*Critical Readings: Moral Panics And The Media* Critcher, Chas 2006-03-01 First coined by Stanley Cohen in 1972, 'moral panic' is a key term in media studies, used to refer to sudden eruptions of indignant concern about social issues. An occurrence of moral panic is characterised by stylized and stereotypical representation by the mass media, and a tendency for those in power to claim the moral high ground and pronounce judgement. In this important book, Chas Critcher brings together essential readings on moral panics, which he contextualises in the light of moral panic scholarship through an editor's introduction and concise section introductions. The first section discusses moral panic models, and includes contributions on the history and intellectual background of the concept. Differences in thinking between British and American moral panic scholarship are also examined. A second section features important case studies, including AIDS, Satanism, drugs, paedophilia and asylum seekers. This is followed by readings that look at themes such as the importance of language, rhetoric and discourse; the dynamics of media reporting and how it affects public opinion; and the idea of the 'risk society'. Finally, readings critique and debate the use and relevance of moral panic models. *Critical Readings: Moral Panics And The Media* is a valuable resource for students and researchers in media studies, criminology and sociology. **Treating Sex Offenders** Sarah Brown 2013-07-04 This book aims to provide an introduction and overview of sex offender treatment programmes, designed for students and practitioners coming to this field. It seeks to describe the development, theoretical underpinnings, treatment goals and operation of cognitive-behavioural and other programmes to an audience unfamiliar with this form of rehabilitation. In addition, it aims to examine the effectiveness of these programmes and the difficulties associated with assessing this, the public response to treatment and also the effects on staff responsible for implementing them. The book is concerned particularly to assess the operation of sex offender treatment programmes in the UK context, considering also the issues associated with implementing programmes developed in other contexts, especially the USA and Canada. It will be of interest to practitioners, particularly those who are beginning work on sex offender treatment programmes, or others (such as health workers, social workers, probation officers) who come into contact with these programmes indirectly.

**Journalism Ethics** Roger Patching 2013-11-20 *Journalism Ethics: Arguments and Cases for the 21st Century* explores the major ethical dilemmas facing journalists in the digital age. Engaging with both the theory and practice of journalism ethics, this text explains the key ethical concepts and dilemmas in journalism and provides an international range of examples and case studies, considering traditional and social media from a global perspective. *Journalism Ethics* offers an introductory philosophical underpinning to ethics that traces the history of the freedom of expression from the time of Greek philosophers like Aristotle, through the French and American revolutions, to modern day. Throughout the book Patching and Hirst examine ethically-challenging issues such as deception, trial by media, dealing with sources and privacy intrusion. They also explore continuing ethical fault lines around accuracy, bias, fairness and objectivity, chequebook journalism, the problems of the foreign correspondent, the conflicts between ethics and the law and between journalists and public relations consultants. Concluding with a step-by-step guide to ethical thinking on the job, this textbook is an invaluable resource for students of journalism, media and communication.

**Community Justice in Australia** Brian Stout 2020-07-16 'An effective interweaving of complex theory with mainstream concepts. Overall an excellent book for use in Australian universities teaching criminology/social work.' Dr Jane Bolitho, Lecturer, Criminology and Social Sciences, UNSW The concept of community justice - of engaging with offenders within the community - offers an important new approach to the prevention of crime and the rehabilitation of offenders. *Community Justice in Australia* is the first text to consider how this concept can be successfully applied within Australia by social workers, criminologists, parole officers, police and anyone working with both adult and youth offenders. Brian Stout begins by defining community justice and outlining its successes in the United Kingdom and the United States. He then explains theories of offending behaviour, considers relevant Australian legislation, policy and common intervention strategies, and considers the implications of community justice approaches for both adult and juvenile offenders. Restorative justice is also examined and contrasted. The book's second half details practice issues including working in community justice organisations, the use of technology, and the need for community justice workers to co-create long-term change with their clients. The importance of risk management and protection of the public is explored together with a comprehensive guide to practice skills and working with involuntary clients. Each chapter also contains a detailed analysis of the implications and potential benefits of a community justice approach for culturally diverse groups and Indigenous people.

With precise conceptual distinctions, wide-ranging citation of empirical research, and careful explication of diverse literary works, Hogan defends a systematic skepticism about gender differences and a view of sexuality as evolved but also contingent and variable.

**Holistic Mental Health Support** Ali Moloney 2022-10-12 *Holistic Mental Health Support* is the first comprehensive Australian text directly addressing the Certificate IV in Mental Health CHC43315. This text addresses the mandatory core competencies as well as electives to comply with packaging rules, following the proven preferred structure for Community Services - chapter by competency - and then alignment of headings to elements and performance criteria of competency descriptors.

[Closing the Justice Gap for Adult and Child Sexual Assault](#) Anne Cossins 2020-10-21 This book examines the justice gap and trial process for sexual assault against both adults and children in two jurisdictions: England and Wales and New South Wales, Australia. Drawing on decades of research, it investigates the reality of the policing and prosecution of sexual assault offences - often seen as one of the 'hardest crimes to prosecute' - across two similar jurisdictions. Despite the introduction of the many reform options detailed in the book, satisfactory outcomes for victims and the public are still difficult to obtain. Cossins takes a new approach by examining the nature and effects of adversarialism on vulnerable witnesses, jury decision-making and the structures of power within the trial process, to show how, and at what points, that process is weighted against complainants of sexual assault, in order to make evidence-based suggestions for reform. She argues that this justice gap is a result of a moralistic adversarial culture which fosters myths and misconceptions about rape and child sexual assault, thus requiring the prosecution to prove a complainant's moral worthiness. She argues this culture can only be eliminated by a radical replacement of the adversarial system with a trauma-

informed system. By reviewing the relevant psychological literature, this book documents the triggers for re-traumatisation within an adversarial trial, and discusses the reform measures that would be necessary to transform the sexual assault trial from one where the complainant's moral worthiness is 'on trial' to a fully functioning trauma-informed system. It speaks to students and academics across subjects including law, criminology, gender studies and psychology, and practitioners in law and victim services, as well as policy-makers.

**Mandatory Sentencing for Serious Sex Offences Against Children** Tasmania. Sentencing Advisory Council 2016 The Tasmanian Attorney-General and Minister for Justice requested that the Sentencing Advisory Council provide a report on the implementation of minimum mandatory sentencing for those who commit serious sexual offences against children, following on from the Government's pre-election commitment on the issue. In particular, the Council was asked to investigate Tasmania's current legislation for sentencing sex offenders, the legislative means required to implement mandatory sentencing for serious sex offences committed against children, and advice as to which offences should be captured within the scope of the mandatory sentencing provisions and what those mandatory minimum sentences should be. Following a public research paper and consultations, this final report presents the Council's advice and a model on how mandatory sentencing could be implemented. Note, the Council has previously indicated that it does not recommend the introduction of mandatory sentencing in Tasmania, and its objections are also laid out.

**Community Justice in Australia** Brian Stout 2023-02-28 This new edition of Community Justice in Australia expands on the discussion of how people who have committed offences can be engaged in the community. It considers how the concept of community justice can be successfully applied within Australia by social workers, criminologists, parole officers and anyone working in the community with both adults and young people. The book defines community justice and applies the concept to the Australian context. It then explains theories of offending behaviour, considers relevant Australian legislation, policy and intervention strategies and examines the implications for both young people and adults. Restorative justice is also discussed. The latter part of the book focuses on practical issues including working in community justice organisations, technology, public protection and desistance approaches. Each chapter contains an engagement with the implications of community justice approaches for Indigenous groups and features reflective questions, practical tasks and guidance for further reading. This accessible and practical book will be indispensable for instructors, students and practitioners working in the community with people who have committed offences.

Rehabilitation Work Hannah Graham 2016-05-26 Conversations about rehabilitation and how to address the drugs-crime nexus have been dominated by academics and policymakers, without due recognition of the experience and knowledge of practitioners. Not enough is known about the cultures and conditions in which rehabilitation occurs. Why is it that significant numbers of practitioners are leaving the alcohol and other drugs field, while disproportionate numbers of criminal justice practitioners are on leave? Rehabilitation Work provides a unique insight into what happens behind the closed doors of prisons, probation and parole offices, drug rehabs, and recovery support services drawing on research from Australia. This book is among the first to provide a dedicated empirical examination of the interface between the concurrent processes of desistance from crime and recovery from substance misuse, and the implications for rehabilitation work. Hannah Graham uses practitioner interviews, workforce data and researcher observations to reveal compelling differences between official accounts of rehabilitation work, and what practitioners actually do in practice. Practitioners express a desire to be the change rather than being subject to change, actively co-producing progressive reforms instead of passively coping with funding cutbacks and interagency politics. Applied examples of how practitioners collaborate, lead and innovate in the midst of challenging work are complemented with evocative illustrations of insider humour and professional resilience. This book is a key resource for students, academics and practitioners across fields including criminology and criminal justice, social work, psychology, counselling and addiction treatment.

Dynamic Security Michael Parker 2007 Dynamic Security describes the theory, practice and management of democratic therapeutic communities (TCs) in prisons using clinical examples and case studies. The contributors explore the complexities of working in TCs and the powerful emotional impact generated in the process of therapy in the forensic setting.

Justice Alternatives Pat Carlen 2019-07-11 Justice is one of the most debated and reinterpreted of concepts within the fields of law, criminology and criminal justice. Bringing together 35 leading thinkers, analysts and campaigners from around the world, this collection presents a range of on-going struggles for justice from abolitionist, transitional, transformative, indigenous, green and restorative perspectives. Against a background

of contemporary concerns about dark money, plutocracies and populism, these chapters raise questions about the relationships between social justice and criminal justice and between democracy, knowledge and justice. Overall, the chapters also demonstrate the breadth, variety and vibrancy of contemporary criminology and include, amongst other cutting-edge contributions, chapters by John Braithwaite, Michelle Brown, Ian Loader, Pat O'Malley, Joe Sim, Susanne Karstedt, Phil Scraton, Richard Sparks, Loïc Wacquant and Sandra Walklate. Justice Alternatives is essential reading for students of criminology, criminal justice and law, as well as for other scholars and activists concerned about social justice, policing, courts, imprisonment, mass supervision, rights and privatized justice. The book's emphasis upon the importance of imagination, experimentation, innovation and debate aims to promote an optimism that there are always alternatives to inequality, domination and oppression.

*Male Rape Victimisation on Screen* Victoria M. Nagy 2023-11-30 Focusing on the under-researched area of male sexual assault, this book reveals how seemingly harmless humour can infiltrate how we think about violent and victimising behaviours.

**The Insanity Defence** Warren Brookbanks 2022-11-08 More than any other defence in the criminal law, the insanity defence has, and continues to be, the subject of heated debate. Yet too little is known about how the insanity defence operates in different jurisdictions, including in the United Kingdom and Ireland. In this book, Mackay and Brookbanks, and their team of expert contributors, explore the theory and practice around the insanity defence and analyse its diverse influence and manifestations across a wide range of common law and civil law jurisdictions. Typically, the insanity defence, as exemplified in the M'Naghten Rules, represents a foundational aspect of criminal responsibility, although in some jurisdictions it serves only to define degrees of mental capacity. However, what all jurisdictions have in common is the high and increasing incidence of mental illness and impairment challenging existing constructions of an exculpatory rule. This book explores in detail the origins and operation of the M'Naghten Rules as well as the eclectic nature of the insanity defence, its highly variable linguistic expression, and the diverse social policy mandates it seeks to embrace. The Insanity Defence will reinvigorate the debate about the defence by discussing both its theoretical basis and exploring how different jurisdictions approach the insanity plea, not only in relation to an appropriate test and how it operates, but also from the perspective of disposal and how those who use the insanity defence successfully are dealt with. This book will be of interest to researchers, academics, and advanced students with an interest in criminal law internationally, as well as to those involved in the development of policy and legislation.

*Dangerous Offenders* Mark Brown 2002-01-04 This highly controversial new book considers how the dangerous offender has become such a figure of collective anxiety for the citizens of rationalised Western societies. The authors consider: \* ideas of danger and social threat in historical perspective \* legal responses to violent criminals \* attempts to predict dangerous behaviour \* why particular groups, such as women, remain at risk from violent crime. This inspired collection invites us to rethink the received wisdom on dangerous offenders, and will be of interest to students and scholars in the fields of criminology and the sociology of Risk.

*Reforming Law Reform* Michael Tilbury 2014-01-01 As a special administrative region of China, Hong Kong has its own legal system rooted in the common law. Reforms to this system take into account Hong Kong's unique conditions as an international city and draw widely on practices around the world. Since 1980, recommendations from a Law Reform Commission, chaired by the Secretary for Justice, have resulted in comprehensive revisions in key areas of law, ranging from commercial arbitration and interception of communications to divorce and copyright. Recently, however, the government has been slow to act on the Commission's recommendations. Questions have also arisen about whether the Commission — under-resourced, part-time and government-led — can really meet the needs of an increasingly sophisticated society. Is law reform itself also in need of reform? This collection of essays by distinguished experts from around the world seeks answers to the question. The book explores the varied experience of law reform in Hong Kong and other common law jurisdictions and makes recommendations for strengthening the process of law reform both in Hong Kong and elsewhere. Michael Tilbury is Kerry Holdings Professor in Private Law in the Faculty of Law, the University of Hong Kong. Simon N. M. Young is a professor in the Faculty of Law, the University of Hong Kong and was formerly Director of the Centre for Comparative and Public Law. Ludwig Ng is a partner in ONC Lawyers, Hong Kong. "This important book should be a wake-up call to lawmakers in Hong Kong and beyond on the urgent need for effective law reform. It is especially important for Hong Kong whose competitive advantage is being harmed by institutional paralysis and official lethargy. The editors' modest recommendations deserve urgent action by Hong Kong's governors to bring up to date its archaic and outmoded legislation." —Lord Lester of Herne Hill, QC "Law reform is essential, especially in these fast-changing times. The law reform agency plays an important role in this process. This work examines the experience of the agency in Hong Kong and elsewhere and discusses how its effectiveness can be enhanced. This valuable contribution deserves to be read." —The Hon. Andrew Li, Chief Justice of Hong Kong, 1997-2010 "This is probably the first collection in Hong Kong of writings on law reform, examining clinically how law reform is, and can be processed with reference to other law reform institutions, in the pursuit of effectively meeting the often shifting needs of society and economy. Important chapters on reform of different areas of law are also included in this book. The editors and contributors are to be congratulated for masterminding such an admirable source of information and inspirational ideas." —Stephen Kai-yin Wong, Barrister, Secretary of the Law Reform Commission of Hong Kong "In this collection of essays the learned editors—Tilbury, Young and Ng—have drawn together an outstanding group of authors, representing many years of experience in law reform across the common law world. From the UK, Canada, Australia and Hong Kong, the insights of the authors are both reflective and forward-looking, providing a rich resource towards 'reforming law reform'." —Professor Rosalind Croucher, President, Australian Law Reform Commission

*The Registration and Monitoring of Sex Offenders* Terry Thomas 2012-03-29 This book seeks to track the origins of sex offender registers, their purpose and the law and policy that underpins them in various parts of the world. Sex offender registers are not really registers at all but a set of 'legal requirements' that fall automatically on a person convicted or cautioned for a designated sexual offence; the term 'register' is a form of shorthand for these requirements, designed to be a contribution to greater public protection and community safety. This book provides the first serious and detailed narrative of the conception and implementation of the

sex offender registers. It seeks to do so in a clear and easy-to-follow text that will be both informed and critical and will also serve as a resource book for those wanting to make further study of the process of registration and monitoring. It looks in detail at the practice of implementing registers and considers questions about their effectiveness in monitoring sex offenders and the implications of someone being on a sex offender register. The book examines the legal challenges to registers and monitoring and the position of registrants in the context of human rights and seeks to place registers and monitoring in the wider context of what is being called the surveillance society. The Registration and Monitoring of Sex Offenders will be key reading for students of criminology and criminal justice, surveillance and human rights and practitioners in criminal justice fields of policing, probation, social work, children's services, the judiciary, prison work and others.
