100 Voices - Miranda Roszkowski 2022-03-03

'Remarkably brought together, heartwarming and uplifting . . . showing that despite differences in age and background, geography and lifestyle, there is so much that binds us up, so much we share' Kit de Waal 'A

stimulating collection of women's voices to help inspire us for the next 100 years' Elizabeth Day *100 Voices* is an anthology of writing by women across the country on what achievement means for them, and how they have come to find their own voice. Featuring poetry, fiction and memoir, the pieces range from notes on making lemon curd, to tales of marathon running and riding motorbikes, to accounts of a refugee eating English food for the first time, a newlywed learning her mother tongue and a woman rebuilding her life after an abusive relationship. The poignant, funny and inspiring stories collected here are as varied and diverse as their authors, who include established names such as Louise Jensen, Sabrina Mahfouz, Yvonne Battle-Felton and Miranda Keeling alongside a host of exciting new writers. Taken together, they build a picture of what it's really like to be a woman in the UK today.

Engravings and Their Value - John Herbert Slater 1891

Blue Space, Health and Wellbeing - Ronan Foley 2019-03-04

Health geography makes critical contributions to contemporary and emerging interdisciplinary agendas of nature-based health and health-enabling places. Couched in theory and critical empirical work on nature and health, this book addresses questions on the relationships between water, health and wellbeing. Water and blue space is a key focus in current health geography research and a new hydrophilic turn has emerged with a particular focus on the aspects of water which are affective, life-enhancing and health-enabling. Research considers the benefits and risks associated with blue space, from access to safe and clean water in the Global South, to health promoting spaces found around urban waters, to the deeper implications of climate change for water-based livelihoods and indigenous cultures. This book reflects

recent theoretical debates within health geography, drawing from research in the public health, anthropology and psychology sectors. Broad thematic sections focus on interdisciplinary, experiential and equity-based elements of blue space, with individual chapters that consider indigenous and global health, water's healing properties, leisure and blue yogic culture, coastal landscapes, surfing, swimming and sailing, along with more contested hydrophobic dimensions. The interdisciplinary lens means this book will be extremely valuable to human geographers and cultural geographers. It will also appeal to practitioners and researchers interested in environmental health, leisure and tourism, health inequalities and public health more broadly.

2014-01-20

This volume is an interdisciplinary mix of perspectives and studies on social issues in fisheries from a diverse range of case studies and research disciplines. The case is made regarding the dearth of attention to socio-cultural considerations which to date have been largely treated as an externality of fisheries policy. It will be valuable to researchers and decision makers interested in understanding the social dimension of fisheries and provides a timely and relevant compilation of research and analysis on some of the critical socio-cultural issues facing fisheries management and fishing communities today.

Wild Woman Swimming - Lynne Roper 2018-11

Other Voices: Hidden Histories of Liverpool's Popular Music Scenes, 1930s-1970s - Dr Michael Brocken 2013-01-28

At times it appears that a whole industry exists to perpetuate the myth of origin of the Beatles. There certainly exists a popular music (or perhaps 'rock') origin myth concerning this group and the city of Liverpool and this draws in devotees, as if on a pilgrimage, to Liverpool itself. Once 'within' the city, local businesses exist primarily to escort these pilgrims around several almost iconic spaces and places associated with the group. At times it all almost seems 'spiritual'. One might argue however that, like any function myth, the music history of the Liverpool in which

the Beatles grew and then departed is not fully represented. Beatles historians and businessmen-alike have seized upon myriad musical experiences and reworked them into a discourse that homogenizes not only the diverse collective articulations that initially put them into place, but also the receptive practices of those travellers willing to listen to a somewhat linear, exclusive narrative. Other Voices therefore exists as a history of the disparate and now partially hidden musical strands that contributed to Liverpool's musical countenance. It is also a critique of Beatles-related institutionalized popular music mythology. Via a critical historical investigation of several thus far partially hidden popular music activities in pre- and post-Second World War Liverpool, Michael Brocken reveals different yet intrinsic musical and socio-cultural processes from within the city of Liverpool. By addressing such 'scenes' as those involving dance bands, traditional jazz, folk music, country and western, and rhythm and blues, together with a consideration of partially hidden key places and individuals, and Liverpool's first 'real' record label, an assemblage of 'other voices' bears witness to an 'other', seldom discussed, Liverpool. By doing so, Brocken - born and raised in Liverpool - asks questions about not only the historicity of the Beatles-Liverpool narrative, but also about the absence of historiography concerning disparate popular music activity within the city of Liverpool. In turn, he questions Liverpool's image as a 'music' city - what does this latter expression really mean? And from what genres of music does this apparently 'natural' musical font spring? Such questions ultimately bear crucially on issues relating to scenes, locality, race and identity, and periodization: all matters currently of great interest to the popular music researcher; in turn the veracity of institutionalized popular music histories is also brought into question.

Leap In - Alexandra Heminsley 2017-01-12

'Remarkable' Observer 'A joy to read' Daily Telegraph 'Soaringly beautiful' Sunday Times Magazine 'Genuine and persuasive' Guardian Alexandra Heminsley thought she could swim. She really did. It may have been because she could run. It may have been because she wanted to swim; or perhaps because she only ever did ten minutes of breaststroke at a time. But, as she learned one day while flailing around in the sea, she really couldn't. Believing that a life lived fully isn't one with the most money earned, the most stuff bought or the most races won, but one with the most experiences, experienced the most fully, she decided to conquer her fear of the water. From the ignominy of getting into a wetsuit to the triumph of swimming from Kefalonia to Ithaca, in becoming a swimmer, Alexandra learns to appreciate her body and still her mind. As it turns out, the water is never as frightening once you're in, and really, everything is better when you remember to exhale. What Hemmo's readers are saying: 'This book is funny, engaging, entertaining, informative, suspenseful, motivating, and inspiring... Secret Wartime Britain - Colin Philpott 2018-11-30

The secret military facilities hidden across Great Britain are revealed and investigated in this fascinating WWII history. During the Second World War, thousands of facilities across Britain were requisitioned to support

the war efforts. Beyond that, countless others were built from scratch. Often the purpose of these locations was a closely guarded secret, even from those living close by. In *Secret Wartime Britain*, Colin Philpott has compiled a fascinating collection of sites that still exist in some form today. They include underground factories, storage sites and headquarters; spy and communication centers; interrogation and POW camps; dummy sites; research facilities such as the sinister Porton Down; treasure stores in stately homes and even royal retreats in the event of invasion, such as Madresfield Court. Where were these sites and why were they needed? How successfully were they kept secret? What has happened to them since? Were they returned to their owners? Answers to these and other questions make *Secret Wartime Britain* a riveting and revealing read.

Twelve Years A Slave, Illustrated Edition - Solomon Northup 2014-04-08
Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Letters to Amelia - Lindsay Zier-Vogel 2021-09-07

Grace Porter is reeling from grief after her partner of seven years unexpectedly leaves. Amidst her heartache, the 30 year-old library tech is tasked with reading newly discovered letters that Amelia Earhart wrote to her lover, Gene Vidal. She becomes captivated by the famous pilot who disappeared in 1937. Letter by letter, she understands more about the aviation hero while piecing her own life back together. When Grace discovers she is pregnant, her life becomes more intertwined with the mysterious pilot and Grace begins to write her own letters to Amelia. While navigating her third trimester, amidst new conspiracy theories

about Amelia's disappearance, the search for her remains, and the impending publication of her private letters, Grace goes on a pilgrimage of her own. *Letters to Amelia* is a stunning, contemporary epistolary novel from the creator of the internationally acclaimed *Love Lettering Project*. It underscores the power of reading and writing letters for both connection and self-discovery, and celebrates the unwritten, undocumented parts of our lives. Above all, *Letters to Amelia* is a story of the essential need for connection--and our universal ability to find hope in the face of fear. Praise for *Letters to Amelia*: "Brimming over with Lindsay Zier-Vogel's obvious love for the story of Amelia Earhart, *Letters to Amelia* is a wonderful novel about flight and passion, about love-letters and reaching out; a novel about how we never know quite what's coming next, but still keep launching ourselves into the blue tomorrow."--Jon McGregor, author of *Reservoir 13* "A tender portrait of heartbreak and a thoughtful ode to new motherhood. *Letters to Amelia* is an endorsement of finding our own ways to heal, and a celebration of that big, messy, wonderful journey of coming into one's own. Charming and beautifully rendered, this is a big-hearted hopeful novel, full of life and love." -- Stacey May Fowles, author of *Baseball Life Advice: Loving the Game that Saved Me* "When we think of Amelia Earhart, we think enigmatic adventurer and feminist pioneer--and, of course, of her mysterious disappearance. But in *Letters to Amelia*, we meet a different Amelia Earhart, as seen through the eyes of Grace, the novel's protagonist, a young library tech tasked with reading her letters: an Amelia who is funny, charming, joyful, sad, and most of all, full of life. Zier-Vogel writes with uncanny empathy about heartbreak, friendship, motherhood, and the common threads that connect women across time, geography, and even between earth and sky. *Letters to Amelia* is a gorgeous, big-hearted debut that will make you feel like you are flying, and Zier-Vogel is a writer whose career is about to soar." --Amy Jones, author of *Every Little Piece of Me* "Letters to Amelia invites us to hold our heroines close and to take heart - it is gentle and joyous, full of tenderness, alive and sturdy with hope." --Anne Michaels, author of *Fugitive Pieces* and *The Winter Vault*
