Equity in the Classroom - Patricia Murphy 1996

Concerned with pedagogy and the learning achievement of both girls and boys, this book examines international trends in subject performance throughout schooling and looks critically at a range of interventions in difference contexts and countries, all aimed at enhancing equity in schools and higher education institutions. The book argues that pedagogy can not be isolated from the overarching gender-education system. What can be done, it claims, is that teachers can be provided with a range of pedagogic strategies which can be used to make education, as it is experienced by students and reflected in their achievements, more just.

**A New Approach to ICSE Biology for Class IX (A.Y.**

**2023-24)Onward** - Dr. S. K. Aggarwal 2023-05-20

Biology is the study of life and living organisms. During the past some years, biology has shifted its focus from the structure of living organisms to looking more at how they work and function. These advances in biological knowledge raise new issues. The present book will help you to understand and in your own way contribute to the biological revolution which is taking place in our lives. This book has been revised and upgraded in accordance with the latest syllabus of Biology prescribed by the Council for Indian School Certificate Examinations, New Delhi. Unique features of this book are : • Written in a very simple, easy-to-understand language, and in a sequential manner. • Content is written in a comprehensive style with well-illustrated\* properlylabelled diagrams. • Investigations (Experiments or Activities) related to the topics in each chapter have been given to cement the conceptual understanding. • Text and illustrations contribute to the basic understanding and appreciation of the field of biology. Charts and tables have been given to make the chapters more informative. • Some extra useful information has been provided within boxes to enhance the students' knowledge. • Comprehensive Self-check Questions (Test Yourself) to check the progress of the students and their retention capacity. • At the end of each chapter, Exercises have been given which comprise objective type questions, short answer type questions, long answer type questions and picture-based questions. • QR Codes have been provided at the end of each chapter to facilitate access to the Question Bank (Solved) of that chapter. • ICSE Specimen Question Paper (Solved). • Annual Examination Paper 2019 (Solved). • Five Model Test Papers (Unsolved), as per the latest specimen paper. I hope this book will prove very useful to the students and teachers. Suggestions and constructive criticism for the further improvement of the book would be gratefully acknowledged and incorporated in subsequent editions. -Author

Intersectional Approach - Guidroz Kathleen 2010-05-07

Inter sectionality, or the consideration of race, class, and gender, is one of the prominent contemporary theoretical contributions made by scholars in the field of women's studies that now broadly extends across the humanities, social sciences, and natural sciences. Taking stock of this transformative paradigm, The Intersectional Approach guides new and established researchers to engage in a critical reflection about the broad adoption of inter sectionality that constitutes what the editors call a new "social literacy" for scholars. In eighteen essays, contributors examine various topics of interest to students and researchers from a feminist

perspective as well as through their respective disciplines, looking specifically at gender inequalities related to globalization, health, motherhood, sexuality, body image, and aging. Together, these essays provide a critical overview of the paradigm, highlight new theoretical and methodological advances, and make a strong case for the continued use of the intersectional approach both within the borders of women's and gender studies and beyond.

**Pathways to Social Class** - Daniel Bertaux 2017-07-12

Calling for a broader, new approach to social mobility research, Pathways to Social Class: A Qualitative Approach to Social Mobility moves beyond pure statistics to use qualitative techniques-such as life stories and family case studies-to examine more closely the dynamics of mobility and address more fundamental sociological questions.

Child Development: An Active Learning Approach - Laura E. Levine 2010-09-16

Although the field of child and adolescent development seems to be an easy one in which to provide active learning opportunities to students, few textbooks currently exist that actually do this. Child Development: An Active Learning Approach includes the following key features: - Challenging Misconceptions: true/false or multiple choice tests are incorporated at the beginning of each chapter to specifically address topics that are sources of misunderstanding amongst students. - Activities with children and adolescents: 'hands-on' activities that complement the ideas of the text, as an integral part of the text, rather than as "add-ons" at the end of each chapter. - 'The journey of research' will introduce students to the process of research that leads from early findings to more refined outcomes through real-life examples - 'Test Yourself' sections include activities that cause students to reflect on an issue through their own experiences to bring about increased motivation and understanding of a specific topic. - The Instructor's Resource CD-ROM includes a computerized test bank, PowerPoint Slides, sample syllabi, suggested in-class learning activities, and homework assignments. - The Student Study Site includes interactive videos, self-quizzes, key term flashcards, SAGE journal articles with accompanying exercises, and web links with accompanying exercises.

**Inclusive Education in a Post-Soviet Context** - Tsedisio Michael Makoelle 2021-02-27

This book provides the first evidence-based reference about inclusive education in Kazakhstan, one of the post-Soviet Union countries. This nation, as well as many other central Asian countries, is undergoing a radical transformation and change in education which encompasses the implementation of inclusive and special education. This book is composed of chapters synthesized from various studies and captures different aspects of the implementation of inclusive education in Kazakhstan. The implementations of inclusive education in any educational system require a multi-dimensional, multi-level and an integrated approach. It requires collaborative efforts on part of all stakeholders including governance, pedagogical, auxiliary and support structures. This book is a collection of evidence-based studies in a

Kazakhstani educational context that demonstrates the multifaceted nature of the process to realize an educational system that is inclusive. The book highlights some of the fundamental requirements and challenges for this process to succeed. Among the main issues addressed in this book are the understanding of inclusive education, the transition towards inclusive education given the soviet legacy, the role of school leadership, teachers, parents and other stakeholders in the process. The findings in each chapter demonstrate some of the milestones and challenges of inclusivity. This work will be of interest to academics, scholars, students and teachers in this field.

**The Forward Male - World-class day game for the male in his 20s** - Mike Mehlman 2019-04-06

The Forward Male presents a collection of essential essays on day game approach for the male in his 20s. The author introduces a manifold array of novel ideas and implementations that revolutionize game theory and dismantle prior established notions. This work is best described as a necessary and remarkable coalescence of kinetic outflow following years of "silent wolf" approaching in which the author has had zero online presence or awareness. The Forward Male's nexus of insights serves to challenge and upend convictions of even the most seasoned approach veterans while simultaneously providing layers of value to the novice male.

Women, Race & Class - Angela Y. Davis 2019-10-03

Ranging from the age of slavery to contemporary injustices, this groundbreaking history of race, gender and class inequality by the radical political activist Angela Davis offers an alternative view of female struggles for liberation. Tracing the intertwined histories of the abolitionist and women's suffrage movements, Davis examines the racism and class prejudice inherent in so much of white feminism, and in doing so brings to light new pioneering heroines, from field slaves to mill workers, who fought back and refused to accept the lives into which they were born. 'The power of her historical insights and the sweetness of her dream cannot be denied' The New York Times

They Created Us - Denise Mercado 2006-11

Click this link to read a review of They Created Us. They Created Us is a family's journey through the disability world that begins with their second son's encounter with Hflu meningitis at six months of age.

Through their journey, you will learn the complexities of the bureaucracy along with strategies to maneuver through a sometimes unresponsive system. Special Education, Medicaid Waivers, EPSDT, and Independent Case Management are all part of a family's world when their child experiences disabilities. This family's journey uncovers injustices and allows opportunity for basic rights to be realized throughout the systems that were put in place to help children with disabilities.

A Worldview Approach to Ministry among Muslim Women - Cynthia A. Strong 2006-06-01

Four years in the making, A Worldview Approach to Ministry Among Muslim Women is a ground-breaking exploration into the way culture and worldview affect ministry among Muslim women. Using original field research from eight different language and culture groups, the book explores a variety of ministries among Muslim women and provides tools to analyze their effectiveness. With contributions from scholars, field workers and agency administrators, readers are encouraged in a holistic Muslim ministry perspective through in-depth studies in Muslim beliefs, anthropological tools, worldview analyses, and explorations in strategic issues and discipleship. The book concludes with case studies and discussion questions to provide a comprehensive training manual for workers and students alike.

An Interpersonal Approach to Classroom Management - Heather A. Davis 2012-08-07

Presenting the psychology behind the best-managed classrooms The authors engage you from the start by contrasting how differently teachers respond to common situations. They expertly bridge the gap between educational psychology and classroom management from the perspectives of student engagement, peer and student-teacher relationships, and teacher self regulation. Both current and prospective teachers will find helpful tools for engaging difficult students, managing challenging relationships, and handling conflict. Key topics include: Student behavioral, relational, and cognitive engagement in the learning process Classroom structures that contribute to student engagement The contribution of peer relationships to positive and negative behavior management Strategies that help children learn to manage their own behavior Connecting with students who are culturally and linguistically diverse

**Girls Make Media** - Mary Celeste Kearney 2013-08-21

More girls are producing media today than at any other point in U.S. history, and they are creating media texts in virtually every format currently possible--magazines, films, musical recordings, and websites. Girls Make Media explores how young female media producers have reclaimed and reconfigured girlhood as a site for radical social, cultural, and political agency. Central to the book is an analysis of Riot Grrrl--a 1990s feminist youth movement from a fusion of punk rock and gender theory--and the girl power movement it inspired. The author also looks at the rise of girls-only media education programs, and the creation of girls' studies. This book will be essential reading for anyone seeking to understand contemporary female youth in today's media culture.

**Re-presenting the Past** - Ann-Marie Gallagher 2014-06-11

Feminist history continues to change the way history is written, and in doing so changes our view of the past. The authors of this collection explore how issues of sexuality, class, nationalism and colonialism informed the ways in which women were represented and continue to be represented in history. They show the ways in which women have been excluded, silenced and misrepresented in stories of the past, and how women's lives have been distorted or simplified in conventional historical accounts. Together, they suggest fresh ways of approaching women's history, and use examples of work in new areas of research such as women's health and leisure in order to demonstrate the effectiveness of the various methodologies being proposed.

A Theoretical Approach to Modern American History and Literature - W. Lawrence Hogue 2020-01-10

This book reconfigures the history of modern America, showing how multiple and, at times, vulnerable social, economic, literary, and political movements, levels, divisions, and conditions such as the emergent middle class, the labor movement, the Progressive Movement, the socialist and communist parties, the Women's movements, the NAACP, the Garvey movement, Asian and Native American resistance movements, writers, artists, and intellectuals seized upon social, gender, economic, and racial inequalities and challenged a singularly defined modern America. This book re-represents the modern American novel, accenting the different critical literary voices that come out of the mainstream consumer society but also out of the various unequal social, economic, gender, and political movements and situations. In including racial, gender, sexual, colonial, class, and ethnic others—who reject the rigidity, the repression, the racial and ethnic stereotyping, the external and internal colonialism, the complication/rejection of the past/nature, and the violence of the institutionalized, conformist norm—in a discussion of the modern American novel, it effects a fundamental recasting of the modern Americanist paradigm, one that is de-centered, richer, more complex, and more diverse.

**Approach and Talk to a Girl** - J. Covey 2019-09-24

Nervous to Approach and Talk to Women 1-on-1? Wipe Your Tears - The Final Solution is Here... [Currently, buy the Paperback and get the Kindle eBook included for free. Soon, it won't be free] If anyone had told me I'd be amazing and confident in getting women some years ago, I wouldn't believe. I have been through what you're going through. I was scared to approach and talk to the women I liked. After so much frustration, I decided enough was enough--just the same way you have finally decided and ended up here, which is the best place to discover all the things dating gurus will never tell you about approaching beautiful women the right way. In Chapter 1, WWWWW, we gave a list of words that'll appear as we learn the craft of approaching a woman. We discussed the only two types of ways to woo her which are ID (In-Direct opener) and DO (Direct Opener), and how they're applied with examples. We looked into nervousness. We looked into the Five WWWWWs of starting a conversation with a woman which are: Where, When, Why, What, & Which. And we finally added extra examples of DO and ID. In Chapter 2, Operation Rejection, shortened as ORej. We talked on approaching women while having rejection as your most important outcome. If you're not rejected, it's a failure. Being rejected is a success. We looked into 7 different "How Tos" which are: how to woo a seated girl (in any settings); how to woo in class, school, gym centers,

gatherings, events and parties; how to woo at the workplace or in an office; how to woo a girl who makes you nervous; how to woo a stubborn girl; how to woo a girl at the market or mall, and how to woo a girl on the queue (any queue) with some examples for each. In Chapter 3, ON/OFF, we discussed how Push and Pull (PP) works with some examples. We talked on the types of push and pull. We also looked into things you'll have or be that'll make you never to be nervous around girls. We gave an example on building rapport with Sad Anchor and other explanations. In Chapter 4, look inside to see what it's all about. In Chapter 5, Accidental Accusation, we talked on how to accuse a girl to start a conversation. This technique gets a woman hooked with curiosity. We looked into psychological compliments and humor with some examples of how they work. We briefly discussed how to treat a woman and how to book a date. I told some personal stories and gave some examples. We also discussed one of the keys to dating. We talked about flaking and how to handle women's insult and convert them to compliments. In Chapter 6, Legends' Magic. This is one of the most important chapters, because we gave some brief explanations on other things and finally looked into the magic formula to come up with your personal conversations. We discussed the mighty EARTH formulas. The three types and gave an

example of each. We have iEarth, EARTH, and EARTHics. In Chapter 7, Kidding, we gave a list of childish and stupid pick-up lines which will not make sense to men, but women will laugh when they hear some of them. We gave an example on iSHY wooing/chatting technique. In Chapter 8, Mindset. We talked on how you should not start a conversation from the beginning, but always from the middle. We talked on how to woo a lady you haven't seen before. We equally discussed how to use arrogance and humor to woo a lady. We discussed a good-bad boy and a typical bad boy and much more. Finally, we revealed something that'll FOREVER change your life in the dating game and stay ahead of other men with picture illustrations. A secret you can't find anywhere online or offline. "Never worry about action, but only inaction." - Winston Churchill Take action right now by scrolling up, then click the BUY NOW button and get yourself your personal copy to uncover the life-changing tips in the book, Approach and Talk to a Girl.
