A Companion to Latin American Women Writers - Brigida M. Pastor
2012

This volume offers a critical study of a representative selection of Latin American women writers who have made major contributions to all literary genres and represent a wide range of literary perspectives and styles. Many of these women have attained the highest literary honours: Gabriela Mistral won the Nobel Prize in 1945; Clarice Lispector attracted the critical attention of theorists working mainly outside the Hispanic area; others have made such telling contributions to particular strands of literature that their names are immediately evocative of specific currents or styles. Elena Poniatowska is associated with testimonial writing; Isabel Allende and Laura Esquivel are known for the magical realism of their texts; others, such as Juana de Ibarbourou and Laura Restrepo remain relatively unknown despite their contributions to erotic poetry and to postcolonial prose fiction respectively. The distinctiveness of this volume lies in its attention to writers from widely differing historical and social contexts and to the diverse theoretical approaches adopted by the authors. Brígida M. Pastor teaches Latin American literature and film at the University of Glasgow . Her publications include Fashioning Cuban Feminism and Beyond, El discurso de Gertrudis Gómez de Avellaneda: Identidad Femenina y Otredad; and Discursos Caribenhos: Historia, Literatura e Cinema Lloyd Hughes Davies teaches Spanish American

Literature at Swansea University. His publications include Isabel Allende, La casa de los espíritus and Projections of Peronism in Argentine Autobiography, Biography and Fiction.

The Taste Culture Reader - Carolyn Korsmeyer 2016-12-29

Taste is recognized as one of the most evocative senses. The flavors of food play an important role in identity, memory, emotion, desire, and aversion, as well as social, religious and other occasions. Yet despite its fundamental role, taste is often mysteriously absent from discussions about food. Now in its second edition, The Taste Culture Reader examines the sensuous dimensions of eating and drinking and highlights the centrality of taste in human experience. Combining both classic and contemporary sources from anthropology, philosophy, sociology, history,

science, and beyond, the book features excerpts from texts by David Hume, Immanuel Kant, Pierre Bourdieu, Brillat-Savarin, Marcel Proust, Sidney Mintz, and M.F.K. Fisher as well as original essays by authors such as David Sutton, Lisa Heldke, David Howes, Constance Classen, and Amy Trubek. This edition has been revised substantially throughout to include the latest scholarship on the senses and features new introductions from the editor as well as 10 new chapters. The perfect introduction to the study of taste, this is essential reading for students in food studies, anthropology, sensory studies, philosophy, and culinary arts.

Subversive Silences - Helene Carol Weldt-Basson 2009

Weldt-Basson (Spanish, Wayne State U.) investigates how seven Latin American women writers of the twentieth and twenty-first centuries have used the concept of submissive silence in their works as a sign of women's rebellion against the passive silence imposed by patriarchy. Using different theoretical perspectives in each chapter, she demonstrates how Marta Brunet, Maria Luisa Bombal, Rosario Castellanos, Isabel Allende, Rosario Ferre, Laura Esquivel, and Sandra Cisneros have used silence thematically and stylistically through hyperbole, coding, irony, parody, and cultural symbol and how silence reflects different time periods and countries.

Literature of Latin America - Rafael Ocasio 2004-07-30

Many readers have already discovered the magic of Garcia Marquez's One Hundred Years of Solitude and the allure of Allende's The House of the Spirits. By examining such popular works and introducing a host of lesser-known Latin American writers and their fiction, this volume helps readers navigate the rich and varied culture at the heart of Latin American literature. Going beyond the usual literary criticism, this book considers works of Latin American literature not only in terms of literary merit, but also with regard to their place in the literary heritage. It also examines the cultural messages we can learn from both historic and contemporary works. This volume, taken as a whole, provides a wealth of information with the depth and authority demanded for serious research. At the same time, the book is structured with chronological and topical organization, so that each chapter can be read and enjoyed independently. The analysis is written with clarity and accessibility for the nonspecialists, and all terms are defined, to help students and their

teachers better appreciate the Latin American writers, their novels, and the cultures that shaped them. Ten teachers were consulted on the content to ensure that the works and authors covered met student needs and interests. A timeline of historical events, and further suggested readings lend further assistance to readers who want to research and fully understand the historical and cultural significance behind these literary works.

When Tita falls in love with Pedro, she is told that being the youngest of three sisters, she will never be allowed to marry as she will have to care for her mother. As the second part of a trilogy, Tita's Diary brings to light a secret that will allow readers to rediscover their own intimacy as they turn page after page of never-before-seen photos, hand-pressed flower arrangements, and recipes that were skipped in the original novel. It's the physical manifestation of Tita's dream: to share her thoughts on love, food and alchemy with the world. This touching tale will plunge readers deep into the universe of Like Water for Chocolate, the captivating story that has known no borders.

Latin American Women Writers - Kathy S. Leonard 2007-09-19

There is a wealth of published literature in English by Latin American women writers, but such material can be difficult to locate due to the lack of available bibliographic resources. In addition, the various types of published narrative (short stories, novels, novellas, autobiographies, and biographies) by Latin American women writers has increased

significantly in the last ten to fifteen years. To address the lack of bibliographic resources, Kathy Leonard has compiled Latin American Women Writers: A Resource Guide to Titles in English. This reference includes all forms of narrative-short story, autobiography, novel, novel excerpt, and others-by Latin American women dating from 1898 to 2007. More than 3,000 individual titles are included by more than 500 authors. This includes nearly 200 anthologies, more than 100 autobiographies/biographies or other narrative, and almost 250 novels written by more than 100 authors from 16 different countries. For the purposes of this bibliography, authors who were born in Latin America and either continue to live there or have immigrated to the United States are included. Also, titles of pieces are listed as originally written, in either Spanish or Portuguese. If the book was originally written in English, a phrase to that effect is included, to better reflect the linguistic diversity of narrative currently being published. This volume contains seven indexes: Authors by Country of Origin, Authors/Titles of Work, Titles of Work/Authors, Autobiographies/Biographies and Other Narrative, Anthologies, Novels and Novellas in Alphabetical Order by Author, and Novels and Novellas by Authors' Country of Origin. Reflecting the increase in literary production and the facilitation of materials, this volume contains a comprehensive listing of narrative pieces in English by Latin American women writers not found in any other single volume currently on the market. This work of reference will be of special interest to scholars, students, and instructors interested in narrative works in English by Latin American women authors. It will also help expose new generations of readers to the highly creative and diverse literature being produced by these writers.

Mexican-American Cuisine - Ilan Stavans 2011-09-22

Providing food for the brain as well as the body, this wonderful collection of essays explores the boundaries between Mexican and Mexican-American foods, promotes philosophical understandings of Mexican-American cuisine, and shares recipes from both past and present.

Defining Mexican-American food is difficult due to its incredibly diverse roots and traditions. This unique style of cuisine varies significantly from Mexican and Latin American cuisines, fusing Native American and Hispanic influences stemming from three centuries of first Spanish and

later Mexican rule. In *Mexican-American Cuisine*, renowned authority in Latino culture Ilan Stavans and 10 other experts in southwestern cuisine explore the food itself and associated traditions. The book presents nine scholarly essays that examine philosophical understandings of Mexican-American cuisine. Covering both platillos principales (main dishes) and postres (desserts), the authors serve up a sideboard of anthropological, ethnographic, sociological, and culinary observations. Essay topics include the boundaries between Mexican and Mexican-American food, the history and uses of the chile, and the derivations of Mexican cuisine. Readers are also treated to recipes and recommendations by 19th-century California chef Encarnación Pinedo who explores "The Art of Cooking."
