Mother-headed Families and Why They Have Increased Ailsa Burns 2013-06-17 The last two decades have seen a dramatic growth in the proportion of families headed by women. Most of these families are poor and include dependent children--causing the development of a large underprivileged class across the western world. This book explores the causes and implications of this development. Because the increase in mother-headed families is an international trend, an international perspective has been adopted. The discussion centers on selected countries where certain trends are most visible. Among the western nations particular attention is given to the United States, Sweden, and the former U.S.S.R., because of their high prevalence of mother-headed families; and trends in some countries with a middling prevalence are also discussed. Japan is included, because of its combination of advanced industrialization with a non-western tradition and a low incidence of mother-headed families. Accordingly, the book considers broad supranational influences, and proposes some explanations that draw on material from history, anthropology, sociology, psychology, women's studies, economics, literature, and religious studies. The authors present definitive information on the incidence of mother-headed families across historical epochs and culture groups. This includes an exploration of the conditions under which such families have been many or few and have been treated well or poorly by their communities. They also offer some theoretical explanations for the increasing frequency of this family form and consider whether these interpretations fit the facts that have been gathered. Finally, there is a detailed discussion revealing what these explanations may imply for the future--that is, whether the number of mother-headed families is likely to increase, stabilize, or decrease.

Sexual Revolutions in Cuba Carrie Hamilton 2012-03-12 In *Sexual Revolutions in Cuba* Carrie Hamilton delves into the relationship between passion and politics in revolutionary Cuba to present a comprehensive history of sexuality on the island from the triumph of the Revolution in 1959 into the twenty-first century. Drawing on an unused body of oral history interviews as well as press accounts, literary works, and other published sources, Hamilton pushes beyond official government rhetoric and explores how the wider changes initiated by the Revolution have affected the sexual lives of Cuban citizens. She foregrounds the memories and emotions of ordinary Cubans and compares these experiences with changing policies and wider social, political, and economic developments to reveal the complex dynamic between sexual desire and repression in revolutionary Cuba. Showing how revolutionary and prerevolutionary values coexist in a potent and sometimes contradictory mix, Hamilton addresses changing patterns in heterosexual relations, competing views of masculinity and femininity, same-sex relationships and homophobia, AIDS, sexual violence, interracial relationships, and sexual tourism. Hamilton's examination of sexual experiences across generations and social groups demonstrates that sexual politics have been integral to the construction of a new revolutionary Cuban society.

Falling in Love with Myself Savina Plescia Redpath 2017-03-20 This is a story of the difficulties which an Italian prisoner of war and later immigrant family to South Africa had to endure, and the toll it took on the family, and on the author as the daughter of the family in particular. It is especially the story of her battle to overcome the trauma of her childhood and youth, and the Sicilian family culture of that time. The author learned to value her heritage, and to forgive both herself and those close to her, and finally to accept and love herself as a complete and beautiful person. Her story is one of trauma, depression, awareness, acceptance, forgiveness, and ultimately, of compassion and love.

The Case for Single Motherhood Katherine Elizabeth Mack 2023-12-05 Delves into the rhetorical work of elective single mothers (ESMs) in the late twentieth- and early twenty-first centuries as they sought--and continue to seek--to legitimize their maternal identities and family formations. Scholars of rhetoric have largely overlooked the inherent rhetoricity of family. In *The Case for Single Motherhood*, Katherine Mack posits family as a central concern of rhetorical studies by reflecting on how language is used by single mothers who seek to reenvision the personal, social, and political meanings of family. Drawing on intersectional and rhetorical theories, Mack demonstrates how the category of elective single motherhood emerged in response to the historically differential treatment of "unwed mothers" along racial and class lines. Through her readings of a range of self-sponsored ESM texts--guidebooks, memoirs, and interactive digital media written by and primarily for other ESMs--and from her perspective as an elective single mother herself, Mack evaluates the rhetorical power, as well as the exclusions and hierarchies, that the ESM label effects. She analyzes how ESMs envision motherhood, visions that entail their musings about who can and should mother. Ultimately, Mack offers women who are considering nonnormative paths to motherhood a way to affirm their maternal identities and paths without disparaging others'. Scholars in the fields of rhetoric and feminist rhetorical studies will find in this volume an illuminating perspective on the rhetorical power of self-sponsored texts in particular. Crafting a methodology to identify and evaluate the goals and effects of legitimacy work and selecting sources that bring academic attention to varied genres of self-sponsored writings, Mack paves the way for future rhetorical studies of motherhood and family.

Love Lives Carol Dyhouse 2021-02-11 This book is about the reshaping of women's lives, loves and dreams. Queering Reproduction Laura Mamo 2007-08-13 Originally developed to help heterosexual couples, fertility treatments such as in vitro fertilization and sperm donation have provided lesbians with new methods for achieving pregnancy during the past two decades. *Queering Reproduction* is an important sociological analysis of lesbians' use of these medical fertility treatments. Drawing on in-depth interviews with lesbians who have been or are seeking to become pregnant, Laura Mamo describes how reproduction has become an intensely medicalized process for lesbians, who are transformed into fertility patients not (or not only) because of their physical conditions but because of their sexual identities. Mamo argues that this medicalization of reproduction has begun to shape queer subjectivities in both productive and troubling ways, destabilizing the assumed link between heterosexuality and parenthood while also reinforcing traditional, heteronormative ideals about

motherhood and the imperative to reproduce. Mamo provides an overview of a shift within some lesbian communities from low-tech methods of self-insemination to a reliance on outside medical intervention and fertility treatments. Reflecting on the issues facing lesbians who become parents through assisted reproductive technologies, Mamo explores questions about the legal rights of co-parents, concerns about the genetic risks of choosing an anonymous sperm donor, and the ways decisions to become parents affect sexual and political identities. In doing so, she investigates how lesbians navigate the medical system with its requisite range of fertility treatments, diagnostic categories, and treatment trajectories. Combining moving narratives and insightful analysis, *Queering Reproduction* reveals how medical technology reconfigures social formations, individual subjectivity, and notions of kinship.

Love Your Neighbor and Yourself Elliot N. Dorff 2006-02-15 In this topically relevant book on modern ethical issues, Dorff focuses on personal ethics, Judaism's distinctive way of understanding human nature, our role in life, and what we should strive to be, both as individuals and as members of a community. Dorff addresses specific moral issues that affect our personal lives: privacy, particularly at work as it is affected by the Internet and other modern technologies; sex in and outside of marriage; family matters, such as adoption, surrogate motherhood, stepfamilies, divorce, parenting, and family violence; homosexuality; justice, mercy, and forgiveness; and charitable acts and social action.

Love and Marriage Serena Nanda 2018-12-10 Cultural anthropologist Serena Nanda mines a wide range of ethnographic research to examine the patterns of love, marriage, sexuality, and family unique to eight cultures around the world. After reviewing changing patterns in the United States, readers are taken to China, India, Brazil, Iran, Indonesia, Nigeria, the South Pacific, and Nepal to explore traditions and transformations and the intertwining dynamics of kinship, class, politics, religion, and gender roles in love and marriage. An additional chapter traces the diversity of LGBTQ relationships, with contemporary examples drawn from the US, Indonesia, and India. A valuable summary chapter features a brief analysis of similar and different cultural configurations. Nanda's ethnographically rich examples and fresh perspective will challenge readers to understand that their own culture is not natural or superior but rather just one of many possibilities adapted to specific environments and subject to changes.

Silently Seduced Kenneth M. Adams 2011-09 In this revised and updated 20th anniversary edition of his groundbreaking book, Dr. Kenneth Adams, a leading expert on covert incest, sex addiction, and childhood trauma, offers tools for identifying and healing from covert incestuous relationships that affect adult relationships and lives. He explains how 'feeling close' with a parent is not always the source of comfort the phrase suggests, especially when that child is cheated out of a childhood by being a parent's surrogate partner. Dr. Adams includes a new Q&A section that directly addresses issues including: • How can this be incestuous when there is no physical sexual contact? • Why is sexual addiction so common with covert incest survivors? • Why is it so hard for covert incest survivors to commit to romantic relationships? • If my partner is a covert incest survivor, how can I help? • Can I pass covert incest on to my children? Through new findings and expanded discussions on 'engulfment,' 'excessive guilt,' 'loyalty,' and 'narcissism,' and others, *Silently Seduced* offers a framework to understand covert incest and its effect on sexuality, intimacy, and relationships to facilitate the process of recovery.

Love, Marriage, and Jewish Families Sylvia Barack Fishman 2015-11-22 The concepts of gender, love, and family - as well as the personal choices regarding gender-role construction, sexual and romantic liaisons, and family formation - have become more fluid under a society-wide softening of boundaries, hierarchies, and protocols. Sylvia Barack Fishman gathers the work of social historians and legal scholars who study transformations in the intimate realms of partnering and family construction among Jews. Following a substantive introduction, the volume casts a broad net. Chapters explore the current situation in both the United States and Israel, attending to what once were considered unconventional household arrangements - including extended singlehood, cohabitating couples, single Jewish mothers, and GLBTQ families - along with the legal ramifications and religious backlash. Together, these essays demonstrate how changes in the understanding of male and female roles and expectations over the past few decades have contributed to a social revolution with profound - and paradoxical - effects on partnering, marriage, and family formation. This diverse anthology - with chapters focusing on demography, ethnography, and legal texts - will interest scholars and students in Jewish studies, women's and gender studies, Israel studies, and American Jewish history, sociology, and culture.

To Make Our World Anew Robin D. G. Kelley 2005-04-28 Written by the most prominent of the new generation of historians, this superb volume offers the most up-to-date and authoritative account available of African-American history, ranging from the first Africans brought as slaves into the Americas, to today's black filmmakers and politicians. Here is a panoramic view of African American life, rich in gripping first-person accounts and short character sketches that invite readers to relive history as African Americans experienced it. We begin in Africa, with the growth of the slave trade, and follow the forced migration of what is estimated to be between ten and twenty million people, witnessing the terrible human cost of slavery in the colonies of England and Spain. We read of the Haitian Revolution, which ended victoriously in 1804 with the birth of the first independent black nation in the New World, and of slave rebellions and resistance in the United States in the years leading up to the Civil War. There are vivid accounts of the Civil War and Reconstruction years, the backlash of notorious "Jim Crow" laws and mob lynchings, and the founding of key black educational institutions. The contributors also trace the migration of blacks to the major cities, the birth of the Harlem Renaissance, the hardships of the Great Depression and the service of African Americans in World War II, the struggle for Civil Rights in the 1950s and '60s, and the emergence of today's black middle class. From Harriet Tubman and Frederick Douglass to Martin Luther King, Jr., and Louis Farrakhan, To Make Our World Anew is an unforgettable portrait

of a people.

Cinema and the Second Sex Carrie Tarr 2016-10-06 Women's filmmaking in France has been a source of both delight and despair. On the one hand, the numbers are impressive - over 250 feature-length films were made by over 100 women directors in France in the 1980s and 1990s. On the other hand, despite the heritage of French feminism, French women directors characteristically disclaim their gender as a significant factor in their filmmaking. This incisive study provides an informative, critical guide to this major body of work, exploring the boundaries between personal films (intimate psychological dramas relating to key stages in life) and genre films (which demonstrate women's ability to appropriate and rework popular genres). It analyzes the effects of postfeminism, women's desire to enter the mainstream, and the impact of a new generation of filmmakers, enabling readers to take stock of the wealth and diversity of women's contribution to French cinema during the 1980s and 1990s.

The Psychology of Women under Patriarchy Holly F. Mathews 2019-11-15 In the #MeToo era, US women continue to struggle with whether or not to report sexual harassment, while women living in parts of rural Pakistan and Mexico try to pursue educational and employment opportunities without directly refusing parental wishes for them to marry. Despite rapidly changing social and economic conditions worldwide, patriarchal practices remain remarkably widespread and persistent. Noting the need to move beyond a dichotomy of accommodation and resistance, the contributors to this volume draw upon field research and in-depth qualitative data from different parts of the world to explore the reasons for women's varied psychological responses to patriarchy. These feminist scholars bridge preexisting divides between bio-psychological, sociological, and cultural perspectives to explain the ways that women's desires, goals, and identities interact with culturally situated systems in order to develop more complex theories about the psychological underpinnings of patriarchy and to inform more socially progressive policies to improve the lives of women and men globally.

Sex, Love, and Friendship Adrienne Leigh McEvoy 2011-08 The joke is that all the prostitutes go on vacation when the philosophers come to town. The reason that the other conventioners do it; philosophers just talk about it. And talk about sex and love, and friendship is what the contributors to this volume do! They talk and argue, split hairs and clarify, all trying to advance our understanding of this most interesting practice of the human species. Some of the best minds on three continents, from four nations, and eighteen of the United States discuss such topics as adultery, commitment, cross dressing, gender politics, date rape, family, friendship, friends as lovers, gayness, love, marital pluralism, marriage, prostitution, religiously motivated anti-queer sentiments, same sex marriage, seduction, and self-respect. Rather than preach, participants probe our attitudes and practices involving these issues with the aim of better understanding the broad range of sexual practices of our species. The result is a collection of stimulating essays that can enliven class discussions as well as provide guidance for the sexually perplexed. The work is accessible to readers from high school through college and beyond.

The Law of Love Wylark Day 2002-12-09 What does it mean to be righteous? To be holy? By what

standard will God judge us when we die? As the Bible tells us in 1Corinthians 8:2"And if any man think that he knoweth any thing, he knoweth nothing yet as he ought to know." For nearly two millennia, Christians have followed the philosophy of Asceticism: a philosophy which teaches that ignorance about sex is best because it is based on Fear. Yet God's philosophy is LOVE; and to love requires knowledge. In this, the second volume of *Sex and the Bible*, we will therefore take a very close look at the teachings of the Bible, in order to discover what God really thinks about SEX. Roll over, St. Augustine!

Marriage, Sexuality, and Gender Robin West 2015-12-03 *Marriage, Sexuality, and Gender* examines contemporary debates about the meaning and value of marriage. The book analyzes arguments for traditional marriage, including those of neonaturalists, utilitarians, and communitarians or virtue theorists. The volume also considers a range of feminist, welfarist, and liberationist arguments for ending the institution altogether. It evaluates two major reform movements: one focused on expanding marriage to include same-sex couples and the other focused on the use of law to render marriage more internally just. The book concludes with a plea to activists to redirect "marriage equality" movements toward the creation of an entirely secular "civil union law" that would respect a broader range of private life-long commitments, including but not limited to same- and opposite-sex couples, without threatening the role of religious marriage in the lives of those who embrace it and without penalizing nonparticipants.

The Tenacity of the Couple-Norm Sasha Roseneil 2020-11-05 *The Tenacity of the Couple-Norm* explores the ongoing strength and insidious grip of couple-normativity across changing landscapes of law, policy and everyday life in four contrasting national contexts: the UK, Bulgaria, Norway and Portugal. By investigating how the couple-norm is lived and experienced, how it has changed over time, and how it varies between places and social groups, this book provides a detailed analysis of changing intimate citizenship regimes in Europe, and makes a major intervention in understandings of the contemporary condition of personal life. The authors develop the feminist concept of 'intimate citizenship' and propose the new concept of 'intimate citizenship regime', offering a study of intimate citizenship regimes as normative systems that have been undergoing profound change in recent decades. Against the backdrop of processes of de-patriarchalization, liberalization, pluralization and homonormalization, the ongoing potency of the couple-norm becomes ever clearer.

Love in Modern Japan Sonia Ryang 2006-10-19 This compelling and controversial book places the concept of love in both a social and historical context. Taking an approach in which state formation and vicissitude of power are explicitly taken into account in the discussion of intimacy and love, the author demonstrates that love as idealization and love as sexuality must be kept analytically separate. Chapters include discussions on sexualized rituals and fertility festivals, the murder case of Abe Sada, pure love in Miko and Mako's tragedy and the 1990s phenomenon of 'enjokosai' or aid-date. Combining ethnographic, theoretical and archival research, this text will appeal to scholars of Japanese anthropology, feminist anthropology and gender studies alike.

Love, Money, and Parenting Matthias Doepke 2019-02-05 The book investigates how economic forces and growing inequality shape how parents raise their children. From medieval times to the present, and from the United States, the United Kingdom, Germany, Italy, Spain, and Sweden to China and Japan, the authors look at how economic incentives and constraints - such as money, knowledge, and time - influence parenting practices and what is considered good parenting in different countries

Between Mothers and Sons Evelyn S. Bassoff 1995-09 "Remarkable ... this extraordinary book helps mothers explore the challenges, frustration, pain and joy that are unique to raising sons." -- Washington Post Book World A son's physical, emotional, and psychological development differs vastly from that of a daughter's -- and raising a son can pose unique challenges for a mother. With great clarity and sensitivity, this groundbreaking book from Dr. Evelyn Bassoff, acclaimed psychologist and author of *Mothers and Daughters*, explains how mothers can remain nurturing presences in their sons' lives throughout their many transitions. She details the important role a father plays in a son's growth, and how mothers can support and celebrate their sons' masculine

energy -- whether it manifests itself in a love of playing football or playing piano. Dr. Bassoff also illuminates the varied demands of raising sons for married and single mothers, stepmothers, and mothers of gay sons. Drawing upon the best available research, as well as myths, legends, her experience raising her own son, and the personal stories of clients and friends, Dr. Bassoff offers an invaluable perspective on what mothers can do to insure that their sons become vital, loving men.

The Eighties Frank Bongiorno 2015-11-02 It was the era of Hawke and Keating, Kylie and INXS, the America's Cup and the Bicentenary. It was perhaps the most controversial decade in Australian history, with high-flying entrepreneurs booming and busting, torrid debates over land rights and immigration, the advent of AIDS, a harsh recession and the rise of the New Right. It was a time when Australians fought for social change - on union picket lines, at rallies for women's rights and against nuclear weapons, and as part of a new environmental movement. And then there were the events that left many scratching their heads: Joh for Canberra . . . the Australia Card . . . Cliff Young. In *The Eighties*, Frank Bongiorno brings all this and more to life. He uncovers forgotten stories - of factory workers proud of their skills who found themselves surplus to requirements; of Vietnamese families battling to make new lives for themselves in the suburbs. He sheds new light on 'both the ordinary and extraordinary things that happened to Australia and Australians during this liveliest of decades'. *The Eighties* is contemporary history at its best. 'Frank Bongiorno has successfully negotiated the minefield of Australia's political egos to write the definitive account of an inspired, infuriating decade.' - George Megalogenis
