Astrology Hans Holzer 2018-07-10 (Originally published in 1975)
What is astrology really: science, art, craft—or fraud? In a work of extraordinary range, an informed observer, Hans Holzer, has attempted to evaluate astrology's contribution to our lives. In the last decade, astrology has moved from a casual topic of conversation at cocktail parties to a major subject for serious discussion and academic inquiry. It has become, at its best, an important facet of human expression in the everyday life of millions and, at its worst, a vehicle for cold-blooded commercial exploitation. *Astrology: What It Can Do for You* includes: * interviews with a score of nationally known cosmic, mathematic, commercial, and esoteric astrologers * Gar Osten's remarkable chart of the United States, a sobering and challenging document that predicts the country's course through the year 2136 A.D. Soon to come: a thirty-year "period of trial," with the possibility of a major war or the beginning of the land breakup, * a list of simplified, easily understood astrological terms * a discussion of the possible influences of cosmic radiation on our lives * a realistic look at newspaper astrology columns * new, at-a-glance astrological charts showing the chief characteristics of the twelve birth signs of the zodiac and estimating their chances of getting along with each other While warning against excessive reliance on astrology, the author nevertheless sees it as a helpful tool in mapping the road ahead. And he tries to bring together the polarized camps of doubters and enthusiasts in a common quest: to grasp the nature of both the external and the internal universe.

[Astrology for Real Relationships](#) Jessica Lanyadoo 2019-12-31 A modern, inclusive guide to astrology that uses the zodiac to illuminate your love life as well as your relationships with your family, your friends, and yourself. When it comes to friendship, family, and romance, we all want the same things: to love and be loved, to communicate, to fight fair, and to feel okay in our own skin. Illuminating and accessible, *Astrology for Real Relationships* includes a primer on basic zodiac knowledge—including the importance of your Sun, Moon, and the planets in your birth chart—before exploring how self-love and self-care affects all types of relationships. Once your mental health and spiritual and emotional wellness are balanced, you can be empowered in your relationships, including:

- Friends and chosen family: The Sun governs your identity and your will. Are you comfortable being yourself? Do your friends see you in the same ways that you see yourself?
- Hanging out and dating: The Moon governs your feelings and emotions. Are you honest with yourself about how you feel and what you really need from a partner?
- Long term relationships: Mars is the planet of conflict. Do you always seem to be attracted to the wrong people? Are women really from Venus and men from Mars? Full of real talk about attraction, dating, sex, frenemies, self-love, mental health, and how to deal with family, this book will help you build and maintain strong connections—with your crushes, your spouse, your boss, or your mom—and uncover and empower you to get what you really want in relationships, not what you think you should want.
