Missing Joseph Elizabeth George 2011-09-15 When Deborah St James hears of the unexpected death of Reverend Sage, her sadness has a very personal tinge. For their paths had crossed some months earlier at a particularly vulnerable time for Deborah, and she had found herself confessing her intimate anguish to this sympathetic stranger. When she realizes that his death is far from accidental, Deborah, with her husband, Simon, enlists the help of Inspector Lynley, and the trio embarks upon an investigation that hinges upon the overriding - and ultimately destructive - power of parental love.

Stalkers and their Victims Paul E. Mullen 2008-11-13 Stalking has moved from being a novel area for study to become a core area of concern for mental health professionals, lawyers and other members of the criminal justice system. It has emerged as a significant social problem which not only commands considerable public attention but is now, in many jurisdictions, a specific form of criminal offence. This new edition brings the reader completely up-to-date with the explosion in published research and clinical studies in the field, and covers new issues such as cyberstalking, stalking health professionals, stalking in the workplace, female stalkers, juvenile stalkers, stalking celebrities, evaluating risk in the stalking situation, as well as exploring changes to the legal status of the behaviour. Illustrated with case studies throughout, this is the definitive guide and reference for anyone with professional, academic or other interests in this complex behaviour.

When Scotland Was Jewish Elizabeth Caldwell Hirschman 2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Rehabilitating Sexual Offenders William L. Marshall 2011 While most sexual offender treatment programs take an aggressive, confrontational approach that targets the offenders' denial, research has indicated that this common approach does not appreciably alter actual risk factors related to reoffense rate. Furthermore, this approach can alienate and demoralize offenders. Over the past 40 years, William L. Marshall and colleagues have developed and refined a motivational, strength-based approach emphasizing warmth, empathy, and support for the offenders. Backed by research, this positive approach does not ignore risk factors but presents them to clients as targets for the development of strengths rather than as deficits to be overcome. Such programs in both prison and community settings achieve a broad range of treatment targets and appear to reduce recidivism for both sexual and nonsexual crimes. This landmark volume challenges how sexual offender treatment is typically conducted. It is thought-provoking reading for psychologists, psychiatrists, social workers, counselors, and parole and probation officers working with sexual offenders. In this wonderful book, Marshall and colleagues describe the surrounding theory and treatment strategies of their positive approach to working with adult sex offenders. Exceptionally well written and clearly structured, in many respects the book represents the fruits of a lifetime of profound reflection and innovation by one of the field's outstanding talents and pioneers. It is a brilliant achievement and provides a coherent and accurate integration of the tenets of positive psychology and strength-based perspectives with contemporary assessment and treatment techniques.---Tony Ward, PhD, Head of

School of Psychology, Victoria University of Wellington, New Zealand This volume is a welcome addition to the small, but growing, literature on strength-based work with offenders. It is an invaluable resource for anyone interested in the field of rehabilitation, whether they be practitioners, academics, or students.---Anthony Beech, PhD, Professor of Forensic Psychology, University of Birmingham, United Kingdom

High Quality Care for All Secretary of State for Health 2008 This review incorporates the views and visions of 2,000 clinicians and other health and social care professionals from every NHS region in England, and has been developed in discussion with patients, carers and the general public. The changes proposed are locally-led, patient-centred and clinically driven. Chapter 2 identifies the challenges facing the NHS in the 21st century: ever higher expectations; demand driven by demographics as people live longer; health in an age of information and connectivity; the changing nature of disease; advances in treatment; a changing health workplace. Chapter 3 outlines the proposals to deliver high quality care for patients and the public, with an emphasis on helping people to stay healthy, empowering patients, providing the most effective treatments, and keeping patients as safe as possible in healthcare environments. The importance of quality in all aspects of the NHS is reinforced in chapter 4, and must be understood from the perspective of the patient's safety, experience in care received and the effectiveness of that care. Best practice will be widely promoted, with a central role for the National Institute for Health and Clinical Excellence (NICE) in expanding national standards. This will bring clarity to the high standards expected and quality performance will be measured and published. The review outlines the need to put frontline staff in control of this drive for quality (chapter 5), with greater freedom to use their expertise and skill and decision-making to find innovative ways to improve care for patients. Clinical and managerial leadership skills at the local level need further development, and all levels of staff will receive support through education and training (chapter 6). The review recommends the introduction of an NHS Constitution (chapter 7). The final chapter sets out the means of implementation.

Folk Devils and Moral Panics Stanley Cohen 2011 'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, *Folk Devils and Moral Panics* is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

Child Sexual Exploitation: Why Theory Matters Pearce, Jenny 2019-12-02 The issue of Child Sexual Exploitation is firmly in the public spotlight internationally and in the UK, but just how well is it understood? To date, many CSE-related services have been developed in reaction to high profile cases rather than being designed more strategically. This much needed book breaks new ground by considering how psychosocial studies, feminist and geo-environmental theories, amongst others, can improve practice understanding and interventions. Edited by one of the leading scholars in the field, this text will help those planning strategic interventions and practice activities in social, youth and therapeutic work with young people to properly grasp how CSE arises and how to challenge the nature of abuse.

Sport in Prison Rosie Meek 2013-11-07 Although prison can present a critical opportunity to engage with offenders through interventions and programming, reoffending rates among those released from prison remain stubbornly high. Sport can be a means through which to engage with even the most challenging and complex individuals caught up in a cycle of offending and imprisonment, by offering an alternative means of excitement and risk taking to that gained through engaging in offending behaviour, or by providing an alternative social network and access to positive role models. This is the first book to explore the role of sport in prisons and its subsequent impact on rehabilitation and behavioural change. The book draws on research literature on the beneficial role of sport in community settings and on prison cultures and regimes, across disciplines including criminology, psychology, sociology and sport studies, as well as original qualitative and quantitative data gathered from research in prisons. It unpacks the meanings that prisoners and staff attach to sport participation and interventions in order to understand how to promote behavioural change through sport most effectively, while identifying and tackling the key emerging issues and challenges. Sport in Prison is essential reading for any advanced student, researcher, policy-maker or professional working in the criminal justice system with an interest in prisons, offending behaviour, rehabilitation, sport development, or the wider social significance of sport.

The Bigamist Mary Turner Thomson 2011-07-15 In April 2006, Mary Turner Thomson received a call that blew her life apart. The woman on the other end of the line told her that Will Jordan, Mary's husband and the father of her two younger children, had been married to her for fourteen years and they had five children together. The Bigamist is the shocking true story of how one man manipulated an intelligent, independent woman, conning her out of £200,000 and leaving her to bring up the children he claimed he could never have. It's a story we all think could never happen to us, but this shameless con man has been doing the same thing to various other women for at least 27 years, spinning a tangled web of lies and deceit to cover his tracks. How far would you go to help the man you love? How far would he go to deceive you? And what would you do when you found out it was all a lie?

Contemporary Risk Assessment in Safeguarding Children Martin C. Calder 2008 This book is for anyone involved in the protection and safeguarding of children and young people. At all levels, risk and risk assessment are key concerns and preoccupations. Yet, across and within the various concerned professional groups, there is an inadequate knowledge base to inform practice. There is no official guidance, not even a shared agreement on what 'risk' means. The book's varied and illuminating perspectives help refine the exercise of professional judgement in estimating and managing uncertainties prospectively, rather than being judged retrospectively. It will direct professional progress towards risk assessments that are evidence-based, comprehensive, and equitable; risk management strategies with levels of intrusion commensurate to levels of risk; and greater shared understanding of terminology. *Contemporary Risk Assessment in Safeguarding Children* also examines dilemmas in daily decision-making, considering how lack of guidance leads to inconsistency and how differences in approach cause tension and confusion. It examines emerging dilemmas around rights, protection, and responsibilities; and offers some contemporary risk assessment frameworks.

Raised on the Registry Nicole Pittman 2013 This report details the harm public registration laws cause for youth sex offenders. The laws, which can apply for decades or even a lifetime and are layered on top of time in prison or juvenile detention, require placing offenders' personal information on online registries, often making them targets for harassment, humiliation, and even violence. The laws also severely restrict where, and with whom, youth sex offenders may live, work, attend school, or even spend time.

Incarceration Nations Baz Dreisinger 2016-02-09 In this crucial study, named one of the Washington Post's Notable Nonfiction Books of 2016 and now in paperback, Baz Dreisinger goes behind bars in nine countries to investigate the current conditions in prisons worldwide. Beginning in Africa and ending in Europe, *Incarceration Nations* is a first-person odyssey through the prison systems of the world. Professor, journalist, and founder of the Prison-to-College-Pipeline program, Dreisinger looks into the human stories of incarcerated men and women and those who imprison them, creating a jarring, poignant view of a world to which most are denied access, and a rethinking of one of America's most far-reaching global exports: the modern prison complex. From serving as a restorative justice facilitator in a notorious South African prison and working with genocide survivors in Rwanda, to launching a creative writing class in an overcrowded Ugandan prison and coordinating a drama workshop for women prisoners in Thailand, Dreisinger examines the world behind bars with equal parts empathy and intellect. She journeys to Jamaica to visit a prison music program, to Singapore to learn about approaches to prisoner reentry, to Australia to grapple with the bottom line of private prisons, to a federal supermax in Brazil to confront the horrors of solitary confinement, and finally to the so-called model prisons of Norway. *Incarceration Nations* concludes with climactic lessons about the past, present, and future of justice.

therapeutic law to help students develop an in-depth and critical approach to this complex subject. New developments for the fifth edition include: Brand new chapter on prisons, criminal justice and mental health Expanded coverage of stigma, class and social networks Updated material on the Mental Capacity Act, Mental Health Act and the Deprivation of Liberty A classic in its field, this well established textbook offers a rich and well-crafted overview of mental health and illness unrivalled by competitors and is essential reading for students and professionals studying a range of medical sociology and health-related courses. It is also highly suitable for trainee mental health workers in the fields of social work, nursing, clinical psychology and psychiatry. "Rogers and Pilgrim go from strength to strength! This fifth edition of their classic text is not only a sociology but also a psychology, a philosophy, a history and a polity. It combines rigorous scholarship with radical argument to produce incisive perspectives on the major contemporary questions concerning mental health and illness. The authors admirably balance judicious presentation of the range of available understandings with clear articulation of their own positions on key issues. This book is essential reading for everyone involved in mental health work." Christopher Dowrick, Professor of Primary Medical Care, University of Liverpool, UK "Pilgrim and Rogers have for the last twenty years given us the key text in the sociology of mental health and illness. Each edition has captured the multi-layered and ever changing landscape of theory and practice around psychiatry and mental health, providing an essential tool for teachers and researchers, and much loved by students for the dexterity in combining scope and accessibility. This latest volume, with its focus on community mental health, user movements criminal justice and the need for inter-agency working, alongside the more classical sociological critiques around social theories and social inequalities, demonstrates more than ever that sociological perspectives are crucial in the understanding and explanation of mental and emotional healthcare and practice, hence its audience extends across the related disciplines to everyone who is involved in this highly controversial and socially relevant arena." Gillian Bendelow, School of Law Politics and Sociology, University of Sussex, UK "From the classic bedrock studies to contemporary sociological perspectives on the current controversy over which scientific organizations will define diagnosis, Rogers and Pilgrim provide a comprehensive, readable and elegant overview of how social factors shape the onset and response to mental health and mental illness. Their sociological vision embraces historical, professional and socio-cultural context and processes as they shape the lives of those in the community and those who provide care; the organizations mandated to deliver services and those that have ended up becoming unsuitable substitutes; and the successful and unsuccessful efforts to improve the lives through science, challenge and law." Excavation Wendy C. Ortiz 2014 Literary Nonfiction. Memoir. Wendy C. Ortiz was an only child and a bookish, insecure girl living with alcoholic parents in the San Fernando Valley of Los Angeles in the late 1980s and early 1990s. Her relationship with a charming and deeply flawed private school teacher fifteen years her senior appeared to give her the kind of power teenagers wish for, regardless of consequences. Her teacher—now a registered sex offender—continually encouraged her passion for writing while making her promise she was not leaving any written record about their dangerous sexual relationship. This conflicted relationship with her teacher may have been just five years long, but would imprint itself on her and her later relationships, queer and straight, for the rest of her life. In *EXCAVATION: A MEMOIR*, the black and white of the standard victim/perpetrator stereotype gives way to unsettling grays. The present-day narrator reflects on the girl she once was, as well as the teacher and parent she has become. It's a beautifully written and powerful story of a woman reclaiming her whole heart.

Paedophilia and Child Sexual Abuse in Drama and Theatre Daniel Meyer-Dinkgräfe 2019-01-10 In many Western countries, numerous instances of cases of historical and present-day sexual abuse of children (Child Sexual Abuse, CSA) have made the headlines across the entire range of media. These cases are discussed variously as paedophilia and child sexual abuse. In the heat of the debate, concepts and related terminology tend to become at best vague, and there is much in the way of sheer sensationalism. Altogether, a hazy cloud of facts and fiction has been created around paedophilia in its relation to CSA. This book adds to the very urgently needed enhanced level of understanding by analysing the nature of paedophilia and its relation to CSA as they have been depicted and dealt with in contemporary British and American drama and theatre. Drawing on the plays and their reviews allows it to illustrate the ambiguity of paedophilia and child sex abuse, and to ask questions that are not often uttered and not easily answered.

Sexual Offenses and Offenders: Theory, Practice, and Policy Karen J. Terry 2012-06-14 This comprehensive text examines the unique characteristics of sexual offenses and the resulting laws that pertain specifically to them, including the causes and treatment of sexual offenses as well as the policy implications of research outcomes. Sexual offenders are often treated differently than other offenders (by both the community and the criminal justice system) as a result of public scorn and recidivism. This distinctive book answers the call for thorough, research-based information on this inherently controversial subject. Blessed with a singular voice and a fiery temperament, Sinéad O'Connor rose to massive fame in the late 1980s and 1990s with a string of gold records. From her trademark shaved head to her 1992 appearance on Saturday Night Live when she tore up Pope John Paul II's photograph, Sinéad has fascinated and outraged millions. In *Rememberings*, O'Connor recounts her painful tale of growing up in Dublin in a dysfunctional, abusive household. Inspired by a brother's Bob Dylan records, she escaped into music. The Practice of Functional Analytic Psychotherapy Jonathan W. Kanter 2010-06-14 Since the earliest years of its development, Functional Analytic Psychotherapy (FAP) has been hailed for its clinical innovation and transformative power with clients across the range of disorders. Building on the foundations of their earlier volumes about this versatile therapy, the editors of *The Practice of Functional Analytic Psychotherapy* bring together noted clinicians and researchers to explain in depth how FAP can be used in conjunction with a broad spectrum of therapeutic approaches, and with diverse client populations. The hallmarks of the method, including therapist sensitivity and responding to client behavior in the moment, courage, mindfulness, acceptance, and egalitarianism, inform a wide array of interventions and strategies, among them: Integrating FAP with other treatments, including cognitive behavioral therapy, acceptance and commitment therapy, dialectical behavior therapy, behavioral activation, psychodynamic therapies, and feminist therapies. Applying FAP across cultures, nationalities, and ethnicities. Employing FAP with couples. Increasing

sensitivity to and effectiveness with sexual minority clients. Modifying FAP for developmentally appropriate use with adolescents. Enhancing a team approach with severely mentally ill patients in institutional settings. Strengthening the power of interpersonal process groups. As a new tool or an enhancement to current practice, these applications of FAP will give therapists an empowering complement to their work. The Practice of Functional Analytic Psychotherapy points to compelling directions in personal growth and change—on both sides of the therapeutic bond.

Restorative Justice & Responsive Regulation John Braithwaite 2002 Braithwaite's argument against punitive justice systems and for restorative justice systems establishes that there are good theoretical and empirical grounds for anticipating that well designed restorative justice processes will restore victims, offenders, and communities better than existing criminal justice practices. Counterintuitively, he also shows that a restorative justice system may deter, incapacitate, and rehabilitate more effectively than a punitive system. This is particularly true when the restorative justice system is embedded in a responsive regulatory framework that opts for deterrence only after restoration repeatedly fails, and incapacitation only after escalated deterrence fails. Braithwaite's empirical research demonstrates that active deterrence under the dynamic regulatory pyramid that is a hallmark of the restorative justice system he supports, is far more effective than the passive deterrence that is notable in the stricter "sentencing grid" of current criminal justice systems.

The Price of Sex Belinda Brooks-Gordon 2013-06-17 As a society we are buying more sex than ever before. Adult sex shops now take their place amongst retailers in the high street and lap dancing clubs compete for an increased share of the leisure economy; hotel chains offer sexually explicit films as part of their standard service, the party selling of adult toys to women in their homes has become a mainstream activity; and at the traditional end of the sexual service economy, prostitution has experienced new growth. Along with this has come new legal measures and attempts to regulate the sexual leisure economy, and far more comprehensive plans than ever before to regulate prostitution, in particular in the form of the new Sex Offences Act. This book seeks to address the range of issues and contemporary debates on the sex industry, including the demand by customers who buy sex, the policing of women who work in the street sex industry, and the violence that pervades prostitution. It shows how these issues have been addressed in policy terms, the problems that have emerged in this, and how a social policy might be formulated to minimize harm and enhance public understanding. Overall the book aims to provide a critical perspective on prostitution policies and the legal chaos and complexities that surround this.
