a split second, Morgan Kincaid's life changes forever. She's on her way home from work when a mother begs her to take her baby, then places the infant in her arms. Before Morgan can stop her, the distraught mother jumps in front of an oncoming train. Morgan has never seen this woman before, and she can't understand what would cause a person to give away her child and take her own life. She also can't understand how this woman knew her name. She also learns that no witness can corroborate her version of events, which means she's just become a murder suspect. To

**Science Fiction: A Very Short Introduction** - David Seed 2011-06-23

Often compared to Margaret Atwood's *The Handmaid's Tale* and Naomi Alderman's *The Power* - *Woman on the Edge of Time* has been hailed as a classic of speculative science fiction. Disturbing and forward thinking, Marge Piercy's remarkable novel will speak to a new generation of readers. Connie Ramos has been unjustly incarcerated in a mental institution with no hope of release. The authorities view her as a danger to herself and to others. Her family has given up on her. But Connie has a secret - a way to escape the confines of her cell. She can see the future. . . For fans of *THE HANDMAID'S TALE* and *THE POWER*, this is a reissue of a much loved feminist classic.

*On the Edge of Gone* - Corinne Duyvis 2016-03-08

A thrilling, thought-provoking novel from one of young-adult literature's boldest new talents. January 29, 2035. That's the day the comet is scheduled to hit—the big one. Denise and her mother and sister, Iris, have been assigned to a temporary shelter outside their hometown of Amsterdam to wait out the blast, but Iris is nowhere to be found, and at the rate Denise's drug-addicted

mother is going, they'll never reach the shelter in time. A last-minute meeting leads them to something better than a temporary shelter—a generation ship, scheduled to leave Earth behind to colonize new worlds after the comet hits. But everyone on the ship has been chosen because of their usefulness. Denise is autistic and fears that she'll never be allowed to stay. Can she obtain a spot before the ship takes flight? What about her mother and sister? When the future of the human race is at stake, whose lives matter most?
