

What Does Greek Sexually Mean

Pedophilia, Hebephilia and Sexual Offending against Children - Klaus M. Beier 2021-03-08

This book provides extensive information on pedophilia (sexual interest in the prepubescent body age), hebephilia (sexual interest in the early-pubescent body age) and sexual offenses against children, i.e., the various forms of child sexual abuse, including the use of child sexual abuse images, along with the current state of knowledge concerning offender groups. The book makes it clear that pedophilia or hebephilia do not inevitably lead to offenses against children - that there are those who keep their desires in their fantasies and do not act them out on the behavioral level. The World Health Organization classifies pedophilia as a mental disorder. It can be safely assumed that many pedophile men in a given community live their lives, unrecognized and adamant about hiding their sexual drives from society and from themselves, and who are genuinely motivated not to act upon their sexual fantasies. The numbers of exactly this particular group of pedophilically inclined non-offenders can be increased by preventive therapeutic measures. For this purpose, two treatment programs have been developed at the Institute of Sexology and Sexual Medicine at the Charité-Universitätsmedizin Berlin (University Clinic) since the initiation of the Prevention Project Dunkelfeld in 2005 - First, the project involving adult participants (Berlin Dissexuality Therapy: BEDIT) and later, another for adolescents (BEDIT-A), who find themselves attracted to children. Both program manuals are completely integrated into this work, which reflects 15 years of assessment and treatment experience.

Rethinking Sexuality - David H.J. Larmour 1998
In a collection of provocative essays, historians and literary theorists assess the influence of Michel Foucault and his HISTORY OF SEXUALITY on the study of classics. The essays bring to light the nature of the intimate lives of men and women in the ancient Mediterranean

world--and demonstrate the importance of the HISTORY OF SEXUALITY for other fields of study, such as women's history, modern sexuality, and more.

Paedophiles, Child Abuse and the Internet - Adrian Powell 2007

Adrian Powell presents this practical handbook on the prevention of child sexual abuse for everyone who protects children, professionally or in a family.

A History of Medicine: Greek medicine - Plinio Prioreschi 1996

Sexuality in Greek and Roman Culture - Marilyn B. Skinner 2013-07-23

This agenda-setting text has been fully revised in its second edition, with coverage extended into the Christian era. It remains the most comprehensive and engaging introduction to the sexual cultures of ancient Greece and Rome. Covers a wide range of subjects, including Greek pederasty and the symposium, ancient prostitution, representations of women in Greece and Rome, and the public regulation of sexual behavior Expanded coverage extends to the advent of Christianity, includes added illustrations, and offers student-friendly pedagogical features Text boxes supply intriguing information about tangential topics Gives a thorough overview of current literature while encouraging further reading and discussion Conveys the complexity of ancient attitudes towards sexuality and gender and the modern debates they have engendered

Sexuality in Greek and Roman Society and Literature - Marguerite Johnson 2005

"With numerous original translations of ancient poetry, inscriptions and documents, this volume is the first major sourcebook to explore the multifaceted nature of sexuality in antiquity."
"Themes such as marriage, prostitution and same-sex attraction are presented comparatively, with material from Greece and Roman worlds shown side by side; this approach allows readers to interpret the written records

with a full awareness of the different context of these separate but related societies.

Commentaries are provided throughout, focusing on vocabulary and social and historical context."--Jacket.

Women's Work and Lives in Rural Greece - Gabriella Lazaridis 2009

This new volume explores the limits and possibilities of economic change in transforming the lives of women in rural Greece at a time of great economic and political change. Through her rich and fascinating account of the changing dynamics of rural life in a still-remote part of Europe, Lazaridis provides an important contribution to social anthropology, rural sociology and to the literature on gender and development.

Black Greek-letter Organizations in the Twenty-First Century - Gregory S. Parks 2008-06-13

During the twentieth century, black Greek-Letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street pioneer Reginald F. Lewis. Despite the profound influence of these groups, many now question the continuing relevance of BGLOs, arguing that their golden age has passed. Partly because of their perceived link to hip-hop culture, black fraternities and sororities have been unfairly reduced to a media stereotype—a world of hazing without any real substance. The general public knows very little about BGLOs, and surprisingly the members themselves often do not have a thorough understanding of their history and culture or of the issues currently facing their organizations. To foster a greater engagement with the history and contributions of BGLOs, *Black Greek-Letter Organizations in the Twenty-first Century: Our Fight Has Just Begun* brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members. Editor Gregory S. Parks and the contributing authors provide historical context for the development of BGLOs, exploring their service activities as well as their relationships with other prominent African American

institutions. The book examines BGLOs' responses to a number of contemporary issues, including non-black membership, homosexuality within BGLOs, and the perception of BGLOs as educated gangs. As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena, Louisiana, these organizations still have a vital mission. Both internally and externally, BGLOs struggle to forge a relevant identity for the new century. Internally, these groups wrestle with many issues, including hazing, homophobia, petty intergroup competition, and the difficulty of bridging the divide between college and alumni members. Externally, BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism, sexism, and other types of fear-driven behavior. By embracing the history of these organizations and exploring their continuing viability and relevance, *Black Greek-Letter Organizations in the Twenty-first Century* demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead.

The Construction of Sexual and Cultural Identities - Constantinos N. Phellas 2018-05-08

This title was first published in 2002: Ethnicity, culture and sexual orientation are salient aspects of human identity. While diversity adds richness to the threads of our human tapestry, minorities often feel vulnerable with open disclosure and retreat from exposures they fear could leave them in jeopardy. This is especially so with gay men of colour. Xenophobia, homophobia and fear of HIV/AIDS combine to make our society a difficult one for gay men of colour. This book explores a broad range of culture-related topics specific to the experience of Anglo-Cypriot men resident in Britain who have sex with men. Along with empirical, clinical and theoretical discussions, the inclusion of personal accounts offers poignant insight into additional complexities, pressures and losses that gay men of colour must cope with in a world that often handles diversity with the closed fist of bigotry.

Studies in Ancient Greek and Roman Society - Robin Osborne 2004-07-15

This 2004 collection of papers includes some of the most innovative history written about Greece

and Rome. The volume offers a convenient and enthralling guide to important issues and topics in Greek and Roman history, maps the changing interests of ancient historians and raises stimulating questions about historical method. The contributors to the volume represent many of the most exciting and influential ancient historians who have been active in the last quarter century. An introduction by the editor, which places the papers in the wider context of changing interests in Greek and Roman history, sets the scene for papers on Greek warfare, the regulation and representation of women and the nature and study of homosexual relationships in Athens, the relationship between Rome and its empire, whether Rome was democratic, the ideology of Augustan Rome, games and gaming at Rome, the lives of slaves, the ancient interpretation of dreams, the nature of religious pilgrimage, early Christian martyr stories, and bandits in the Roman empire.

A Companion to Greek Art - Tyler Jo Smith
2012-04-25

A comprehensive, authoritative account of the development Greek Art through the 1st millennium BC. An invaluable resource for scholars dealing with the art, material culture and history of the post-classical world Includes voices from such diverse fields as art history, classical studies, and archaeology and offers a diversity of views to the topic Features an innovative group of chapters dealing with the reception of Greek art from the Middle Ages to the present Includes chapters on Chronology and Topography, as well as Workshops and Technology Includes four major sections: Forms, Times and Places; Contacts and Colonies; Images and Meanings; Greek Art: Ancient to Antique

Sexual Justice - Morris B. Kaplan 1997

First Published in 1997. Routledge is an imprint of Taylor & Francis, an informa company.

The Myth of Sexual Equality - Howard Douglas King 2003-06

Homosexuality in Greece and Rome - Thomas K. Hubbard 2003-05-12

Important primary texts on homosexuality in ancient Greece and Rome are translated into modern, explicit English and collected together in this comprehensive sourcebook. Covering an

extensive period, the volume includes writings by Plato, Sappho Aeschines, Catullus and Juvenal.

Sexuality in Greek and Roman Literature and Society - Marguerite Johnson 2004-08-02

This Sourcebook contains numerous original translations of ancient poetry, inscriptions and documents, all of which illuminate the multifaceted nature of sexuality in antiquity. The detailed introduction provides full social and historical context for the sources, and guides students on how to use the material most effectively. Themes such as marriage, prostitution and same-sex attraction are presented comparatively, with material from the Greek and Roman worlds shown side by side. This approach allows readers to interpret the written records with a full awareness of the different context of these separate but related societies. Commentaries are provided throughout, focusing on vocabulary and social and historical context. This is the first major sourcebook on ancient sexuality; it will be of particular use on related courses in classics, ancient history and gender studies.

The Sexual Constitution of Political

Authority - Aleardo Zanghellini 2015-04-24

While there is no shortage of studies addressing the state's regulation of the sexual, research into the ways in which the sexual governs the state and its attributes is still in its infancy. The Sexual Constitution of Political Authority argues that there are good reasons to suppose that our understandings of state power quiver with erotic undercurrents. The book maintains, more specifically, that the relationship between ideas of political authority and male same-sex desire is especially fraught. Through a series of case studies where a statesman's same-sex desire was put on trial (either literally or metaphorically) as a problem for the good exercise of public powers, the book shows the resilience and adaptability of cultural beliefs in the incompatibility between public office and male same-sex desire. Some of the case studies analysed are familiar ground for both political/constitutional history and the history of sexuality. The Sexual Constitution of Political Authority argues, however, that only by systematically reading questions of institutional politics and questions of sexuality through each

other will we have access to the most interesting insights that a study of these trials can generate. Whether they involve obscure public officials or iconic rulers such as Hadrian and James I, these compelling fragments of queer history reveal that the disavowal of male same-sex desire has been, and partly remains, central to mainstream understandings of political authority.

Before Sexuality - David M. Halperin 1990

A dream in which a man has sex with his mother may promise him political or commercial success--according to dream interpreters of late antiquity, who, unlike modern Western analysts, would not necessarily have drawn conclusions from the dream about the dreamer's sexual psychology. Evidence of such shifts in perspective is leading scholars to reconsider in a variety of creative ways the history of sexuality. In these fifteen original essays, eminent cultural historians and classicists not only discuss sex, but demonstrate how norms, practices, and even the very definitions of what counts as sexual activity have varied significantly over time. Ancient Greece offers abundant evidence for a radically different set of sexual standards and behaviors from ours. Sex in ancient Hellenic culture assumed a variety of social and political meanings, whereas the modern development of a sex-centered model of personality now leads us to view sex as the key to understanding the individual. Drawing on both the Anglo-American tradition of cultural anthropology and the French tradition of *les sciences humaines*, these essays explore the iconography, politics, ethics, poetry, and medical practices that made sex in ancient Greece not a paradise of liberation but an exotic locale hardly recognizable to visitors from the modern world. In addition to the editors, the contributors to this volume are Peter Brown, Anne Carson, Françoise Frontisi-Ducroux, Maud W. Gleason, Ann Ellis Hanson, François Lissarrague, Nicole Loraux, Maurice Olender, S.R.F. Price, James Redfield, Giulia Sissa, and Jean-Pierre Vernant.

Sexual Virtue - Richard W. McCarty 2015-01-08

Uses virtue ethics to offer a sexual ethics inclusive of LGBT and straight people, one that challenges the longstanding procreative patriarchal norm. Richard W. McCarty offers a compassionate and inclusive conception of sexual virtue, one that liberates Christians from

traditional patriarchal requirements for heterosexuality, marriage, and procreation. Daring to depart from ongoing debates about what Aristotle or Aquinas had to say, this book sets a new course centered on virtue ethics. It employs new insights from the sciences, biblical scholarship, analyses of church traditions, and revisionist natural law thinking. Eschewing simple deconstruction of traditional Christian norms for sexual morality, McCarty offers constructive ideas about what might count as real human goods for people in a wide variety of sexual relationships. Recreation, relational intimacy, and selective acts of procreation are three ends of sexual virtue that promote human happiness and can be appreciated in a broad Christian framework. While primarily referencing the Roman Catholic intellectual tradition, McCarty's work is also vital and accessible to those from Protestant backgrounds. Addressed to LGBT and straight readers, *Sexual Virtue* provides a compassionate sexual ethics for our time. Richard W. McCarty is Associate Professor of Religious Studies at Mercyhurst University.

Inside Greek U. - Alan D. DeSantis 2007-10-12

Popular culture portrays college Greek organizations as a training ground for malevolent young aristocrats. Films such as *Animal House*, *Revenge of the Nerds*, *Old School*, and *Legally Blonde* reinforce this stereotype, but they fail to depict the enduring influence of these organizations on their members. *Inside Greek U.* provides an in-depth investigation of how fraternities and sororities bolster traditional, and potentially damaging, definitions of gender and sexuality. Using evidence gathered in hundreds of focus group sessions and personal interviews, as well as his years of experience as a faculty advisor to Greek organizations, Alan D. DeSantis offers unprecedented access to the world of fraternities and sororities. DeSantis, himself once a member of a fraternity, shows the profoundly limited gender roles available to Greeks: "real men" are taught to be unemotional, sexually promiscuous, and violent; "nice girls," to be nurturing, domestic, and pure. These rigid formulations often lead to destructive attitudes and behaviors, such as eating disorders, date rape, sexual misconduct,

and homophobia. Inside Greek U. shows that the Greek experience does not end on graduation day, but that these narrow definitions of gender and sexuality impede students' intellectual and emotional development and limit their range of choices long after graduation. Ten percent of all college students join a Greek organization, and many of the nation's business and political leaders are former members. DeSantis acknowledges that thousands of students join Greek organizations each year in search of meaning, acceptance, friendship, and engagement, and he illuminates the pressures and challenges that contemporary college students face. Inside Greek U. demonstrates how deeply Greek organizations influence their

members and suggests how, with reform the worst excesses of the system, fraternities and sororities could serve as a positive influence on individuals and campus life.

Sexual Life In Ancient Greece - Hans Licht
2013-10-28

First published in 2001. From Ancient Greece, modern Western civilisation has derived many of its artistic philosophical and political ideas. But, in certain areas of sexual tolerance and inventiveness, we still have much to learn from the land and age which produced the most flourishing and creative culture of the ancient world. Professor Hans Licht, in this erudite and fascinating book, discusses in full every aspect of the Ancient Greek's sexual life.
