*The Methods and Methodologies of Qualitative Family Research* Janet F Gilgun 2014-06-03 The Methods and Methodologies of Qualitative Family Research can provide you with a strong conceptual framework for undertaking qualitative research. As it explores inquiry and theory on the cutting edge, it shows how qualitative methodologies can be applied to family life, education, and research. Designed to demonstrate how emerging and established methodologies can advance the understanding of families and direct social change, this book is a major step in assessing the development, progress, and contributions of qualitative inquiry. Packed with useful information and innovative approaches, this volume pulls together a rich and diverse group of essays that teach readers about the complexities and challenges of qualitative research. Most importantly, you'll learn how new qualitative approaches are grounded in systems thinking, holistic formulations, attention to context, cultural sensitivity, and nonlinear dynamics. The Methods and Methodologies of Qualitative Family Research is distinct from other books of its kind because it acknowledges the agent, or self, in compiling data and reaching conclusions. Moreover, it analyzes how studying the world affects those doing the studying and how those effects, in turn, play a substantial role in interpreting data and forming conclusions. The Methods and Methodologies of Qualitative Family Research introduces three major types of qualitative clinical family research: conversational analysis, recursive frame analysis, and hermeneutic phenomenology. It exposes a wide array of resources for undertaking qualitative inquiry, including data journals, letters, official files, clinical case notes, folk tales, interviews, and field observations. You'll learn how these resources are invaluable tools for understanding: couples' decisionmaking generative fathering reflexivity the use of historical data to construct composite cases egalitarianism and oppression in marriage perceptions of gender, race, and class among African-American adolescent women successful aging among individuals who require long-term care poverty and access to services A skillful blend of theory and practice, The Methods and Methodologies of Qualitative Family Research offers conceptual schemes, bibliographies, and other useful resources for teaching and conducting qualitative research. It will revolutionize the way you think about qualitative inquiry and your own approaches to qualitative family research. In addition, you'll come away updated on the current state of qualitative research and with new skills and techniques for tackling your own research.

Intimate Partner and Family Abuse John Hamel, LCSW 2008-06-16 "The collected case examples are noteworthy in their diversity of presenting issue, treatment format, and outcome. As a whole, they underline our continued need to conduct assessments with clients prior to initiating treatment, to direct treatment toward identified client-related problems (in essence, meeting clients where they are), and to collect data that speaks to the effectiveness of our interventions in many settings and with many types of clients." -Jennifer Langhinrichsen-Rohling, PhD, Professor of Psychology, University of South Alabama Shows how to successfully conduct family interventions using case studies Includes male-perpetrated, female-perpetrated, and mutual violence scenarios Presents a variety of theoretical orientations Includes discussion questions after each case study This casebook showcases a wide variety of couples and families whose domestic violence cases vary in their composition, ethnic and socioeconomic status, and mental health issues. The case authors outline different therapeutic approaches for each case, including cognitive-behavioral, family systems, feminist, problem-solving, and many others. Each account includes a thorough description of the assessment procedure, treatment goals and reasons for selecting a particular approach and an account of the course of treatment. The book is primarily intended for mental health professionals and graduate students in the fields of family therapy, counseling, and family violence; but will also be of value to anyone in the field of family violence and those concerned with domestic violence public policy, prevention, and intervention.

**The Role of Gender in Practice Knowledge** Josefina Figueira McDonough 2018-10-24 Feminist critiques of the social sciences are based on the assumption that because the social sciences were developed for the most part by white, middle-class, Western men, the perspectives of women were ignored. This book offers an approach for integrating gender-related content into the social work curriculum. The distinguished contributors discuss the shortcoming of dominant knowledge, address the pressing need for a gender-integrated curriculum, consider the pedagogies consistent with the implementation of an integrate curriculum, address specific areas in social work education, assessing content, and assumptions, and discuss strategic issues for the implementation of curricular knowledge.

**Social Influence on Close Relationships** Christopher R. Agnew 2014-10-09 How do we choose a partner to initiate a relationship with, and what makes us stay in a given relationship over time? These questions are most often pursued by scholars with an emphasis on the internal thoughts, feelings, and motivations of individual decision-makers. Conversely, this volume highlights the importance of considering external influences on individual decision-making in close relationships. Featuring contributions from internationally renowned scholars, the volume is divided into two interrelated sections. The first section considers global and societal influences on romantic relationships and the second focuses on social network and communicative influences on romantic relationships. Taken together, this collection helps us to better understand how external factors influence the internal machinations of those involved in intimate relationships.

**Understanding Families Into the New Millenium** Robert M. Milardo 2001

**The Public Life of Friendship** Jennifer Wilkinson 2019-01-09 This book is about friendships in public settings today. Wilkinson examines friendships in the public settings of neighbourhoods, civil society and at work. Identifying the unique relevance which public friendships have to contemporary social problems, the chapters cover a range of topics, including work-life balance, women's 'double burden' and their leisure deficit, and contemporary neighbouring initiatives. Wilkinson shows how

'friendship time' at work provides solutions to new social problems including privacy: with the modern workplace being hyper-public and emphasizing visibility, monitoring and 24/7 availability, friendship's combination of voluntarism and trust enable a private refuge even in an open-plan office. The book also explores the way in which friendships in public settings like work and neighbourhood provide community to those in society who are more likely to be excluded from private familial intimacy. *The Public Life of Friendship* will be of interest to students and scholars across a range of social science disciplines with an interest in friendship and the sociology of personal life.

*Sourcebook of Family Theory and Research* Vern L. Bengtson 2005 This volume provides a diverse, eclectic, and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research."

**Generative Fathering** Alan J. Hawkins 1997 Much contemporary scholarship on fathers comes from a deficit model, focusing on men's inadequacies as parents. This volume goes beyond a deficit model of fatherhood to what the editors term a 'generative fathering perspective'. It presents research that helps readers to understand generative fathering in challenging life circumstances.

*The Dark Side of Courtship* Sally A. Lloyd 2000 The negative interactions that take place between dating and courting partners, most notably physical aggression and sexual exploitation, are explored in this volume. The authors blend qualitative interviews with current research findings.

**The Dark Side of Close Relationships** Brian H. Spitzberg 2013-06-17 This collection of essays represents a follow-up to the editors' 1994 publication, *The Dark Side of Interpersonal Communication*. In the preface to that collection of essays, they argued that "To fully understand how people function effectively requires us to consider how individuals cope with social interaction that is difficult, problematic, challenging, distressing, and disruptive." In this companion volume, the focus expands from social interaction to close relationships. Aside from the inherent need to investigate the bad as well as the good of interpersonal relationships, the editors and their colleagues simply find the dark side metaphor to be intellectually arousing. It stimulates investigation of important yet often neglected phenomena, and it especially encourages consideration of the hidden and forbidden, and the paradoxical and ironic elements of human relating. This volume assembles the cutting-edge work of first rate scholars from the ranks of communication, psychology, sociology, and cognate disciplines. As in the previous text, the subject matter and stylistic approaches are diverse, reflecting the broad and interdisciplinary domain that is the dark side of human affairs. The selection of topics is somewhat selective, reflecting only a sample of emerging scholarship in the interdisciplinary study of relationships. These internationally recognized scholars examine various topics related to the dark side, including fatal attractions, jealousy and envy, misunderstanding, gossip, conflict, codependence, sexual coercion, stalking, relationship termination, unrequited love, and mental health problems in relationships. Some chapters present original data and models, whereas others reconfigure the way in which the understandings of relationships can be better understood. In addition, the bookend chapters examine the ideology, nature, and problems of dark side scholarship. Collectively, the scholarly journeys made in this volume are intended to illustrate the complexities--both moral and functional--involved in close relationship processes. The intent is neither to valorize nor demonize the darker aspects of close relationships, but rather to emphasize their importance to the day-to-day "doing" of relationships. Only by accepting such processes as integral to relationships can their role be fully understood.

**Telling Histories** Deborah Gray White 2008 The field of black women's history gained recognition as a legitimate field of study late in the twentieth century. Collecting stories that are both deeply personal and powerfully political, *Telling Histories* compiles seventeen personal narratives by leading black women historians at various stages in their careers, illuminating how they entered and navigated higher education, a world concerned with - and dominated by - whites and men. In distinct voices and from different vantage points, the personal histories revealed here also tell the story of the struggle to establish the fields of African American and African American women's history.

The Perils of Masculinity Andreas G. Philaretou 2004 In this book, Andreas G. Philaretou uses autobiographical reflection to investigate the negative impact of traditional masculine gender socialization on men's lives. Through an analysis that uses a feminist postmodern ideology of gender deconstruction and reconstruction, Philaretou sheds new light on the understudied area of male hurt, which is often experienced within the context of interpersonal relationships in dating, marital, and familial settings, and tends to be manifested in the form of male sexual anxiety, sexual addiction, and relational abuse.

**Intimate Relationships across Cultures** Charles T. Hill 2019-06-20 A ground breaking study of the ways that intimate relationships are similar around the world, and the ways they are different.

*SURVIVING THE ACADEMY* Danusia Malina 2003-09-02 This text brings together writing and research on feminist experience in academia. It covers issues such as provision of care, maternalism in the academy and dynamics of interaction between women in higher education. There are challenging and provocative analyses of many questions: how large is the gap between rhetoric and reality in HE institutions? how do institutions behave towards disabled staff? how far is stereotyping still affecting the roles which women play in academia? what do women face when they combine motherhood with teaching or studying? coping mechanisms and survival tactics are brought under scrutiny, and the effect these have on the behaviour of female academics and their interactions with the institution of each other. This text should provide insight and evidence for researchers to further develop their own theories, and also many starting points for those wishing to undertake their own research. Written in collaboration with the Women in Higher Education Network.

**Out of the Darkness** Glenda Kaufman Kantor 1997-07-18 This collection, based on papers from the 4th International Family Violence Research Conference, call for a collaborative approach to the study of family violence and examine theory, methodology, assessment, interventions and ethical concerns related to both child and wife abuse.

*Close Relationships* Clyde Hendrick 2000-02-17 As Ellen Bercheid points out in her foreword to this volume, relationship science is a complex and ever expanding field. Much credit goes to editors Clyde Hendrick and Susan S. Hendrick for their scholarly dedication to the advancement of this multidisciplinary arena. This sourcebook demonstrates, yet again, their expertise and leadership as they succeed in combining many great contributions to the field by some of the most respected specialists around. Read this book for a panoramic view of close relationship research with highlights from current literature, original research, practical applications, and projections for future research.

*Encyclopedia of Human Relationships* Harry T. Reis 2009-03-25 This encyclopedia provides a structure to understand the essential rudiments of human behaviour and interpersonal relationships  
*Gender, Families and Close Relationships* Donna L. Sollie 1994-07-15 Feminist research is having an increasing impact on the study of families and close relationships. In this book, each contributor traces her or his experience of incorporating gender into a research programme informed by feminist ideas, methods and ethics. This personal statement is then used to reflexively examine the author's own work, as well as the work of others, on many of the central topics in the study of families and close relationships - love, caregiving, sexuality, friendship, ageing, work and violence.  
*Beyond the Systems Paradigm* Luciano L'Abate 2013-05-30 This monograph owes its origins to the decades-old proposal by David Bakan (1968) about the duality of human experience. He proposed that community and agency would be two necessary and sufficient constructs to classify and to encompass most human relationships. This dichotomy has been found to be valid by a variety of contributions over the last half a century (L'Abate, 2009; L'Abate, Cusinato, Maino, Colesso, & Scilletta, 2010). Additionally, the purpose of this book is to argue and assert that two important fields of psychology, family and personality psychologies, if not already dead are conceptually, empirically, and practically moribund. They are being superseded respectively by perhaps more appropriate, perhaps more specific, and more likely verifiable concepts and constructs, such as intimacy and identity. The traditional family still conceived as composed by two parents and two children of different gender is responsible for only one fourth of all domiciles in USA. Singles, same-sex couples, and completely different family organization complete the remaining 100%. Difficulties in defining what is personality require a change in perspective and advance toward a comprehensive theory of human relationships that can and should fulfill requirements necessary to achieve an undoubtedly grandiose and ambitious universal status.

**Social Influences on Romantic Relationships** Christopher R. Agnew 2014-10-09 This book examines the effects of external factors on the social influences of those involved in close, interpersonal relationships.

**Sister Circle** Black Women and Work Collective 2002 "Sister Circle: Black Women and Work" is the end product of almost a decade's commitment made to each other by a small group of interdisciplinary Black and (one) white "Sister Scholars" at the University of Maryland in 1993.  
*Telling Histories (Volume 2 of 3) (EasyRead Super Large 24pt Edition)*

*Gender, Families and Close Relationships* Donna L. Sollie 1994-07-15 Feminist research is having an increasing impact on the study of families and close relationships. In this book, each contributor traces her or his experience of incorporating gender into a research programme informed by feminist ideas, methods and ethics. This personal statement is then used to reflexively examine the author's own work, as well as the work of others, on many of the central topics in the study of families and close relationships - love, caregiving, sexuality, friendship, ageing, work and violence.

**Gender and Everyday Life** Mary Holmes 2008-07-23 Why are we so insistent that women and men are different? This introduction to gender provides a fascinating, readable exploration of how society divides people into feminine women and masculine men. Gender and Everyday Life explores gender as a way of seeing women and men as not just biological organisms, but as people shaped by their

everyday social world. Examining how gender has been understood and lived in the past; and how it is understood and done differently by different cultures and groups within cultures; Mary Holmes considers the strengths and limitations of different ways of thinking and learning to 'do' gender. Key sociological and feminist ideas about gender are covered from Christine Pisan to Mary Wollstonecraft; and from symbolic interactionism to second wave feminism through to the work of Judith Butler. *Gender and Everyday Life* illustrates gender with a range of familiar and contemporary examples: everything from nineteenth century fashions in China and Britain, to discussions of what Barbie can tell us about gender in America, to the lives of working women in Japan. This book will be of great use and interest to students to gender studies, sociology and feminist theory.

**Women and Work** Elizabeth Higginbotham 1997-06-12 This collection of original research articles explores how race, ethnicity, and social class have shaped the work lives of women. *Women and Work* explores women's working conditions, their wages and salaries, their abilities to control their work environments, and how they see themselves and their options in the workplace. A great deal of importance is given to women of color, non-citizens, and working-class women—groups that are often neglected in other treatments of this subject. The integration of work and family, women's vision of their own work and consciousness as employees, and women's resistance to exploitative and limiting work are themes also addressed throughout this book. Written by an interdisciplinary group of women scholars, *Women and Work* will be of interest to faculty, researchers, and advanced students in the fields of sociology, organization studies, psychology, gender studies, women's history, and economics.

**Women and the Family** Caroline Sweetman 1996 Looking at factors as diverse as the persuasiveness of patriarchy, changing family forms, female infanticide, and land reform policies, this collection of articles considers the family from a gender perspective, and how the socially prescribed roles of men and women within the family can constrain women's opportunities. Contributors include Suad Joseph and Ranjani Krishnamurthy.

**Pioneering Paths in the Study of Families** Gary W Peterson 2014-03-18 Meet the men and women whose groundbreaking work elevated the field of family studies! In *Pioneering Paths in the Study of Families: The Lives and Careers of Family Scholars*, you'll find 40 autobiographies written by leading scholars in sociology, family studies, psychology, and child development. Their fascinating stories demonstrate how their family experiences, educational opportunities, and occupational endeavors not only shaped the disciplines they chose but also shaped the theoretical perspectives they utilized and the topics they researched. From the editors: "These autobiographies

document the experiences of scholars from the early twentieth century to the present. The descriptions of early influences on their education, of their graduate school experiences, and of their academic career paths, provides a wealth of valuable material. Since four of these scholars have died and a number are in their eighties or older, these histories provide rich case studies on factors that influence the decision to go to college, get married, pursue an advanced degree, make specific occupational choices, and investigate certain topics. These autobiographies also detail the barriers that early women scholars in the social sciences faced." The scholars whose lives you will learn about in *Pioneering Paths in the Study of Families* include: Joan Aldous Katherine R. Allen Pauline Boss Carlfred B. Broderick Wesley R. Burr Catherine Street Chilman Harold T. Christensen Marilyn Coleman Rand D. Conger Randal D. Day William J. Doherty Evelyn Millis Duvall Glen H. Elder, Jr. Bernard Farber Margaret Feldman Mark A. **The Gender Communication Connection** Teri Kwal Gamble 2014-03-01 The authors explore the many ways that gender and communication intersect and affect each other. Every chapter encourages a consideration of how gender attitudes and practices, past and current, influence personal notions of what it means not only to be female and male, but feminine and masculine. The second edition of this student friendly and accessible text is filled with contemporary examples, activities, and exercises to help students put theoretical concepts into practice.

*The Dark Side of Close Relationships II* William R. Cupach 2010-09-13 Focuses on the paradoxical, dialectical, and mystifying facets of human interaction, not merely to elucidate dysfunctional relationship phenomena, but to help readers explore and understand it in relation to a broader understanding about relationships.
