Dataclysm Christian Rudder 2014-09-09 A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In *Dataclysm*, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook "likes" can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, *Dataclysm* is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

Here is a part you'll find inside this book: Although the ratio of women to men has increased greatly in the past 25 years, according to sociologist Betty Mathesis, Ph.D., because of this, it may come as a shock that the age difference for the first time is unlikely to be that great. Find out what you need to know about dating a younger man. 1. Know what you want One of the problems that prevent women from dating is, obviously, insecurity. If you have your eye on a man who has a kid already, state that in your profile. Be honest about the kind of relationship you are looking for and don't waste time with dating someone who is too young or too far away. 2. Show other aspects of your personality Not all men like the same things. For example, some like girls who are not over 30, others like them old. If you have genuine differences, show them by saying what kind of person you are. If you like to go out, make it clear. Dating an older man sometimes means he may not find you attractive, so it may be a good idea to say what you find attractive. In this way, you are a better judge. It can be tricky to start out your relationship with a statement, but some daters find it helpful to say what they find attractive in a person. 3. Be realistic Older men tend to look for different qualities in women than they do in their younger counterparts. Though it may seem like they want a mature, sophisticated woman, don't try to project that aura. Interested to know more? Then Scroll up, Click on "Buy now with 1-Click, and Get Your Copy Now

[An Older Woman Loving a Younger Man](#) Bradley Preston 2008-11 What could they possibly have in common? She's old enough to be his mother. I just don't see how it could ever work. Have you ever been confronted with one of these statements because you're with someone younger? You are about to embark on a journey that will change your mind about May/December relationships. So many times in life people make judgments about one another based solely upon the traditions of the sect of society in which they were raised. More times than not their judgments are wrong, simply because they've chosen to base them on incomplete information. Once they have all the pertinent information concerning that subject their perception changes drastically. Changing people's perceptions is precisely why we wrote this book. Our hope is that once people read this book about our lives they will see that love truly does conquer all. Society says it's OK for a much older man to date a much younger woman. Yet when it comes to a much older woman dating a much younger man the double standard is revealed. Love truly transcends all of our societal misinformation. Love does not look at age, appearances, wealth, health, or any of the other ridiculous limitations that humans have put on relationships. Love knows no boundaries. It's not limited by our finite thinking. Love is the pure essence of two souls merging to become one. This is our story of two souls becoming one.

Dating and the Older Man Jerome Albers 2003 The book is based on my real life experiences as an older man in the Dating game for over 15 years. After years in the dating game I experienced many events, situations, and types of women. I look at these experiences honestly and humorously. The statuses of women that an older man has available for dating are reviewed. Also what a single man needs to do to attract desirable women and where and how to go to meet desirable women are discussed, because we all know where to meet undesirable women. The pleasures and pitfalls of dating, romance, and sex are discussed. It does not show how to solve all dating problems, but most of the dating problems to avoid are discussed. It seems that both men and women hate dating and it is our own fault. I encourage men to take control of their life and their dating. The book describes the characteristics that men desire in women and the characteristics which men find not tolerable in women. It also describes the places to meet women and which are good and which are a waste of time and money. It is an honest, humorous and witty look at this confusing and illogical part of our social life.
