Human Sexuality - Vern L. Bullough

2014-01-14

First Published in 1994. Routledge is an imprint of Taylor & Francis, an informa company.

Encyclopedia of Esoteric Man - Benjamin Walker
1977

Antiquarian Bookman - 1967

Tenebrionoidea - Dariusz Iwan 2020-09-24

Volume 5 of the Catalogue of Palaearctic Coleoptera focuses on one of the megadiverse groups of the animal kingdom, the beetle superfamily Tenebrionoidea reported from the Palaearctic biogeographic region. For the genus and species-groups taxa all available names are given and all data relevant to nomenclature are cross-checked and the distribution of species and subspecies is given per country or smaller region. A group of 25 experts have worked to collect data based on a critical review of published sources including a significant amount of new information. This volume also provides a fix to the nomenclature, which warrants unambiguous communication. 00Contributors are: Kiyoshi Ando, Maxwell V. L. Barclay, A. Marco A. Bologna, Patrice Bouchard, Yves Bousquet, Ivan A. Chigray, Alain Drumont, V. Leonid Egorov, Jan Horak, Dariusz Iwan, Marcin J. Kaminski, Roman Krolik, Daniel Kubisz, Ivan Loeb, Otto Merkl, V. Maxim Nabozhenko, Gianluca Nardi, Nikolay B. Nikitsky, Vladimir Novak, Darren A. Pollock, Wolfgang Schawaller, Rudolf Schuh, Fabien Soldati, Dmitry Telnov, and Daniel K. Young.

Jews and Other Differences - Jonathan Boyarin
1997-01-01

Love Potions Through the Ages: A Study of Amatory Devices and Mores - Harry E.

Wedeck 2022-07-21

This book is a serious academic attempt to document the history of love potions or other substances meant to enchant another individual into becoming enamored with another party. Some examples provided include sap of mallows during the times of Ancient Greek and several potions featured in the Kama Sutra.

Encyclopedia of Demons in World Religions and Cultures - Theresa Bane 2014-01-10

This exhaustive volume catalogs nearly three thousand demons in the mythologies and lore of virtually every ancient society and most religions. From Aamon, the demon of life and reproduction with the head of a serpent and the body of a wolf in Christian demonology, to Zu, the half-man, half-bird personification of the southern wind and thunder clouds in Sumero-Akkadian mythology, entries offer descriptions of each demon's origins, appearance and cultural significance. Also included are descriptions of the demonic and diabolical members making up the hierarchy of Hell and the numerous species of demons that, according to various folklores, mythologies, and religions, populate the earth and plague mankind. Very thoroughly indexed.

Eros and Evil - R. E. L. Masters 2018-12-01

Eros and Evil is the first systematic modern study of the sexual behavior of witches (and of witch hunters) and, as such, is an important contribution to psychological literature. Emphasizing the period between the fourteenth and nineteenth centuries (the witch era, when sexual licentiousness in fact and fantasy was rampant), R. E. L. Masters contends that intercourse with devils and demons was the central fact of witchcraft. His discussion ranges over such subjects as the anatomy of the devil, the sexual psychology of demons, and erotic

cannibalism, and he shows how hysteria, mental disorders, and drugs may explain some of demonic sexuality's strangest aspects. Most significantly, *Eros and Evil* throws light on the origins and development of Western sexual (or antisexual) morals. No other work makes so clear the superstitious and often diseased foundation of the sexual code by which we are still attempting to live. This edition of *Eros and Evil*, first published in 1962, contains the complete text of Ludovico Maria Sinistrari's *Demoniality*, one of the great classics of demonology.

Demons of the Flesh - Nikolas Schreck 2002

In the first comprehensive and unflinching, overview of the erotic initiation and sexual, sorcery essential to the mysterious magical, tradition known as the 'Left Hand Path', this, complete guide covers an enormous array of taboo, and previously forbidden practices.

Penetrating, the veil of secrecy and obscuring the ecstasies, and dangers of a way of magic that can be a, powerful instrument of psychic transmutation, this, is a sometimes disturbing, always inspiring study, of the shadow side of eros.

Magia Sexualis - Paschal Beverly Randolph 2012-08-27

A step-by-step guide to the occult science of sex magic • Based on the practices of P. B.

Randolph, occult rival of H. P. Blavatsky •

Reveals how to perform sex magic rituals for specific real-world results, such as greater strength or enhancement of the senses •

Explains how to create magical talismans, such as rings with specific planetary forces, how to enliven a painting, and how to charge an effigy
Conceived by Paschal Beverly Randolph, *Magia Sexualis* has been heralded as the most influential book about sex magic ever written, surviving to the present day solely through Maria de Naglowska's French translation.

Published more than 50 years after Randolph's death, the authorship of this "translation" has been repeatedly called into question: While the greater part of the content can be traced to Randolph's known works, a very significant portion cannot—leading to the conclusion that this work was supplemented by Naglowska's own sex magic work and extensive occult teachings. *Magia Sexualis* explains Randolph's meticulous science of sex magic, practiced by

the Brotherhood of Eulis and the Hermetic Brotherhood of Light. Beginning with exercises to develop essential skills, the book explains in step-by-step detail how to perform sex magic rituals for specific results, such as greater strength or enhancement of the senses, how to charge and use a "volt"—an effigy of a specific person you want to influence or protect, how to enliven a painting in order to influence those around it, and how to create magical talismans with specific planetary forces, using what Randolph calls "fluid condensers." This work from two great occult minds shows that true power of the spirit is acquired in conjunction with the power of sex—affirming that "sex is the fundamental force in every being, the most powerful force in Nature, and the most characteristic evidence of God."

India and the Occult - G. Djurdjevic 2014-05-21
India and the Occult explores the reception of Indian spirituality among Western occultists through case studies. Rather than focusing on the activities of Theosophical Society, *India and the Occult* looks at the 'hard-core' occultism, in particular the British 20th century currents associated with Aleister Crowley, Dion Fortune, Kenneth Grant, etc.

Deep Time of the Media - Siegfried Zielinski 2008-02-15

A quest to find something new by excavating the "deep time" of media's development—not by simply looking at new media's historic forerunners, but by connecting models, machines, technologies, and accidents that have until now remained separated. *Deep Time of the Media* takes us on an archaeological quest into the hidden layers of media development—dynamic moments of intense activity in media design and construction that have been largely ignored in the historical-media archaeological record. Siegfried Zielinski argues that the history of the media does not proceed predictably from primitive tools to complex machinery; in *Deep Time of the Media*, he illuminates turning points of media history—fractures in the predictable—that help us see the new in the old. Drawing on original source materials, Zielinski explores the technology of devices for hearing and seeing through two thousand years of cultural and technological history. He discovers the

contributions of "dreamers and modelers" of media worlds, from the ancient Greek philosopher Empedocles and natural philosophers of the Renaissance and Baroque periods to Russian avant-gardists of the early twentieth century. "Media are spaces of action for constructed attempts to connect what is separated," Zielinski writes. He describes models and machines that make this connection: including a theater of mirrors in sixteenth-century Naples, an automaton for musical composition created by the seventeenth-century Jesuit Athanasius Kircher, and the eighteenth-century electrical tele-writing machine of Joseph Mazzolari, among others. Uncovering these moments in the media-archaeological record, Zielinski says, brings us into a new relationship with present-day moments; these discoveries in the "deep time" media history shed light on today's media landscape and may help us map our expedition to the media future.

Transported to Another World - Stephen Reysen 2021-04-19

Anime/manga (Japanese animation and comics) have been increasing in popularity worldwide for decades. But despite being a global phenomenon, there's been surprisingly little psychological research formally studying its devoted fanbase. In this book we aim to do just that with an overview of nearly a decade of research by fan psychologists. Otaku and cosplayers, genre preferences, hentai, parasocial connections, motivation, personality, fandom, stigma, and well-being - this book looks at all of these topics through a psychological lens. Many of these findings are being presented for the first time, without the jargon and messy statistical analyses, but in plain language so it's accessible to all readers - fans and curious observers alike!

Sexuality, Religion, and Magic - Michael A. Kószegei 1994

The Encyclopedia of the Occult, the Esoteric, and the Supernatural - Benjamin Walker 1980

The Freud Files - Mikkel Borch-Jacobsen 2011-11-24

How did psychoanalysis attain its prominent cultural position? How did it eclipse rival psychologies and psychotherapies, such that it

became natural to bracket Freud with Copernicus and Darwin? Why did Freud 'triumph' to such a degree that we hardly remember his rivals? This book reconstructs the early controversies around psychoanalysis and shows that rather than demonstrating its superiority, Freud and his followers rescripted history. This legend-making was not an incidental addition to psychoanalytic theory but formed its core. Letting the primary material speak for itself, this history demonstrates the extraordinary apparatus by which this would-be science of psychoanalysis installed itself in contemporary societies. Beyond psychoanalysis, it opens up the history of the constitution of the modern psychological sciences and psychotherapies, how they furnished the ideas which we have of ourselves and how these became solidified into indisputable 'facts'.
Magica Sexualis - Emile Laurent 2013-10
This is a new release of the original 1934 edition.

Satan's High Priest - Judith Spencer 1998
Judith Spencer recounts the harrowing true story of Joseph Warren--a small-town businessman from a prominent family who led a sinister double life as the leader of a satanic cult. Through contact with family members, including Warren's daughter, and firsthand accounts from survivors of his cult, Spencer reveals the unimaginable occurrences of this terrifying underworld and sheds light on the mysteries of the satanic cult phenomenon.

Theodore Schroeder, a Cold Enthusiast - 1973

Against the Modern World - Mark Sedgwick 2009

Against the Modern World is the first history of Traditionalism, an important yet surprisingly little-known twentieth-century anti-modern movement. Comprising a number of often secret but sometimes very influential religious groups in the West and in the Islamic world, it affected mainstream and radical politics in Europe and the development of the field of religious studies in the United States, touching the lives of many individuals. French writer Rene Guenon rejected modernity as a dark age and sought to reconstruct the Perennial Philosophy - the central truths behind all the major world

Downloaded from
legacy.opendemocracy.net on 2021-10-29
by guest

religions. Guenon stressed the urgent need for the West's remaining spiritual and intellectual elite to find personal and collective salvation in the surviving vestiges of ancient religious traditions. A number of disenchanted intellectuals responded to his call. In Europe, America, and the Islamic world, Traditionalists founded institutes, Sufi brotherhoods, Masonic lodges, and secret societies. Some attempted unsuccessfully to guide Fascism and Nazism along Traditionalist lines; others later

participated in political terror in Italy. Traditionalist ideas were the ideological cement for the alliance of anti-democratic forces in post-Soviet Russia, and in the Islamic world entered the debate about the relationship between Islam and modernity. Although its appeal in the West was ultimately limited, Traditionalism has wielded enormous influence in religious studies, through the work of such Traditionalists as Ananda Coomaraswamy, Huston Smith, Mircea Eliade, and Seyyed Hossein Nasr.
