Not a Choice, Not a Job - JANICE G. RAYMOND
2013-07-15

A generation ago, most people did not know how ubiquitous and grave human trafficking was. Now many people agree that the \$35.7 billion business is an appalling violation of human rights. But when confronted with prostitution, many people experience an odd disconnect because prostitution is shrouded in myths, among them the claims that "prostitution is inevitable," and "prostitution is a job or service like any other." In *Not a Choice, Not a Job*, Janice Raymond challenges both the myths and their perpetrators. Raymond demonstrates that prostitution is not sex but sexual exploitation, and that legalizing and decriminalizing the

system of prostitution "as opposed to the prostituted women" promotes sex trafficking, expands the sex industry, and invites organized crime. Specifically, Raymond exposes how legalized prostitution in the Netherlands, Germany, Australia, and Nevada worsens crime and endangers women. In contrast, she reveals, when governments work to prevent the demand for prostitution by prosecuting pimps, brothels, and prostitution users "as in Norway, Sweden, and Iceland" trafficking does not increase, women are better protected, and fewer men buy sex. Raymond expands the boundaries of scholarship in women's studies, making this book indispensable to human rights advocates around the world.

Sex Trafficking - Siddharth Kara 2017-08-29
“The best book ever written on human trafficking for sexual exploitation”—the basis for the feature film, *Trafficked*, starring Ashley Judd (Kevin Bales, president of Free the Slaves). Every year, hundreds of thousands of women and children are abducted, deceived, seduced, or sold into forced prostitution. These trafficked sex slaves form the backbone of one of the world’s most profitable illicit enterprises and generate huge profits for their exploiters, for unlike narcotics, which must be grown, harvested, refined, and packaged, sex slaves require no such “processing,” and can be repeatedly “consumed.” In this book, Kara provides a riveting account of his four-continent journey into this unconscionable industry, sharing the moving stories of its victims and revealing the shocking conditions of their exploitation. He draws on his background in finance, economics, and law to provide the first ever business analysis of contemporary slavery

worldwide, focusing on its most profitable and barbaric form: sex trafficking. Kara describes the local factors and global economic forces that gave rise to this and other forms of modern slavery over the past two decades and quantifies, for the first time, the size, growth, and profitability of each industry. Finally, he identifies the sectors of the sex trafficking industry that would be hardest hit by specifically designed interventions and recommends the specific legal, tactical, and policy measures that would target these vulnerable sectors and help to abolish this form of slavery, once and for all. The author will donate a portion of the proceeds of this book to the anti-slavery organization, Free the Slaves. “Sex trafficking is more of a problem than most people realize. Read this well-written book and find out.”—Kirk Douglas

across twenty-four nations highlights the experiences of the victims, perpetrators, and anti-traffickers involved in this brutal trade. Combining statistical data with intimate accounts and interviews, journalist Stephanie Hepburn and justice scholar Rita J. Simon create a dynamic volume sure to educate and spur action. Hepburn and Simon recount the lives of victims during and after their experience with trafficking, and they follow the activities of traffickers before capture and their outcomes after sentencing. Each chapter centers on the trafficking practices and anti-trafficking measures of a single country: Australia, Brazil, Canada, Chile, China, Colombia, France, Germany, India, Iran, Iraq, Israel, Italy, Japan, Mexico, Niger, Poland, Russia, South Africa, Syria, Thailand, the United Arab Emirates, the United Kingdom, and the United States. Examining these nations' laws, Hepburn and Simon reveal gaps in legislation and enforcement and outline the cultural norms and

biases, societal assumptions, and conflicting policies that make trafficking scenarios so pervasive and resilient. This study points out those most vulnerable in each nation and the specific cultural, economic, environmental, and geopolitical factors that contribute to each nation's trafficking issues. Furthermore, the study also highlights common phenomena that governments and international anti-traffickers should consider in their fight against this illicit trade.

HM Government: Serious Organised Crime Strategy - Cm. 8715 - Great Britain: Home Office 2013-10-07

This is a new strategy to deal with the challenges we face from serious and organised crime. It is published to coincide with the launch of the new National Crime Agency (NCA) and reflects changes to the threats faced and the lessons learned from previous work. Organised crime includes drug trafficking, human trafficking, and organised illegal immigration,

high value fraud and other financial crimes, counterfeiting, organised acquisitive crime and cyber crime. The aim of the strategy is to substantially reduce the level of serious and organised crime affecting the UK and its interests. The strategy uses the framework developed for our counter-terrorist work and has four components: prosecuting and disrupting people engaged in serious and organised crime (Pursue); preventing people from engaging in this activity (Prevent); increasing protection against serious and organised crime (Protect); and reducing the impact of this criminality where it takes place (Prepare). The strategy lists strategic objectives under each of the four areas of work. Tactical operational objectives (e.g. priority crime groups) will be set by the NCA with law enforcement agency counterparts. Our immediate priority is the work set out under Pursue to prosecute and relentlessly disrupt organised criminals and reduce the threat they pose. Like other threats to our national security,

serious and organised crime requires a response across the whole of government, and close collaboration with the public, the private sector and with many other countries

Understanding Global Slavery - Kevin Bales
2005-11-07

Although slavery is illegal throughout the world, we learned from Kevin Bales's highly praised exposé, *Disposable People: New Slavery in the Global Economy*, that more than twenty-seven million people—in countries from Pakistan to Thailand to the United States—are still trapped in bondage. With this new volume, Bales, the leading authority on modern slavery, looks beyond the specific instances of slavery described in his last book to explore broader themes about slavery's causes, its continuation, and how it might be ended. Written to raise awareness and deepen understanding, and touching again on individual lives around the world, this book tackles head-on one of the most urgent and difficult problems facing us today.

Each of the chapters in Understanding Global Slavery explores a different facet of global slavery. Bales investigates slavery's historical roots to illuminate today's puzzles. He explores our basic ideas about what slavery is and how the phenomenon fits into our moral, political, and economic worlds. He seeks to explain how human trafficking brings people into our cities and how the demand for trafficked workers, servants, and prostitutes shapes modern slavery. And he asks how we can study and measure this mostly hidden crime. Throughout, Bales emphasizes that to end global slavery, we must first understand it. This book is a step in that direction.

Model Law Against Trafficking in Persons - United Nations Office on Drugs and Crime 2009
The publication was developed by the United Nations Office on Drugs and Crime (UNODC) in response to the request of the General Assembly to the Secretary-General to promote and assist the efforts of Member States to become party to

and implement the United Nations Convention against Transnational Organized Crime and the Protocols thereto. It was developed in particular to assist States in implementing the provisions contained in the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing that Convention. The Model Law will both facilitate and help systematize provision of legislative assistance by UNODC as well as facilitate review and amendment of existing legislation and adoption of new legislation by States themselves. It is designed to be adaptable to the needs of each State, whatever its legal tradition and social, economic, cultural and geographical conditions.

Global Human Trafficking - Molly Dragiewicz
2014-12-05

Human trafficking has moved from relative obscurity to a major area of research, policy and teaching over the past ten years. Research has sprung from criminology, public policy, women's and gender studies, sociology, anthropology, and law, but has been somewhat hindered by the failure of scholars to engage beyond their own disciplines and favoured methodologies. Recent research has begun to improve efforts to understand the causes of the problem, the experiences of victims, policy efforts, and their consequences in specific cultural and historical contexts. *Global Human Trafficking: Critical*

issues and contexts foregrounds recent empirical work on human trafficking from an interdisciplinary, critical perspective. The collection includes classroom-friendly features, such as introductory chapters that provide essential background for understanding the trafficking literature, textboxes explaining key concepts, discussion questions for each chapter, and lists of additional resources, including films, websites, and additional readings for each chapter. The authors include both eminent and emerging scholars from around the world, drawn from law, anthropology, criminology, sociology, cultural studies, and political science and the book will be useful for undergraduate and graduate courses in these areas, as well as for scholars interested in trafficking.

Trafficking - Andrews, Sharon K. 2022-06-10
Much has already been published to better understand the problems associated with human trafficking such as why it occurs, where it occurs, and the horrendous tolls it takes on individuals and society. However, further study on the latest innovative ideas, research, and real-world efforts towards the detection and prevention of human trafficking analysis as well consideration of the success or failure of the current approaches is required in order to understand the necessary future improvements and how to best achieve them. Paths to the Prevention and Detection of Human Trafficking presents innovative and potentially transformational concepts and research results that discuss current, or developing, approaches that address the identification, reporting, and prevention of human trafficking, including important identified enablers of trafficking. Covering a range of topics such as machine learning and child exploitation, this reference

work is ideal for policymakers, government officials, hospital administrators, researchers, academicians, scholars, practitioners, instructors, and students.

Kristina out, determines to find her and ends up in the hands of the traffickers herself. Nikki, a hardened con artist and streetwise prostitute arrives in Almina to start a new life and make money. She befriends Elena and together they take on the traffickers with consequences neither expected or were prepared for..... The book is a work of fiction but is based on real stories. Whilst the people, places, companies, cities and countries are all figments of the author's imagination the events are all true and have happened to someone somewhere. Human Trafficking is said to be the second biggest International crime after the drugs trade and has an annual value of 31.6 billion US Dollars. An International Labour Organization report states that 2.5 million people are victims of human trafficking each year with 1.4 million of these being for sexual purposes. These victims are mostly women. To put this into perspective, it is equivalent to the entire female population of Albania or Jamaica being forced or coerced to

leave and made to work overseas as prostitutes - each and every year.

[Global Report on Trafficking in Persons 2020](#) - United Nations 2021-04-30

The 2020 UNODC Global Report on Trafficking in Persons is the fifth of its kind mandated by the General Assembly through the 2010 United Nations Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators.

The White Umbrella - Mary Frances Bowley
2012-10-01

Stories of survivors of sex-trafficking. Sex trafficking. We hear about it on the nightly news and in special interest stories from around the world, but it occurs daily in communities all around us. Every year, thousands of young women are forced into sexual exploitation. Most are under the age of 18. The damage this causes to their emotions and souls is immeasurable. But they are not without hope. *The White Umbrella* tells stories of survivors as well as those who came alongside to help them to recovery. It describes the pain and the strength of these young women and those who held the “white umbrella” of protection and purity over them on the road to restoration. This book offers principles and guidance to anyone with a heart for these hurting young women and a desire to help. It is an ideal resource for individuals or organizations seeking to learn what they can do to assist these victims in becoming whole again.

Representations of Transnational Human Trafficking - Christiana Gregoriou 2018-06-29

This open access edited collection examines representations of human trafficking in media ranging from British and Serbian newspapers, British and Scandinavian crime novels, and a documentary series, and questions the extent to which these portrayals reflect the realities of trafficking. It tackles the problematic tendency to under-report particular types of victim and forms of trafficking, and seeks to explore both dominant and marginalised points of view. The authors take a cross-disciplinary approach, utilising analytical tools from across the humanities and social sciences, including linguistics, literary and media studies, and cultural criminology. It will appeal to students, academics and policy-makers with an interest in human trafficking and its depiction in the modern day.

Dear John, the Diary of a Prostitute - Julia Anderson 2016-09-03

As an ex-prostitute, the author penned a collection of letters addressed to johns and other significant figures in her life from start-to-finish as a trafficked victim, confronting each individual with words on a page. "It required me to tell myself the truth and then get to a place where I could tell others as well. It was a journey through shame, through anger, through grief. Writing these letters made me push through just simply being "mad" at someone... It made me truly discover why. This book has been the foundation of my recovery." Though non a memoir, the book reads more like a collection of short stories of true crime, collectively taking you through one woman's eleven year journey in the sex trade, written by a survivor of human trafficking. The author's intent is to bring awareness to the role of demand on those entrapped and enslaved in the sex trade.

migrate and work as sex workers is disregarded and dismissed by anti-trafficking discourses of rescue in the latest United Nation's definition of trafficking. This volume explores the life experiences, agency, and human rights of trafficked women in order to shed light on the complicated processes in which anti-trafficking, human rights and social justice are intersected. In these articles, the authors critically analyze not only the conflation of trafficking with sex work in international and national discourses and its effects on migrant women, but also the global anti-trafficking policy and the root causes for the undocumented migration and employment. Featuring case studies on eleven countries including the US, Iran, Denmark, Paris, Hong Kong, and south east Asia and offering perspectives from transnational migrant population, the contributors rearticulate the trafficking discourses away from the state control of immigration and the global policing of borders, and reassert the social justice and the

needs, agency, and human rights of migrant and working communities. This book will be of interest to students and scholars of politics, gender studies, human rights, migration, sociology and anthropology.

Human Trafficking - Louise Shelley 2010-07-29
This book examines all forms of human trafficking globally, revealing the operations of the trafficking business and the nature of the traffickers themselves. Using a historical and comparative perspective, it demonstrates that there is more than one business model of human trafficking and that there are enormous variations in human trafficking in different regions of the world. Drawing on a wide body of academic research - actual prosecuted cases, diverse reports and field work and interviews conducted by the author over the last sixteen years in Asia, Latin America, Africa, Europe and the former socialist countries - Louise Shelley concludes that human trafficking will grow in the twenty-first century as a result of economic

Somebody's Daughter - Julian Sher 2013-04-01

They are America's forgotten children, the hundreds of thousands of child prostitutes who walk the Las Vegas Strip, the casinos of Atlantic City, the truck stops on interstates, and the street corners of our cities. Many people wrongly believe sex trafficking involves young women from foreign lands. In reality, the majority of teens caught in the sex trade are American girls--runaways and throwaways who become victims of ruthless pimps. In *Somebody's Daughter: The Hidden Story of America's Prostituted Children and the Battle to Save*

Them, meet the girls who are fighting for their dignity, the cops who are trying to rescue them, and the community activists battling to protect the nation's most forsaken children. Author Julian Sher takes you behind the scenes to expose one of America's most underreported crimes: A girl from New Jersey gets arrested in Las Vegas and, at great risk to her own life, helps the FBI take down a million-dollar pimping empire. An abused teenager in Texas has the courage to take the stand in a grueling trial that sends her pimp away for 75 years. Survivors of the sex trade in New York, Phoenix, and Minneapolis set up shelters and rescue centers that offer young girls a chance to break free from the streets. &“The sex trade is the new drug trade,&” says one FBI special agent, and *Somebody's Daughter* is a call to action, shining a light on America's dirty little secret.
