Practical Mental Influence William W Atkinson 2018-02-07 There is nothing unscientific, nothing romantic in admitting that an idea can influence a brain from a distance. The action of one human being upon another, from a distance, is a scientific fact. When a Thought or Feeling is generated in the mind or brain of a person, the energy generated flows forth from the brain of the person in the form of waves of mental energy, spreading from the immediate neighborhood of the thinker to a distance proportioned to the strength of the thought or feeling. These Thought-Waves have the property of awakening similar vibrations in the minds of other persons coming within their field of force, according to the laws of Mental Influence.

Thought Vibration Or The Law of Attraction in the Thought World (1921) William Walker Atkinson 2006 In December, 1901, William Walker Atkinson in assuming the editorship of the popular magazine New Thought, introduced himself to the readers of that periodical in a memorable article. That article contained a clear, ringing, forceful statement of his individual creed, than which nothing can afford a deeper insight into the character and inner self of the man whose name appears as author of this book. It is the crystallized expression of the world-principles, the truths, which his writings seek to illuminate? and in my opinion should be read by every student of his works, as the key to the philosophy he teaches.

The Law of Attraction Organik Media, Incorporated 2012-03-27 William Walker Atkinson was one of the earliest authors who taught people how to use the law of attraction to create unlimited abundance and rapid energetic shifts. Decades before Rhonda Byrnes' "The Secret" or Esther and Jerry Hick's "The Amazing Power of Deliberate Intent," he showed readers how to use the power of desire, thought and concentration to attract wealth, health, happiness and success. As Mr. Atkinson explains it: "One draws to himself thought waves corresponding in character with the nature of the prevailing thoughts in his own mind-his mental attitude. Then again he begins to set into motion the great Law of Attraction, whereby he draws to him others likely to help him, and is, in turn, attracted to others who can aid him. This Law of Attraction is no joke, no metaphysical absurdity, but is a great live working principle of Nature, as anyone may learn by experimenting and observing." This book *works*, but only if the Exercises are put into practice. This version includes a handy lesson overview with copyable weekly charts to track your progress. He devoted his life to searching out a recipe for achievement—a means of predicting success in any area of life. The Power of Concentration William Walker Atkinson 2017-12-06 This eBook edition of "The Power of Concentration" has been formatted to the highest digital standards and adjusted for readability on all devices. Excerpt: "We all know that in order to accomplish a certain thing we must concentrate. It is of the utmost value to learn how to concentrate. To make a success of anything you must be able to concentrate your entire thought upon the idea you are working out. Do not become discouraged, if you are unable to hold your thought on the subject very long at first. There are very few that can. It seems a peculiar fact that it is easier to concentrate on something that is not good for us, than on something that is beneficial. This tendency is overcome when we learn to concentrate consciously. If you will just practice a few concentration exercises each day you will find you will soon develop this wonderful power." William Walker Atkinson (1862-1932) was an attorney, merchant, publisher, and author, as well as an occultist and an American pioneer of the New Thought movement. He is also known to have been the author of the pseudonymous works attributed to Theron Q. Dumont and Yogi Ramacharaka.
