Social Teachings in the Episcopal Church - Robert E. Hood 1990

Public Practice, Private Law - Gary Chartier 2016-04-06

This book elaborates an appealing model of marriage, rooted in love, for same-sex and different-sex couples, that doesn't involve the state.

A New Conversation - Robert Boak Slocum 2018-02-22

In these twenty-nine essays, Episcopalians consider the tradition and the future of their church—its theology, its polity, its missiology. These “new conversations” come from ministers of every order (bishop, priest, deacon, laity) and from practiced hands at many ministries (education, theology, music, chaplaincy, and spiritual direction). Several essayists write urgently that the Episcopal Church must change if it is to survive. Others contend—with equal fervor—that American Anglicanism can work if

Episcopalians will reclaim and reaffirm their liturgical, spiritual, and theological heritage. Between these views are other writers who suggest that points of supposed opposition might indeed coexist in the church of the future—taking vibrant, and perhaps paradoxical, new forms.

Vision and Prophecy - 1991

Paperbound Books in Print 1995 - Reed Reference Publishing 1995-12

The Gifted Pastor - Kenneth H. Carter 2001
Carter writes a piece which will stir the sympathies of pastors thwarted by their own efforts to emulate a congregation's successful predecessor. Within months, these pastors see little success as fatigue and burn-out set in. All Christians are graced with specific and distinctive spiritual gifts. Too often pastors forget that God has given them particular gifts for ministry. While all pastors must attend to the

different tasks of congregational ministry, they need to discover those functions for which they have been particularly gifted. When they begin to make these gifts the focus of their ministry, then deep personal satisfaction and connection with others results. This book is written to help pastors overcome the false belief that if their ministry is to succeed, it must emulate that of a high-profile orator. Carter explains that when we make our distinctive gifts the center of our ministry, we lose the illusion that we are in control, and instead trust that God will complement us with others' gifts to meet the needs of God's people. Key Features: includes a "consumer guide" to spiritual gift inventories; resource lists including retreat centers, congregations, and publications. Key Benefits: Provides pastors a biblical/theological framework for understanding ministerial gifts.

Engaging the Doctrine of Marriage -

Matthew Levering 2020-08-12

This book is the next volume in Levering's

Engaging Doctrine series. The prior volume of the series examined the doctrine of creation. The present volume examines the purpose of creation: the marriage of God and humans. God created the cosmos for the purpose of the marriage of God and his people--and through his people, the marriage of God and the entire creation. Given that the central meaning or "prime analogate" of marriage is the marriage of God and humankind, the study of human marriage needs to be shaped by this eschatological goal and foregrounded as a dogmatic theme. After a first chapter defending and explaining the biblical witness to the marriage of God and his people, the book explores various themes: marriage as an image of God, original sin as the fall of the primordial marriage, the cross of Jesus Christ and marital self-sacrificial love, the procreative and unitive ends of marriage, marriage as a sacrament, and marriage's importance for social justice and for the upbuilding of the kingdom of God. Along the

way, the book provides an introduction to the key biblical, patristic, medieval, modern, and contemporary thinkers and controversies regarding the doctrine of marriage.

Moral Issues and Christian Response - Paul T. Jersild 1988

True Sexual Morality - Daniel R. Heimbach 2004-11-09

Daniel Heimbach examines the biblical teachings on sexual morality as well as four counterfeit views that have crept into our "sexually revolutionized" society. He gives us an in-depth look at the moral relativism that has spread through our culture and opens our eyes to the effects that nonbiblical sexual choices have on individuals, the family, the church, and the culture.

Sex, Money & Power - Philip Turner 1985

Church, Society, and the Christian Common Good - Ephraim Radner 2017-07-14

Philip Turner's contributions as a leader and thinker in Christian missions and social ethics are here engaged by an array of friends and colleagues. Turner's scholarly and clerical career spans a key era of transition in American and world Christianity, and his thinking and teaching about the intersection between ecclesial and civil life have encouraged several generations of Christian theologians and ministers. The essays in this collection touch on key topics in which Turner has been involved: cross-cultural missions, social relations in terms of family and procreation, ecclesiology, scriptural interpretation, the nature of the public good, and the character of a human life before God. Turner has been a pioneer, within the

Anglican world especially, in promoting what has been called a "generous orthodoxy," and these essays by prominent theologians from America and the United Kingdom extend his witness in lively and fruitful ways.

Queer Christianities - Kathleen T. Talvacchia
2015

Queerness and Christianity, often depicted as mutually exclusive, both challenge received notions of the good and the natural. Nowhere is this challenge more visible than in the identities, faiths, and communities that queer Christians have long been creating. As Christians they have staked a claim for a Christianity that is true to their self-understandings. How do queer-identified persons understand their religious lives? And in what ways do the lived experiences of queer Christians respond to traditions and reshape them in contemporary practice? *Queer Christianities* integrates the perspectives of queer theory, religious studies, and Christian theology into a lively conversation—both

transgressive and traditional—about the fundamental questions surrounding the lives of queer Christians. The volume contributes to the emerging scholarly discussion on queer religious experiences as lived both within communities of Christian confession, as well as outside of these established communities. Organized around traditional Christian states of life—celibacy, matrimony, and what is here provocatively conceptualized as promiscuity—this work reflects the ways in which queer Christians continually reconstruct and multiply the forms these states of life take. *Queer Christianities* challenges received ideas about sexuality and religion, yet remains true to Christian self-understandings that are open to further enquiry and to further queerness.

The Cruelty of Heresy - Christopher FitzSimons
Allison 1994

forms of error, sin, and various distortions of orthodox faith. In this book the author aims to capture the drama and relevance of the Councils of the 4th and 5th centuries, and shows how the achievements of these early struggles still provide guidelines, embodied in the Creeds, for believers who are mystified and disturbed by attempts to jettison key doctrines of the faith.

Christian Ethics and the Church - Philip Turner 2015-09-29

This book introduces Christian ethics from a theological perspective. Philip Turner, widely recognized as a leading expert in the field, explores the intersection of moral theology and ecclesiology, arguing that the focus of Christian ethics should not be personal holiness or social reform but the common life of the church. A theology of moral thought and practice must take its cues from the notion that human beings, upon salvation, are redeemed and called into a life oriented around the community of the church. This book distills a senior scholar's life work and will be valued by students of Christian ethics, theology, and ecclesiology.
