The Medical Basis for the Healing Power of Intimacy We all know that intimacy improves the quality of our lives. Yet most people don't realize how much it can increase the quality of our lives -- our survival. In this New York Timesworld-renowned physician Dean Ornish, M.D., writes, "I am not aware of any other factor in medicine that has a greater impact on our survival than the healing power of love and intimacy. Not diet, not smoking, not exercise, not stress, not genetics, not drugs, not surgery." He reveals that the real epidemic in modern culture is not only physical heart disease but also what he calls spiritual heart disease: loneliness, isolation, alienation, and depression. He shows how the very defenses that we think protect us from emotional pain are often the same ones that actually heighten our pain and threaten our survival. Dr. Ornish outlines eight pathways to intimacy and healing that have made a profound difference in his life and in the life of millions of others in turning sadness into happiness,

suffering into joy.

Relationship Questions for Couples -

Katerina Griffith 2019-07-24

No matter how good your marriage or relationship might be, communication difficulties can erode your closeness and create misunderstandings and conflict that aren't necessary. As uncomfortable or awkward as it might feel at first, meeting regularly with your spouse or partner to ask questions and learn more about each other safeguards your relationship from painful conflicts. The deep conversations these questions foster also will create a new level of intimacy between you. Questioning is a powerful tool for mutual understanding. I use probing questions as a personal coach to help clients uncover their deeper desires, needs, and fears. A strong question prompts us to search within to uncover the answer, leading to profound moments of self-awareness and inner growth. Within a love relationship, mutual questioning provides these

same benefits, but also it allows each partner to participate in the awareness and growth of the other. More important, by actively listening to your partner's responses without judgment or defensiveness, you understand more about his or her motivations, fears, pain, longings, and frustrations. Questions to Build Intimacy If you're feeling distant from your partner or spouse, and even if you're not, try taking some time to talk about your answers to the following questions the next time you find yourselves relaxing on the couch or finally stumbling into bed, even if you just go through one or two here and there. You may find that the frank discussions that can result will help you and your partner grow closer and get to know each other even better. Anyone who's in a relationship should know some good questions for couples. ...Because communication is essential to a healthy relationship, with couples who talk regularly enjoying the benefits of a deeper, more intimate and connected relationship. visualization or wishcraft which is a way of thinking that can change your life. The principles proposed in this book can propel you from poverty to prosperity and jumpstart your JOY as you learn how to transform your thoughts into reality. The process starts with a dream, a desire, or even just a wish. Wishes come in all sizes. One can wish small or one can wish big or tall. One can even choose not to wish at all, but wishing is really the key to creating a new reality. Everything that you can conceive of already exists or you couldn't even conceive of it. Creative visualization simply makes the invisible visible! Your beliefs are the key to making the invisible materialize. Predicting the future actually becomes possible once you realize that you can create your own future by propelling your dreams into reality. The world can be yours to have and to hold once you take control of your own destiny. That doesn't mean that you can control the events that will happen in your life, but you can control how you envision those

events. Those visualizations can either empower you to excel or cripple you in crisis. If you want your life to change, try doing something strange. If you want your life to be different, do different, think different. Sometimes all that you need to change is your mind and your beliefs! Stop setting limits on your life!
