A Companion to Cultural Resource Management - Thomas F. King 2011-03-29

A Companion to Cultural Resource Management is an essential guide to those wishing to gain a deeper understanding of CRM and heritage management. Expert contributors share their knowledge and illustrate CRM's practice and scope, as well as the core issues and realities in preserving cultural heritages worldwide. Edited by one of the world's leading experts in the field of cultural resource management, with contributions by a wide range of experts, including archaeologists, architectural historians, museum curators, historians, and representatives of affected groups Offers a broad view of cultural resource management that includes archaeological sites, cultural landscapes, historic structures, shipwrecks, scientific and technological sites and objects, as well as intangible resources such as language, religion, and cultural values Highlights the realities that face CRM practitioners "on the ground"

The Rain Gods' Rebellion - James M. Taggart 2020

Providing a rare longitudinal look at the cultural basis of this grassroots insurgency, *The Rain Gods' Rebellion* offers rare insight into the significance of oral history in forming Nahua collective memory and, by extension, culture.

Designing Sustainability for All - Carlo Vezzoli 2021-04-21

This open access book introduces design for Sustainable Product-Service Systems (S.PSS) and for Sustainable Distributed Economies (S.DE). These are introduced as technical and operative tools for the development of a new generation of designers, responsible and capable of designing environmentally, socially and economically sustainable solutions, accessible to all. The book provides a comprehensive framework and also practical tools to support the system design for sustainability process. It overviews methodologies, tools and strategies for Sustainable PSS design applied to Distributed Economies (DE) and provides strategies and design guidelines. All of these are highlighted and expanded upon with international case studies.

Our Creative Diversity - World Commission on Culture and Development 1996

Explores the interactions between culture and development and puts forward proposals in the form of an international agenda aimed at motivating people to recognize cultural challenges.

Clinical Handbook of Psychological Disorders in Children and Adolescents - Christopher A. Flessner 2019-03-12

Bringing together leading authorities, this volume synthesizes the breadth of current research on child and adolescent treatment into a practical handbook for students and clinicians. The book was inspired by the preeminent work on adult disorders, *Clinical Handbook of Psychological Disorders* (now in its sixth edition), edited by David H. Barlow. It provides a concise overview of the disorders most commonly encountered in clinical practice and details evidence-based treatment approaches, largely grounded in cognitive-behavioral therapy (CBT). Procedures for assessment, diagnosis, case formulation, intervention, and progress monitoring are illustrated with rich extended case examples, including session transcripts. The book addresses nuts-and-bolts issues such as how to set up each session, what to cover, and how to broach difficult topics with children and parents. See also *Clinical Handbook of Psychological Disorders, Sixth Edition* (on adults), edited by David H. Barlow.

Statistical Ecology - Linda J. Young 2013-04-17

Covering a wide range of disciplines, this book explains the formulae, techniques, and methods used in field ecology. By providing an awareness of the statistical foundation for existing methods, the book will make biologists more aware of the strengths and possible weaknesses of procedures employed, and statisticians more appreciative of the needs of the field ecologist. Unique to this book is a focus on ecological data for single-species populations, from sampling through modeling. Examples come from real situations in pest management, forestry, wildlife biology, plant protection, and environmental studies, as well as from classical ecology. All those using this book will acquire a strong foundation in the statistical methods of modern ecological research. This textbook is for late undergraduate and graduate students, and for professionals.

The Elephant in the Room - Amanda Edwards 2014-04-04

The Elephant in the Room is a children's storybook with whimsical illustrations and rhyming verses of positive strategies for coping with grief and loss. The gender-neutral elephant character demonstrates the potential emotions that children may experience when faced with any type of loss such as death of a pet or a relative, a friend moving away, foster care, hospitalization, etc. This book can serve to initiate a discussion or to provide unconscious messages of love, power, and healing. The practical and realistic coping strategies are developmentally appropriate for young children in early childhood and are based in best practices according to research in children's literature and social-emotional development. It is recommended that the book be read daily, as needed, during traumatic events and that the adult wait patiently for the child to initiate a discussion. It is anticipated that *The Elephant in the Room* will serve as a transitional object for children experiencing grief and loss and that it will help them navigate their unique and individual journey towards healing, concurrently or in the years ahead. This book is a must-have for teachers, grief counselors, healthcare practitioners, therapists, social workers, and librarians. Additionally, it can serve as an important resource for families during difficult events.

Promoting Positive Parenting - Femmie Juffer 2012-10-02

This book illuminates the successful implementations of one of the few evidence-based parenting intervention programs. More than 20 years ago the editors began experimenting with videotaping parental behavior in order to enhance parents' sensitivity to their children's signals. This new book presents the outcome of this effort. Video-feedback Intervention to Promote Positive Parenting (VIPP) is a brief and focused parenting intervention program that has been successful in a variety of clinical and non-clinical groups and cultures. The book opens with an introduction to the VIPP program and the theoretical background of this parenting intervention, followed by a narrative and meta-analytical review of the attachment-based interventions. The book continues with detailed descriptions and case reports of several intervention studies of the program. It describes the implementation and testing of a variety of VIPP based interventions highlighting different families in a variety of childcare settings, and in various countries including the Netherlands, Italy, the United Kingdom, and the United States. Chapters present how the VIPP approach was implemented in samples of insecure mothers, mothers with eating disorders, preterm infants, adopted children, and children with early behavior problems.

Gay Dads - Abbie E. Goldberg 2012-07-23

When gay couples become parents, they face a host of questions and issues that their straight counterparts may never have to consider. How important is it for each partner to have a biological tie to their child? How will they become parents: will they pursue surrogacy, or will they adopt? Will both partners legally be able to adopt their child? Will they have to hide their relationship to speed up the adoption process? Will one partner be the primary breadwinner? And how will their lives change, now that the presence of a child has made their relationship visible to the rest of the world? In *Gay Dads: Transitions to Adoptive Fatherhood*, Abbie E. Goldberg examines the ways in which gay fathers approach and negotiate parenthood when they adopt. Drawing on empirical data from her in-depth interviews with 70 gay men, Goldberg analyzes how gay dads interact with competing ideals of fatherhood and masculinity, alternately pioneering and accommodating heteronormative "parenthood culture." The first study of gay men's transitions to fatherhood, this work will appeal to a wide range of readers, from those in the social sciences to social work to legal studies, as well as to gay-adoptive parent families themselves.

Nurturing Attachments - Kim S. Golding 2008

Nurturing Attachments combines the experience and wisdom of parents and carers with that of professionals to provide support and practical guidance for foster and adoptive parents looking after children with insecure attachment relationships. It gives an overview of attachment theory and a step-by-step model of parenting which provides the reader with a tried-and-tested framework for developing resilience and emotional growth. Featuring throughout are the stories of Catherine, Zoe, Marcus and Luke, four fictional children in foster care or adoptive homes, who are used to illustrate the ideas and strategies described. The book offers sound advice and provides exercises for parents and their children, as well as useful tools that supervising social workers can use both in individual support of carers as well as in training exercises. This is an essential guide for adoptive and foster parents, professionals including health and social care practitioners, clinical psychologists, child care professionals, and lecturers and students in this field.

Annihilating Difference - Alexander Laban Hinton 2002-08-15

Sugar and the Origins of Modern Philippine Society - John A. Larkin 1993

The sugar industry has been a vital part of the economic and social life of modern Philippine society. Under Spanish and American colonialism, sugar cultivation and export became one of the chief commercial industries in the Philippines. Both the Filipino people and the colonizing forces participated in the sugar industry; a few profited enormously. John Larkin examines how the international sugar market and local culture forged two types of society, one based on plantation agriculture, the other on tenant farming. Larkin investigates the history of the two most important sugar-producing regions, Negros Occidental and Pampanga. He depicts the impact of colonial economic forces on the rise of the elite plantation-owning class, the subsequent gap that developed between the extraordinarily wealthy and the impoverished, and the nation's dependence on the international market. Larkin concludes that the sugar industry resulted in stunted economic development, wide cleavages

among the Filipino people, and an imbalance of political power - all effects that are still felt today. *Sugar and the Origins of Modern Philippine Society* is an indispensable contribution to our understanding of Southeast Asian history and the industry vital to the evolution of the Philippines.

Understanding Attachment and Attachment Disorders - Vivien Prior 2006

"This book presents a short and accessible introduction to what 'attachment' means, how to recognise attachment disorders in children, and how to help them." -back cover

The Development of the Person - L. Alan Sroufe 2009-02-20

The definitive work on a groundbreaking study, this essential volume provides a coherent picture of the complexity of development from birth to adulthood. Explicated are both the methodology of the Minnesota study and its far-reaching contributions to understanding how we become who we are. The book marshals a vast body of data on the ways in which individuals' strengths and vulnerabilities are shaped by myriad influences, including early experiences, family and peer relationships throughout childhood and adolescence, variations in child characteristics and abilities, and socioeconomic conditions. Implications for clinical intervention and prevention are also addressed. Rigorously documented and clearly presented, the study's findings elucidate the twists and turns of individual pathways, illustrating as never before the ongoing interplay between developing children and their environments.
