TIM PEAKE and BRITAIN'S ROAD TO SPACE - Erik Seedhouse 2017-09-11

For centuries the British developed a reputation as a nation of explorers. From Francis Drake's circumnavigation of the globe to the ascent of Everest, British explorers crossed oceans and continents and ventured where few, if any, had gone before. Until very recently, that legacy of exploration had not extended to space. For decades, successive governments chose to stay out of the human spaceflight programme, but in 2008 there were signs of optimism when ESA selected a new class of six astronauts, including, for the first time, a British representative: Timothy Peake. This book puts the reader in the flight suit of Britain's first male astronaut. In addition to delving into the life of Tim Peake, this book discusses the learning curves required in astronaut and mission training and the complexity of the technologies required to launch an astronaut and keep them alive for months on end. This book underscores the fact that technology and training, unlike space, do not exist in a vacuum; complex technical systems, like the ISS, interact with the variables of human personality, and the cultural background of the astronauts. But ultimately, this is the story of Tim Peake and the Principia mission and the down-to-the-last-bolt descriptions of life aboard the ISS, by way of the hurdles placed by the British government and the rigors of training at Russia's Star City military base.

The Hero of Numbani (Overwatch #1) - Nicky Drayden 2020-06-02

The world still needs heroes. Are you with us? Enter the first-ever original novel for Overwatch, the worldwide gaming sensation from Blizzard Entertainment! In the technologically advanced African city of Numbani, in the not-so-distant future, humans live in harmony with humanoid robots known as omnic. But when a terrorist

tries to shatter that unity, a hero named Efi Oladele rises! Efi has been making robots since she was little -- machines to better her community and improve people's lives. But after she witnesses Doomfist's catastrophic attack on the city's OR15 security bots, Efi feels the call to build something greater: a true guardian of Numbani. While Doomfist sows discord between humans and omnic, Efi engineers an intelligent and compassionate robot, Orisa, named after the powerful spirits who guide her people. Orisa has a lot to learn before she's ready to defeat Doomfist, but Efi has some learning to do, too, especially when it comes to building -- and being -- a hero. With Doomfist rallying his forces, and the military powerless to stop him, can Efi mold Orisa into the hero of Numbani before it's too late? This action-packed novel features the fan-favorite characters Efi, Orisa, Doomfist, and Lúcio in an all-new, original story straight from the minds of the Overwatch game team and critically acclaimed author Nicky Drayden!

Radiance - Vera Asheko

Powerful corporations from Earth rip Mars apart, fighting for its resources and mining rights. A small group of second generation Martians, billionaires and blue collar workers alike, are fighting back, trying to save their planet and make it free and habitable for everyone. "She made a few shallow strides toward the stranded vehicle and felt a cold wave of anxiety washing up her chest. It was a flashback, a mosaic of live pictures: Glory Pass, sunlit rusty rocks, six bulky figures in four open top rovers, guns in hands. They came in multitude to feast on her cargo. In a fraction of a second after the first shots reached her tractor, MarLog's AI sent up two drones. She was blinking at the screen while round after round hit her cabin armor with dull thumps. When the drones were airborne, folks from the rovers began shooting at them, but they were too late. Four missiles were fired, and ten seconds later: four explosions, six dead. Everyone got a personal missile that day."

The Hunt for Lost Souls - Michael E. Thies
2022-12-20

The Curse of Pirini Lilapa has once again sown discord throughout the system. In its wake, the Twelve gods are sealed and scattered throughout the system, leaving nations on the brink of war and rulers left to fend for themselves. Looking beyond their disputes, Guardian Eska is forced to unleash the Hown as he searches for the largest threat to the system, Hydro Paen—and the strange necklace he bears. The system's most-wanted man, Hydro makes a deal that allows him to evade the Hown pursuing him. But what has he sacrificed in return and how long can he outrun the system's most highly trained trackers and fighters? By a stroke of luck, Zain Berrese escapes Zigarda's Web along with his father and what remains of his troops. Driven by the need to halt a war and save those he loves, Zain must outmaneuver attempts to recapture him, all while he questions his choices, his future, and his purpose. Finally understanding his birthright, Eirek Mourse is determined more than ever to earn Guardian Eska's trust. But how can he focus on his training when the system lingers on the precipice of total collapse—and he might be the only one who can save it? Find out in the third riveting installment of the space adventure fantasy series, *The Guardian of the Core*. Buy and read it today!

Born of Silence - Sherrilyn Kenyon 2012-05-01
In a universe where corruption and deception rule all aspects of life, sparks of rebellion threaten to ignite . . . BORN OF SILENCE As the Resistance leader, Zarya Starska's only goal is to topple the government that destroyed her entire family and left her penniless. Her biggest asset is a mysterious man known only as Kere. But Kere has a dark secret. Born into a world that is as privileged as it is corrupt, his real name is Darling Cruel—and he is heir to the government Zarya wants to overthrow. No one has ever seen the real man behind the legend. No one except Zarya. But when she allows a weapon he designed to be used against his beloved sister, all bets are off. Betrayed by the Resistance, Darling's goal is not only to reign, but to kill every Resistance member he can find. Zarya must stop Darling's reign of terror, but can she reach past his insanity to restore the hero who

once fought by her side?

Space Mining and Manufacturing - Davide Sivoletta 2019-12-05

This book produces convincing evidence that exploiting the potential of space could help solve many environmental and social issues affecting our planet, such as pollution, overcrowding, resource depletion and conflicts, economic inequality, social unrest, economic instability and unemployment. It also touches on the legal problems that will be encountered with the implementation of the new technologies and new laws that will need to be enacted and new organizations that will need to be formed to deal with these changes. This proposition for a space economy is not science fiction, but well within the remit of current or under development technologies. Numerous technologies are described and put together to form a coherent and feasible road map that, if implemented, could lead humankind towards a brighter future.

Cloak & Silence - Sherrilyn Kenyon

One of the fiercest soldiers the Phrixians have ever produced, Maris Sulle has been an outsider from the moment he was born different from the rest of his family. He grew up with a secret that cost him everything—his birthright, his family, and his military career. In all his life, he's only had one love, and he has sacrificed his own happiness to see his best friend reunited with the woman he loves. But now that his good deed is done, he feels lost and adrift. Even though they do their best to include him in their new family, Maris is once again on the outside looking in. Ture has spent his life hiding from everyone around him—his family, the world, you name it—while trying desperately to fit in. Badly hurt by everyone he's ever known, he trusts no one except his own best friend. And honestly, he can't understand why he trusts her. Nor can he believe her when she describes a loyalty between friends the likes of which he's never seen. But when Ture is in his darkest hour, he's saved by a hero he thought only existed in novels. A man who is every bit as scarred and mistrusting as he is—one who has no interest in being dragged into another relationship with anyone. Having spent his life as a living study of doomed relationships, Maris

is well aware of the courtship and fiasco that invariably follows. Still, there is something about Ture he can't resist. Something that won't let him walk away when he knows he should. But when old enemies return to threaten them both, they either have to stand together or die alone.

Born of Legend - Sherrilyn Kenyon 2016-06-21
'A publishing phenomenon... [Sherrilyn Kenyon] is the reigning queen of the wildly successful paranormal scene.' Publishers Weekly 'Kenyon builds a story that is wall-to-wall action, yet touched with poignancy.' Romantic Times The next League novel from #1 New York Times bestselling author Sherrilyn Kenyon . . . 'It's official Take a Psycho to Work Day. Why else would I be here?' Hunted. Hated. Betrayed. Dagger Ixur is on the run for his life. As one of the most recognisable members of his royal house, he has a bounty on his head that guarantees him no quarter from any friend or even family. But surrender isn't in him. He will fight to the bitter end. A resolve that is sorely tested when he narrowly escapes a trap that leaves him severely wounded. With what he believes is his dying breath, he saves a boy born to an extinct race from a group out to enslave the kid for his legendary abilities. Ushara Altaan has spent her entire life hating those born to nobility. After all, it was a royal house that drove her entire species into virtual extinction. As a rare Andarion Fyreblood, she is sworn to end the existence of any royal she finds. But when Dagger saves her son's life, she is torn between her people and a debt that can never be repaid. Yet worse than Dagger's family that's still out to end hers, are the League assassins after him who will stop at nothing to claim the lives of her Tavali family. The only hope she has to save them all is to put their future and her faith into

the hands of the very enemy whose grandmother personally extinguished Ushara's legendary lineage. But how can she ever trust Dagger when he is a disinherited outlaw whose very name is synonymous with betrayal?

The Science of Interstellar - Kip Thorne 2014-11-07

A journey through the otherworldly science behind Christopher Nolan's award-winning film, *Interstellar*, from executive producer and Nobel Prize-winning physicist Kip Thorne. *Interstellar*, from acclaimed filmmaker Christopher Nolan, takes us on a fantastic voyage far beyond our solar system. Yet in *The Science of Interstellar*, Kip Thorne, the Nobel prize-winning physicist who assisted Nolan on the scientific aspects of *Interstellar*, shows us that the movie's jaw-dropping events and stunning, never-before-attempted visuals are grounded in real science. Thorne shares his experiences working as the science adviser on the film and then moves on to the science itself. In chapters on wormholes, black holes, interstellar travel, and much more, Thorne's scientific insights—many of them triggered during the actual scripting and shooting of *Interstellar*—describe the physical laws that govern our universe and the truly astounding phenomena that those laws make possible. *Interstellar* and all related characters and elements are trademarks of and © Warner Bros. Entertainment Inc. (s14).

interesting developments, but which never achieved fruition.

My Life - Leon Trotsky 2023-03-02

Since *My Life* was first published it has been regarded as a unique political, literary and human document. Written in the first year of Trotsky's exile in Turkey, it contains the earliest authoritative account of the rise of Stalinism and the expulsion of the Left Opposition, who heroically fought for the ideas and traditions of Lenin. Trotsky's exile is the culmination of a narrative which moves from his childhood, his education in the "universities" of Tsarist prisons, Siberia and then foreign exile - to his involvement in the European revolutionary movement and his central role in the tempestuous 1905 revolution and the Bolshevik victory in October 1917 and the civil war which followed. The work concludes with his deportation and exile. With an introduction by Alan Woods and a preface by Trotsky's grandson, Vsievobod Volkov.
