Me, My Hair, and I - Elizabeth Benedict 2015-09-29

"[A] splendid collection . . . By turns wry, tender, pointed, and laugh-out-loud funny." —Publishers Weekly "Untangles the many truths about hair, and the lives we lead underneath it." —Pamela Druckerman, author of *Bringing Up Bébé* Ask a woman about her hair, and she just might tell you the story of her life. Ask a whole bunch of women about their hair, and you could get a history of the world. Surprising, insightful, frequently funny, and always forthright, the essays in *Me, My Hair, and I* are reflections and revelations about every aspect of women's lives from family, race, religion, and motherhood to culture, health, politics, and sexuality. They take place in African American kitchens, at Hindu Bengali weddings, and inside Hasidic Jewish homes. The conversation is intimate

and global at once. Layered into these reminiscences are tributes to influences throughout history: Jackie Kennedy, Lena Horne, Farrah Fawcett, the Grateful Dead, and Botticelli's *Venus*. The long and the short of it is that our hair is our glory—and our nemesis, our history, our self-esteem, our joy, our mortality. Every woman knows that many things in life matter more than hair, but few bring as much pleasure as a really great hairdo.

This book is based on rich empirical data and findings concerning the lives, perceptions and ambitions of young middle-class female graduates, thus providing essential insights into the lives and viewpoints of a previously unresearched group in China from a feminist scholarly perspective. The study shows how the lives of young women and debates over youthful femininity lie at the very heart of modern Chinese history and society. With a central focus on women's issues, the book's ultimate goal is to enable Western readers to better understand the changing ideologies and the overall social domain of China under the leadership of President Xi. The empirical data presented includes interviews and group discussions, as well as illustrations, tables and images collected during a prolonged period of fieldwork. The insights shared here will facilitate cross-cultural communication with both Western feminist academics and readers who are sensitive to different cultures.

A Cultural History of Hair in the Age of Empire - Sarah Heaton 2022-08-25

"A thick, tangled and deliciously idiosyncratic history of hair." Times Literary Supplement 19th and early 20th-century hair appears to be everywhere when you start to look, from the abundant locks of the pre-Raphaelites to the myriad objects on show at the Great Exhibitions. The latter, hosted at venues such as the Crystal Palace, hinted at the level of global trade in hair economies, from hair harvest, hairpieces, and hairwork to commodities for styling and adornment. It was a period when hair became fetishized in all sorts of ways, from fashioning hair to moralising constriction, from suggestions of sexuality in abundant free-flowing locks, to intricate hair-incorporating jewellery which offered spiritual connections to the dead. In a period of increasing globalization and associated anxieties, hair came to express identity not just for the individual but for different cultures. Perhaps inevitably, hair itself became a contested site of signification whether as the strands of the diaspora, the cut locks of the underclass, or the coiffures of the court. A

Cultural History of Hair in the Age of Empire presents an overview of the tangled tresses of hair in this period, with essays covering: Religion and Ritualized Belief; Self and Society; Fashion and Adornment; Production and Practice; Health and Hygiene; Gender and Sexuality; Race and Ethnicity; Class and Social Status and Cultural Representations.

Divided - JoAnn Jaffe 2021-10-08T00:00:00Z

Divided looks at the last fifteen years in Saskatchewan, during which time the Saskatchewan Party government sought to reforge the province's image into the New Saskatchewan: brash, materialistic, highly

competitive and aggressively partisan. In the process, a climate of polarization and hyper-partisanship swept the province into a near-perpetual state of anger and social division. These actions are not without consequences. In *Divided*, diverse voices describe the impact on their lives and communities when simmering wedge issues burst open on social media and in public spaces. The collection dives deep into the long

set-up to this moment, from the colonial past to the four decades of neoliberal economics that have widened social and economic gaps across all sectors. *Divided* positions Saskatchewan as a fascinating case study of the global trends of division and provides testament to the resiliency of a vision of social solidarity against all odds.
