*The Cyber Effect* - Mary Aiken 2016-08-18  
Dr Mary Aiken is the world's leading expert in forensic cyberpsychology - a discipline that combines psychology, criminology and technology to investigate the intersection between technology and human behaviour. In this, her first book, Aiken has created a starting point for all future conversations about how the

Internet is shaping our perception of the world, development and behaviour, societal norms and values, children, safety and security. Covering everything from the impact of screens on the developing child to the explosion of teen sexting, and the acceleration of compulsive and addictive online behaviours (gaming, shopping, pornography), *The Cyber Effect* also examines the escalation in cyberchondria (self-diagnosis online), cyberstalking and organized crime in the Deep Web. Cyberspace is an environment full of

surveillance, but who is looking out for us? Full of surprising statistics and incredible-but-true case studies of the hidden trends that are shaping our culture, this book raises troubling questions about where the digital revolution is taking us. Upending your assumptions about your online life and forever changing the way you think about the technology that you, your friends and your family use, *The Cyber Effect* offers a fascinating and chilling look at a future we can still do something about.

**The Politics and Art of John L. Stoddard** - Michaelene Cox 2015-01-16

This book borrows critical approaches from the interdisciplinary literature of visual culture to assess the imagery and identity of nineteenth-century American travel lecturer and author John L. Stoddard. It uncovers buried aspects of his personal and public life, and reveals his significant contributions to American political and social history.

*Gerontological Nursing & Healthy Aging* - Priscilla Ebersole 2005

*Gerontological Nursing & Healthy Aging* provides thorough coverage of promoting healthy aging when caring for older adults. The intent throughout the book is to facilitate the healthiest adaptation possible for any older adult, regardless of the situation and disease process. The majority of the book is devoted to discussing the significant problems that may occur and methods that nurses may use to make these problems more bearable, to solve some, and to help the elder find the best possible resolution towards healthy aging. Incorporates healthy aging strategies to maximize the healthiest behaviors of clients/patients with dementia and their caregivers. Disease processes are discussed in the context of healthy

adaptation, nursing support & responsibilities to help the reader gain an understanding of their client's experience. Focus on health and wellness establishes a positive perspective to aging. Careful attention to age, cultural, and gender differences are integrated throughout to help the nurse understand these important considerations in caring for older adults. Each chapter provides a consistent organization including learning objectives, research & study questions/activities. Assessment guidelines are incorporated throughout as tables, boxes, and forms to provide useful tools for practice. Activities and discussion questions at the end of every chapter provide situations to expand student knowledge and understanding. Appendices and resource lists assist in further exploration of material. Text correlates with federal guidelines for Healthy People 2010 to assist the student in integrating knowledge about healthy aging considerations. Expanded content on pharmacologic and

nonpharmacologic pain management in Chapter 15 and integrated within appropriate content sections. Completely revised Culture and Aging chapter includes discussions of health disparities and working with interpreters to help identify nursing care interventions appropriate for ethnic elders. New author team with Theris Touhy and Kathleen Jett adds a wealth of experience related to gerontological nursing education and research.

VEILED VOICES - Dr. Jawairriya Abdallah-Shahid 2010-03-12

Veiled Voices: Muhajabat in Secular Schools is based on ethnographic research that examines, questions, and dispels assumptions regarding American Muslim females that wear the Islamic headscarf (hijab) and attend secular schools. Prior to sharing the voice of the six females focused upon in this study, Dr. Jawairriya Abdallah-Shahid provides a thorough

explanation of what Islam, Sunnah, and Shariah teach regarding hijab. What is unique about this work is the thorough explanation provided to readers regarding Islam's teachings pertaining to hijab. This allows readers to gain insight and understanding not usually provided when this subject is discussed. The purpose of sharing Islam's hijab perspective is to introduce the reader to the many variables and possibilities that encompasses why some Muslim females veil. An analysis of the social and psychological effects of difference forces readers to confront their own biases and misunderstandings regarding Muslim females that wear hijab and provides an opportunity for the reexamination of these views after reading and understanding the in depth information provided. The challenges, discrimination, joys, and tribulations faced by the muhajabat are shared by them and displays an array of experiences that are not homogeneous. The commonality of their experiences is rooted in their ability to continue

in their efforts to complete their education. The final chapter makes an important suggestion regarding society's outlook regarding Muslim females that wear hijab and offers relevant research findings pertaining to muhajat.
