**Cleans Up Nicely** Linda Dahl Vogl 2013-08-25 When twenty-something artist Erica Mason moves from laid-back Mexico to Manhattan in the mid-1970s, she finds a hard-edged, decadent, and radically evolving art scene. Peppered with characters who could only come from the latter days of the “turn-on-and-drop-out” ’60s in then-crumbling New York (a spaced-out drummer who’s completely given up on using or making money, a radical feminist who glues animal furs to her paintings of vaginas, and icons in the making like Patti Smith), Erica’s New York is fast-moving, funny, and heartrending—just like the city itself. Ultimately, her rite of passage is not only a love affair with art, men, alcohol, drugs, and music in the swirl that was the downtown scene in a radically evolving era in New York, but also a resurrection from addiction and self-delusion. More than the study of a celebrated period of artistic expression, *Cleans Up Nicely* is the story of one gifted young woman’s path from self-destruction to a hard-won self-knowledge that opens up a whole new world for her—and helps her claim the self-respect that has long eluded her.

**The Cocktail Waitress** James P. Spradley 2008-02-21 A 1975 classic, this highly readable, in-depth study examines a familiar female role in contemporary American society. The authors apply fieldwork methods to the study of social behavior in a college bars viewed from the perspective of cocktail waitresses. They describe in detail the day-to-day lives of women and the meaning of work for women in a man’s world. Not a feminist tract, their book provides a wealth of empirical data on the nature of being female in our culture. *The Cocktail Waitress* examines female/male relationships as well as patterns of male dominance in social interaction, and shows how these are linked to more general issues in anthropology. The work teaches important social science concepts while always dealing with the college students own world. Its objective presentation of the waitress casts light on significant social issues and the role of women in today’s society, together with the manner in which female-male roles are interlocked.

**Anthropology** Conrad Phillip Kottak 2006-11 Written by Kottak, recent inductee to The National Academy of Sciences, this text continues to offer a holistic, four-field perspective introduction to anthropology. To emphasize anthropology’s integrated and comparative nature, “Bringing It All Together” essays show how anthropology’s sub-fields and dimensions combine to interpret and explain a common topic. Another distinctive feature, “Understanding Ourselves,” illustrates the relevance of anthropological facts and theories to students’ everyday lives.

**Work Engendered** Ava Baron 2018-05-31 In tobacco fields, auto and radio factories, cigarmakers’ tenements, textile mills, print shops, insurance companies, restaurants, and bars, notions of masculinity and femininity have helped shape the development of work and the working class. The fourteen original essays brought together here shed new light on the importance of gender for economic and class analysis and for the study of men as well as women workers. After an introduction by Ava Baron addressing current problems in conceptualizing gender and work, chapters by leading historians consider how gender has colored relations of power and hierarchy—between employers and workers, men and boys, whites and blacks, native-born Americans and immigrants, as well as between men and women—in North America from the 1830s to the 1970s. Individual essays explore a spectrum of topics including union bureaucratization, protective legislation, and consumer organizing. They examine how workers’ concerns about gender identity influenced their job choices, the ways in which they thought about and performed their work, and the strategies they adopted toward employers and other workers. Taken together, the essays illuminate the plasticity of gender as men and women contest its meaning and its implications for class relations. Anyone interested in labor history, women’s history, and the sociology of work or gender will want to read this

pathbreaking book.

**Living Out Loud** Larry Gross 2009-06 From bus rides to bars, to encounters with friends and family and most importantly with strangers, Larry Gross lives his life out loud by drawing on the small slices of life, the little things most people don't notice. "There is no artifice in Gross's art. What distinguishes his writing is his knack for seeing and hearing things worth remembering. His pastiche draws on the commonality of urban life, with many of his stories set in downtown bars or on the buses that take him there. The main character is No One Special, a person who appears in various guises, capable of both unfettered generosity and burdensome peevishness." Gregory Flannery, Managing Editor, Streetvibes

**Work-life Balance Among Cruise Ship Crews** Christoph Sch.,del 2011 The concepts of work-life balance are a popular and in nowadays one of the most extensively discussed areas in organizational management as a consequence of its association with individual benefits, e.g. prevent burn-out, and organizational costs. The core aim of this study is to examine the impact of the unique working and living environment of cruise ships towards the physical and emotional exhaustion of their crews. In order to explain these, the study investigates traditional theories of Maslow and Herzberg, considers real life experiences of current and former crew members and takes a look on the most common statements of work-life balance. Although a lot of research work has been done in this field there seems to be a need to extend those to seafarers. In this paper a quantitative research approach has been used to expose knowledge about which factors influence, and to what extent they influence seafarers' well-being in terms of the balance between work and life. 171 current and former crew members participated at an online questionnaire and four additional interviews have been conducted. Significant results were found throughout the study and its results indicated that even though some recreation facilities regulated by ILO, and provided by the cruise companies do already exist, there is a high need to continue developing practices to positively influence the relief of stress in order to ensure a balanced relationship between work and life at sea.

Even though the textbook has been written primarily for criminal justice and criminology majors, there is an underlying recognition that research methods and findings are common among all of the social sciences. This text has been designed to be user-friendly, even when dealing with some fairly complex statistical and theoretical concepts. The most critical points are clearly stated and illustrated with examples chosen to be interesting in their own right.

**Good Morning, Beautiful Business** Judy Wicks 2013 It's not often that someone stumbles into entrepreneurship and ends up reviving a community and starting a national economic-reform movement. But that's what happened when, in 1983, Judy Wicks founded the White Dog Café on the first floor of her house on a row of Victorian brownstones in West Philadelphia. After helping to save her block from demolition, Judy grew what began as a tiny muffin shop into a 200-seat restaurant—one of the first to feature local, organic, and humane food. The restaurant blossomed into a regional hub for community, and a national powerhouse for modeling socially responsible business. Good Morning, Beautiful Business is a memoir about the evolution of an entrepreneur who would not only change her neighborhood, but would also change her world—helping communities far and wide create local living economies that value people and place as much as commerce and that make communities not just interesting and diverse and prosperous, but also resilient. Wicks recounts a girlhood coming of age in the sixties, a stint working in an Alaska Eskimo village in the seventies, her experience cofounding the first Free People store, her accidental entry into the world of restaurantering, the emergence of the celebrated White Dog Café, and her eventual role as an international leader and speaker in the local-living-economies movement. Her memoir traces the roots of her career - exploring what it takes to marry social change and commerce, and do business differently. Passionate, fun, and inspirational, Good Morning, Beautiful Business explores the way women, and men, can follow both mind and heart, do what's right, and do well by doing good.

It shows what obstacles exist for tribal law enforcement and the extent to which families will go, like using social media to track their missing person cases. That's because the utter lack of coordination between law enforcement agencies is failing to help the missing and murdered as well as their survivors. This is the tale of tribal Detective Sergeant Jessica (Medicine) Stone and her oftentimes partner, FBI Special Agent Casey Borgreve.

Bowden Karvel's theory, that the capsule's port of origin lay in the distant future, seemed a plausible explanation. But while investigating, the capsule was accidentally dispatched again through time ... only to reappear with an alien navigator, this time destroying a small French town. De-Whitening Intersectionality Dr. Shinsuke Eguchi 2020-07-24 De-Whitening Intersectionality: Race, Intercultural Communication, and Politics re-evaluates how the logic of color-blindness as whiteness is at play in the current scope of intersectional research on race, intercultural communication, and politics. Calling for a re-centering of difference by exploring the emergence and inception of intersectionality concepts, the coeditors and contributors distinguish between the uses of intersectionality that seem inclusive versus those that actually enact inclusion by demonstrating how to re-conceptualize intersectionality in ways that explicate, elucidate, and elaborate culture-specific and text-specific nuances of knowledge for women of color, queer/trans-people of color, and non-western people of color who have been marked as the Others. As a feminist of color tradition, intersectionality has been appropriated through increasing popularity in the discipline of communication, undermining efforts to critique power when researchers reduce the concept to a checklist of identity markers. This book underscores that in order to play well with and illustrate a nuanced understanding of intersectionality, scholars must be attentive to its origins and implications.

Enough Blame to Go Around Richard Steier 2014-01-01 Veteran labor journalist Richard Steier explores the tensions between New York City's public employee unions, their critics, and city and state politicians. Since 1980 Richard Steier has had a unique vantage point to observe the gains, losses, and struggles of municipal labor unions in New York City. He has covered those unions and city government as a reporter and labor columnist for the

New York Post and, since 1998, as editor and featured columnist of the Chief-Leader, a century-old independent newspaper that covers city and state government in greater detail than today's mainstream news organizations. Drawing from his column with the Chief-Leader, "Razzle Dazzle," Enough Blame to Go Around describes in vivid terms how the changed economy has drastically altered the city's labor landscape, and why it has been difficult for municipal unions to adapt. There can be no doubt, he writes, that public employee unions have contributed to the problems that confront them today, including corruption and failed leadership. But at the same time and for all their flaws, he believes unions represent the best chance for ordinary people to receive fair economic treatment. Veteran labor journalist Richard Steier is editor and columnist for the Chief-Leader and the coauthor (with Len Ragozin and Len Friedman) of *The Odds Must Be Crazy: Beating the Races with the Man Who Revolutionized Handicapping and Created The Sheets*. He lives in Bellerose, New York.

**Research Companion to the Dysfunctional Workplace** Janice Langan-Fox 2007 A work exposing and exploring the phenomena of the dysfunctional workplace is long overdue.
