**Irongran** Edwina Brocklesby 2018-04-05 'If I can start to run at 50 and become the oldest British woman to complete an Ironman, everyone should realise it's never too late' At the age of 50, Eddie Brocklesby decided to run her first half marathon. Until that point, she'd done little running, and her exercise regime consisted of little more than chauffeuring her children to their own sports clubs. In common with so many people, any interest she'd shown in sport in her childhood had diminished as her adult life progressed, with spare time becoming ever more limited in the face of work and family commitments. After that event, and following the loss of her husband of thirty years to cancer, she completed a marathon. Now, 75 years old, the past twenty years has seen Eddie take part in marathons, triathlons and Ironman races across the globe and she has accrued many medals and awards. In Irongran, Eddie looks back on her life and explains just how she's managed to develop the energy to match the enthusiasm she's always had for an active lifestyle. She shares the difficulties she's experienced in her sporting endeavours, and explains how she's managed to overcome them. Eddie is passionate about the health and wellbeing of our ageing population and provides up to date research about why keeping active in later years is so important, along with guidance about how to remain full of life in your later years.

**Crash Test Girl** Kari Byron 2018-05-08 Kari Byron—former host of the wildly popular, iconic cult classic MythBusters—shows how to crash test your way through life, no lab coat required. Kari Byron's story hasn't been a straight line. She started out as a broke artist living in San Francisco, writing poems on a crowded bus on the way to one of her three jobs. Many curve balls, unexpected twists, and yes, literal and figurative explosions later, and she's one of the world's most respected women in science entertainment, blowing stuff up on national television and getting paid for it! In Crash Test Girl, Kari reveals her fascinating life story on the set of MythBusters and beyond. With her signature gusto and roll-up-your-sleeves enthusiasm, she invites readers behind the duct tape and the dynamite, to the unlikely friendships and low-budget sets that turned a crazy idea into a famously inventive show with a rabid fanbase. The truth is, Mythbusters was never meant to be a science show. But attaching a rocket to a car, riding a motorcycle on water, or lighting 500 pounds of coffee creamer on fire requires a decent understanding of chemistry, physics, and engineering. Thus, the cast and crew brought in the scientific method to work through each problem: Question. Hypothesize. Experiment. Analyze. Conclude. And as Kari came to learn in her own life, not only is the scientific method the best approach for busting myths, it's also the perfect tool for solving everyday issues, including: Career · Love · Creativity · Setbacks · Money · Sexuality · Depression · Bravery Crash Test Girl reminds us that science is for everyone, as long as you're willing to strap in, put on your safety goggles, hit a few walls, and learn from the results. Using a combination of methodical experimentation and unconventional creativity, you'll come to the most important conclusion of all: In life, sometimes you crash and burn, but you can always crash and learn.

Here are some of the comments we have had from readers... I loved this book! I have completed a few triathlons- sprint and Olympic distance. This book really simplified what is important to focus on. There is so much to know and learn that sometimes you feel overwhelmed. It is an easy, entertaining read but packed with good knowledge that made a big difference to my racing. Charlotte Campbell, World Games triathlon gold medallist I wish this was around before! I did a number of Triathlons over the last few years. When I first took it up I had to ask people's advice which at best was disjointed and worst, confusing. I also read some very good stuff on the internet, however this was also disjointed and incomplete. This book would have been ideal, as it puts it all together clearly and concisely. Liam Harrington; sprint triathlete

**Hot Flashes and Half Ironmans** Pamela Fagan Hutchins 2012-05-01 Women's Health Winner in USA Best Book Awards! Middle-aged Endurance Athletics Meets The Hormonally Challenged Women get older, dammit, and sometimes it sucks, especially for women who pride themselves on athleticism and an adventurous spirit. Hot flashes. Weight gain. Sleepless nights. Yes, it can be hard, but middle age doesn't have to be a flashing red stop light. It's perfectly acceptable for women of a certain age, a certain level of hormonal imbalance, and a certain amount of cellulite to don spandex and even enter the rarefied sport of endurance triathlon. In fact, there's a huge advantage to aging: much of the potential competition drops out in favor of the couch and a remote control. And the endurance high? The elation of dietary purity and discovering you can have arms like Madonna? The Zen of goal attainment? Better than a good Shiraz buzz. Once you get past the ugly mood swings, chafing on your girly parts, and a "kill your own mother" craving for sleep and a hot Cinnabon, that is. Pamela Fagan Hutchins has been there and done that, with lessons learned and sense of humor (usually) intact. She completed her first triathlon at 39 and her first Half Ironman at 40. She has her eye on an M-dot tattoo in 2016. \*\*\* Can we get real here? "Honest and helpful." "Candidly funny." "Inspiring." "Great read." "Encouraging and real." \*\*\* See why Hutchins is called an "up and coming powerhouse writer" and "the Erma Bombeck of her generation." Pamela Fagan Hutchins is an employment attorney and

workplace investigator by day who writes award-winning and best-selling romantic mystery/suspense (Saving Grace, Leaving Annalise) and hilarious nonfiction (How to Screw Up Your Kids, What Kind of Loser Indie Publishes?) by night. In her spare time, she dabbles in endurance athletics. She is passionate about great writing, her good looking husband-five offspring-four dogs-one duck-four goats-one heifer family, and smart authorpreneurship. She also leaps medium-tall buildings in a single bound, if she gets a good running start. **80/20 Triathlon** Matt Fitzgerald 2018-09-18 A breakthrough program for triathletes -- beginner, intermediate, and advanced -- showing how to balance training intensity to maximize performance -- from a fitness expert and elite coach. Cutting-edge research has proven that triathletes and other endurance athletes experience their greatest performance when they do 80 percent of their training at low intensity and the remaining 20 percent at moderate to high intensity. But the vast majority of recreational triathletes are caught in the so-called "moderate-intensity rut," spending almost half of their time training too hard--harder than the pros. Training harder isn't smarter; it actually results in low-grade chronic fatigue that prevents recreational athletes from getting the best results. In 80/20 Triathlon, Matt Fitzgerald and David Warden lay out the real-world and scientific evidence, offering concrete tips and strategies, along with complete training plans for every distance--Sprint, Olympic, Half-Ironman, and Ironman--to help athletes implement the 80/20 rule of intensity balance. Benefits include reduced fatigue and injury risk, improved fitness, increased motivation, and better race results.

*Finish Line Feeling* Liz Ferro 2012-03 "This uniquely uplifting memoir tells the compelling story of the author's journey from foster child and sexual abuse survivor to founder of the nationally recognized running organization, Girls With Sole. Ferro describes how to gain joy and fulfillment through athletics, and reminds us to believe in ourselves and our dreams. Gritty, yet often humorously told, her story proves that with resiliency, anyone can be rewarded with the euphoria she calls the 'finish line feeling.'"--P. [4] of cover.

*The Athlete Inside* Sue Reynolds 2020-04-28 The inspiring true story of one woman's transformation from 335 pounds to world-class triathlete in just four years. After being on yo-yo diets almost all her life, Sue Reynolds was still morbidly obese, but decided to try one more time without much hope for positive results. But this time was different. She was fed up with not being able to do things because of her size. She was tired of not being able to tie her own shoes, fit in restaurant booths, or walk more than a few feet. She was ready. *The Athlete Inside* follows Reynolds's journey as she lost 200 pounds and found an athlete hiding inside her body. From her first walk to the neighbor's mailbox to finishing sixth at the World Triathlon Championship, Reynolds discovered the joy of conquering fear and pride to find that the best version of herself had been there all along. A world-class triathlete and a grandmother, Reynolds is proof that you can transform your life at any age. Her story is one of hope, tenacity, and faith, as she committed to doing whatever it took to be among the best triathletes in the world. It's a story about a unique intergenerational relationship between Reynolds and the young coach who earned her trust and helped her develop fitness and confidence. It's a story about the power of kindness and the spiritual growth Reynolds experienced as she realized the compassion that surrounded her was the face of God. Ultimately, it's the story of how each of us can discover amazing gifts and talents within ourselves.

*You Are an Ironman* Jacques Steinberg 2012-06-26 A New York Times bestselling author takes readers inside the Ironman triathlon. As he did so masterfully in his New York Times bestseller, *The Gatekeepers*, Jacques Steinberg creates a compelling portrait of people obsessed with reaching a life-defining goal. In this instance, the target is an Ironman triathlon—a 2.4-mile open-water swim followed by a 112-mile bike ride, then finally a 26-mile marathon run, all of which must be completed in no more than seventeen hours. Steinberg focuses not on the professionals who live off the prize money and sponsorships but on a handful of triathletes who regard the sport as a hobby. Vividly capturing the grueling preparation, the suspense of completing each event of the triathlon, and the spectacular feats of human endurance, Steinberg plumbs the physical and emotional toll as well as the psychological payoff on the participants of the Ford Ironman Arizona 2009. His *You Are an Ironman* is both a riveting sports narrative and a fascinating, behind-the-scenes study of what makes these athletes keep going.

*The Race Within* Jim Gourley 2015-02-01 The Ultraman Triathlon, one of the most remarkable endurance races in the world, is a three-day, 320-mile race that circumnavigates the Big Island of Hawaii. With only 40 competitors allowed in each year, this invitation-only event hosts some of the most superlative athletes on the planet. *The Race Within* discusses the 30-year history of the sport and race director Jane Bockus, former Pan Am flight attendant who has never done a triathlon, yet has dedicated herself to keeping the event true to its founding spirit for decades. This book follows Jane, her assistants, and a small cast of athletes through an entire year—from the end of the 2012 Ultraman to the 2013 event—and shows how they faced new challenges to the growth and well-being of the event, and were forced to question if old traditions could survive in a world of constantly-evolving sports entertainment. Granted full access to the race and the athletes, author Jim Gourley presents a look at this unique event and examines what it means to truly love sports.
