**The Kaleidoscope of Lived Curricula** - Karin Ann Lewis 2021-11-01

Within the context of recent, and ongoing, plural pandemics such as COVID-19 up/ending lives, social and racial chaos and catastrophe, political pressures, and economic convulsions, *The Kaleidoscope of Lived Curricula: Learning Through a Confluence of Crises* offers a journey through a collection of scholarly reflective creative pieces--stories of lived curricula. Like a kaleidoscope filled with loose pieces of simple colored glass and objects transforming into an infinite variety of beautiful forms and patterns with the slightest turn, the collection of pieces in this book reflect images of the sky that nurtures life; sun that illuminates understanding; earth that shifts and grounds us; fire that is primal, intending to spark and extend curricular and pedagogical conversations and understandings. This book provides a lens through which to observe and experience how plural pandemics shifted the lived curricula--the colored glass and objects in the lives of others--to surface, contextualize, confront, and curate challenges, as well as celebrate the courageous and elevate and empower marginalized groups to relate, learn, and heal through stories of lived curricula. This beautiful collection brings readers to an awareness, understanding, and appreciation of the lived curricula unlike they have ever experienced before.

**Digital Body Language** - Erica Dhawan 2021-05-11

An instant Wall Street Journal Bestseller The definitive guide to communicating and connecting in a hybrid world. Email replies that show up a week later. Video chats full of “oops sorry no you go” and “can you hear me?!” Ambiguous text-messages. Weird punctuation you can’t make heads or tails of. Is it any wonder communication takes us so much time and effort to figure out? How did we lose our innate capacity to understand each other? Humans rely on body language to connect and build trust, but with most of our communication happening from behind a screen, traditional body language signals are no longer visible -- or are they? In *Digital Body Language*, Erica Dhawan, a go-to thought leader on collaboration and a passionate communication junkie, combines cutting edge research with engaging storytelling to decode the new signals and cues that have replaced traditional body language across genders, generations, and culture. In real life, we lean in, uncross our arms, smile, nod and make eye contact to show we listen and care. Online, reading carefully is the new listening. Writing clearly is the new empathy. And a phone or video call is worth a thousand emails. *Digital Body Language* will turn your daily misunderstandings into a set of collectively understood laws that foster connection, no matter the distance. Dhawan investigates a wide array of exchanges—from large conferences and video meetings to daily emails, texts, IMs, and conference calls—and offers insights and solutions to build trust and clarity to anyone in our ever changing world.
