Notorious Identity - Linda Charnes 1993

Richard III, Antony and Cleopatra, were significant figures before Shakespeare revitalized them on stage. When he did, Charnes argues, he used these legendary figures to explore the emergence of a new kind of fame, "notorious identity".

The Circle of Eros - Elizabeth Stevens Prioleau 1983

The Permissive Society and Its Enemies - Marcus Collins 2007

Deconstructing the myth of Britain's "swinging sixties," this collection of essays examines the revolution of cultural permissiveness in postwar Britain and how societal debates over drug use, pornography, and women's rights of this period have influenced current thinking. Britain's period of nebulous social change is analyzed by defining permissiveness, locating the movement's origins, identifying its proponents and opponents, and assessing long-term consequences. Discussions of ludic liberalism, lesbian politics, beatnik ideology, and the rise of the moral crusader highlight the developing subcultures of Britain's society.

Sex and Dehumanization - David Holbrook 2018-04-24

Never before published in the United States, David Holbrook's study offers the sort of common sense all too uncommon in this area of study. His essential premise is that sex has become converted from an instrument

for the expression of happiness and affection into an end unto itself. In the search for sexual liberation, all that has been accomplished is the mechanization of sexuality and the destruction of the full range of emotions that nourish the human search for social and biological meaning. Sex and Dehumanization is one of those rare books that will immediately strike the reader as part of the common wisdom that has somehow been lost in a search for the pleasure principle unhinged from other values and goals. During the past quarter century, Holbrook argues, not only has the concept of sex become increasingly separated from the rest of existence, but sex casualties have increased disastrously. The spread of AIDS has brought an ominous and deadly manifestation of this thesis into the human equation, yet at the same time the response to this menace has been nothing short of manic denial. A similar picture emerges in less deadly forms. Whatever statistics one examines, whether those of sexual activity among young children, abortion, or sexual disease, one finds a grim antidote to any hopes of progress in the sphere of human dealings with the sexual. Holbrook locates many of the problems involved in this separation of sex and affection in the emergence of the idea that our lives are governed by impersonal forces beyond human control. Sex and Dehumanization is in the great tradition of social history and psychiatric analysis. Robert Nye, writing in the Scotsman, says that "Holbrook's diagnosis of our unease should be attentively studied by all who really care about sex and love and the responsibility of freedom." Gabriel Pearson, in the Guardian echoes this sentiment, adding that "never has such a secular ethic been so firmly and urgently and usefully stated." And John Rex sees the book "as containing the germs of important and central moral discussion." *The National Union Catalogs, 1963-* - 1964

Powers of Being - Edwin Webb 1995

To mark the seventieth birthday of one of Britain's most prolific writers, teachers and academics from the United States, Canada and the United Kingdom contributed a collection of specially written essays defining and appraising Holbrook's work in all its varieties. The result is *Powers of Being*, which addresses the issues proposed by Holbrook and celebrates a singular and distinguished literary achievement. The range of Holbrook's work is astonishing, but his readers find it equally astonishing that his critical and creative output is not more widely known. In large measure, this may be because Holbrook stands outside the currently fashionable in the world of letters; he is opposed to the decadence and the nihilism, as he sees it, of much modern culture and its seeming obsession with violence, destruction, and death. For Holbrook, the value of literature is its value for life; for the establishment of meaning in living through the confrontation with experience and the rejection of false solutions. Thus the drive to authentic living demands that one locates and releases, through creativity and love, those "powers of being" (in Holbrook's own phrase) that identify the true self.
