*Mystifying the Monarch* Jeroen Deploige 2006 The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.

**Anthropology of Tobacco** Andrew Russell 2019-03-04 Tobacco has become one of the most widely used and traded commodities on the planet. Reflecting contemporary anthropological interest in material culture studies, *Anthropology of Tobacco* makes the plant the centre of its own contentious, global story in which, instead of a passive commodity, tobacco becomes a powerful player in a global adventure involving people, corporations and public health. Bringing together a range of perspectives from the social and natural sciences as well as the arts and humanities, *Anthropology of Tobacco* weaves stories together from a range of historical, cross-cultural and literary sources and empirical research. These combine with contemporary anthropological theories of agency and cross-species relationships to offer fresh perspectives on how an apparently humble plant has progressed to world domination, and the consequences of it having done so. It also considers what needs to happen if, as some public health advocates would have it, we are seriously to imagine 'a world without tobacco'. This book presents students, scholars and practitioners in anthropology, public health and social policy with unique and multiple perspectives on tobacco-human relations.

*A History of Celibacy* Elizabeth Abbott 2001 Joan of Arc was one. So was Sir Isaac Newton. A monk vows to be one. A prisoner has no choice. History tells of many avowed celibates, and today's society reflects a renewed interest in celibacy. But what causes people to give up sex, the very activity that drives, fascinates, troubles, and delights so many of the rest of us? Elizabeth Abbott's exploration of celibacy debunks the traditionally held notion that celibacy is a predominantly religious concept of little concern to the secular world. Chosen or imposed for myriad reasons, celibacy actually is a practice that reveals a host of telling insights about our sexual desires and drives, as well as our changing attitudes toward religion, gender, and physical health. *A History of Celibacy* humanises celibacy through the ages, from the vestal virgins of ancient Rome who were entombed alive if they

broke their vows, to contemporary athletes who conserve semen to enhance their game. While most people associate institutional celibacy with Catholicism, Abbott shows how virtually every culture and religion through history has incorporated it in some form. Her examples range from Judaism's rules regarding abstinence during menstruation to Hinduism's forced celibacy for widows. Written from a feminist perspective, the book paints a dual portrait of celibacy as both emancipator and enslaver of women and the poor. Yet the book's focus is not solely on women. It recounts for instance the forced castration of Italy's young male sopranos, and tells why impoverished Chinese boys and men became eunuchs for the Emperor. The extremes to which people will go to abstain from sexual activity or to prevent others from having sex is an intriguing thread through a serious book.

Seduction Karina Longworth 2018-11-13 In this riveting popular history, the creator of *You Must Remember This* probes the inner workings of Hollywood's glamorous golden age through the stories of some of the dozens of actresses pursued by Howard Hughes, to reveal how the millionaire mogul's obsessions with sex, power and publicity trapped, abused, or benefitted women who dreamt of screen stardom. In recent months, the media has reported on scores of entertainment figures who used their power and money in Hollywood to sexually harass and coerce some of the most talented women in cinema and television. But as Karina Longworth reminds us, long before the Harvey Weinstens there was Howard Hughes—the Texas millionaire, pilot, and filmmaker whose reputation as a cinematic provocateur was matched only by that as a prolific womanizer. His supposed conquests between his first divorce in the late 1920s and his marriage to actress Jean Peters in 1957 included many of Hollywood's most famous actresses, among them Billie Dove, Katharine Hepburn, Ava Gardner, and Lana Turner. From promoting bombshells like Jean Harlow and Jane Russell to his contentious battles with the censors, Hughes—perhaps more than any other filmmaker of his era—commoditized male desire as he objectified and sexualized women. Yet there were also numerous women pulled into Hughes's grasp who never made it to the screen, sometimes virtually imprisoned by an increasingly paranoid and disturbed Hughes, who retained multitudes of private investigators, security personnel, and informers to make certain these actresses would not escape his clutches. Vivid, perceptive, timely, and ridiculously entertaining, *The Seducer* is a landmark work that examines women, sex, and male power in Hollywood during its golden age—a legacy that endures nearly a century later.

**Principles of Politics Applicable to All Governments** Benjamin Constant 2003 Benjamin Constant (1767-1830) was born in Switzerland and became one of France's leading writers, as well as a journalist, philosopher, and politician. His colourful life included a formative stay at the University of Edinburgh; service at the court of Brunswick, Germany; election to the French Tribunate; and initial opposition and subsequent support for Napoleon, even the drafting of a constitution for the Hundred Days. Constant wrote many books, essays, and pamphlets. His deepest conviction was that reform is hugely superior to revolution, both morally and politically. While

Constant's fluid, dynamic style and lofty eloquence do not always make for easy reading, his text forms a coherent whole, and in his translation Dennis O'Keeffe has focused on retaining the 'general elegance and subtle rhetoric' of the original. Sir Isaiah Berlin called Constant 'the most eloquent of all defenders of freedom and privacy' and believed to him we owe the notion of 'negative liberty', that is, what Biancamaria Fontana describes as "the protection of individual experience and choices from external interferences and constraints." To Constant it was relatively unimportant whether liberty was ultimately grounded in religion or metaphysics -- what mattered were the practical guarantees of practical freedom -- "autonomy in all those aspects of life that could cause no harm to others or to society as a whole." This translation is based on Etienne Hofmann's critical edition of *Principes de politique* (1980), complete with Constant's additions to the original work.

**Making Black History** Dominique Haensell 2021-10-04 This study proposes that - rather than trying to discern the normative value of Afropolitanism as an identificatory concept, politics, ethics or aesthetics - Afropolitanism may be best approached as a distinct historical and cultural moment, that is, a certain historical constellation that allows us to glimpse the shifting and multiple silhouettes which Africa, as signifier, as real and imagined locus, embodies in the globalized, yet predominantly Western, cultural landscape of the 21st century. As such, *Making Black History* looks at contemporary fictions of the African or Black Diaspora that have been written and received in the moment of Afropolitanism. Discursively, this moment is very much part of a diasporic conversation that takes place in the US and is thus informed by various negotiations of blackness, race, class, and cultural identity. Yet rather than interpreting Afropolitan literatures (merely) as a rejection of racial solidarity, as some commentators have, they should be read as ambivalent responses to post-racial discourses dominating the first decade of the 21st century, particularly in the US, which oscillate between moments of intense hope and acute disappointment. In the course of those long, flirtatious conversations some fell madly in love with her. Some became obsessed with her. Some had their hearts broken by her. And then she vanished. On the heels of a just-aired prime-time Vanity Fair-CBS "48 Hours" special on enduring Hollywood mysteries, Burrough is republishing his story as an e-book, complete with a new Afterword that brings Miranda's extraordinary tale up to date with the names of still more leading men who fell under her spell, from Bono to Rush Limbaugh. Writes Burrough: "In 30 years in the field...I don't think I've ever come across another [story] like it.... She has much to say about what men want, what men need, and how to keep a man coming back for more."

*Essays on Paula Rego* Maria Manuel Lisboa 2020-10-09 In these powerful and stylishly written essays, Maria Manuel Lisboa dissects the work of Paula Rego, the Portuguese-born artist considered one of the greatest artists of modern times. Focusing primarily on Rego's work since the 1980s, Lisboa explores the complex relationships between violence and nurturing, power and impotence, politics and the family that run through Rego's art. Taking a historicist approach to the evolution of the artist's work, Lisboa embeds the works within Rego's personal history as well as Portugal's (and indeed other nations') stories, and reveals the interrelationship between political significance and the raw emotion that lies at the heart of Rego's uncompromising iconographic style. Fundamental to Lisboa's analysis is an understanding that apparent opposites - male and female, sacred and profane, aggression and submissiveness - often co-exist in Rego's work in a way that is both disturbing and

destabilising. This collection of essays brings together both unpublished and previously published work to make a significant contribution to scholarship about Paula Rego. It will also be of interest to scholars and students of contemporary painting, Portuguese and British feminist art, and the political and ideological aspects of the visual arts. This work was published by Saint Philip Street Press pursuant to a Creative Commons license permitting commercial use. All rights not granted by the work's license are retained by the author or authors.

**The Sleepwalkers** Christopher Clark 2012-09-27 The pacy, sensitive and formidably argued history of the causes of the First World War, from acclaimed historian and author Christopher Clark SUNDAY TIMES and INDEPENDENT BOOKS OF THE YEAR 2012 The moments that it took Gavrilo Princip to step forward to the stalled car and shoot dead Franz Ferdinand and his wife were perhaps the most fateful of the modern era. An act of terrorism of staggering efficiency, it fulfilled its every aim: it would liberate Bosnia from Habsburg rule and it created a powerful new Serbia, but it also brought down four great empires, killed millions of men and destroyed a civilization. What made a seemingly prosperous and complacent Europe so vulnerable to the impact of this assassination? In *The Sleepwalkers* Christopher Clark retells the story of the outbreak of the First World War and its causes. Above all, it shows how the failure to understand the seriousness of the chaotic, near genocidal fighting in the Balkans would drag Europe into catastrophe. Reviews: 'Formidable ... one of the most impressive and stimulating studies of the period ever published' Max Hastings, Sunday Times 'Easily the best book ever written on the subject ... A work of rare beauty that combines meticulous research with sensitive analysis and elegant prose. The enormous weight of its quality inspires amazement and awe ... Academics should take note: Good history can still be a good story' Washington Post 'A lovingly researched work of the highest scholarship. It is hard to believe we will ever see a better narrative of what was perhaps the biggest collective blunder in the history of international relations' Niall Ferguson '[Reading *The Sleepwalkers*], it is as if a light had been turned on a half-darkened stage of shadowy characters cursing among themselves without reason ... [Clark] demolishes the standard view ... The brilliance of Clark's far-reaching history is that we are able to discern how the past was genuinely prologue ... In conception, steely scholarship and piercing insights, his book is a masterpiece' Harold Evans, New York Times Book Review 'Impeccably researched, provocatively argued and elegantly written ... a model of scholarship' Sunday Times Books of the Year 'Superb ... effectively consigns the old historical consensus to the bin ... It's not often that one has the privilege of reading a book that reforges our understanding of one of the seminal events of world history' Mail Online 'A monumental new volume ... Revelatory, even revolutionary ... Clark has done a masterful job explaining the inexplicable' Boston Globe 'Superb ... One of the great mysteries of history is how Europe's great powers could have stumbled into World War I ... This is the single best book I have read on this important topic' Fareed Zakaria 'A meticulously researched, superbly organized, and handsomely written account Military History Clark is a masterly historian ... His account vividly reconstructs key decision points while deftly

sketching the context driving them ... A magisterial work' Wall Street Journal About the author: Christopher Clark is Professor of Modern History at the University of Cambridge and a Fellow of St Catharine's College. He is the author of The Politics of Conversion, Kaiser Wilhelm II and Iron Kingdom. Widely praised around the world, Iron Kingdom became a major bestseller. He has been awarded the Officer's Cross of the Order of Merit of the Federal Republic of Germany.
