More Than a Woman - Caitlin Moran 2020-09-03

THE SUNDAY TIMES NUMBER ONE BESTSELLER 'Exceptionally brilliant and powerful' Marina Hyde 'This book is a hilarious memoir, a passionate polemic, and a moving manifesto on how to be a decent person and try, in the face of countless stresses, to live a full open-hearted, joyous life' Sunday Times A decade ago, Caitlin Moran thought she had it all figured out. Her instant bestseller *How to Be a Woman* was a game-changing take on feminism, the patriarchy, and the general 'hoo-ha' of becoming a woman. Back then, she firmly believed 'the difficult bit' was over, and her forties were going to be a doddle. If only she had known: when middle age arrives, a whole new bunch of tough questions need answering. Why isn't there such a thing as a 'Mum Bod'? How did sex get boring? What are men really thinking? Where did all that stuff in the kitchen drawers come from? Can feminists have Botox? Why has wine turned against you? How can you tell the difference between a Teenage Micro-Breakdown, and The Real Thing? Has feminism gone too far? And, as always, WHO'S LOOKING AFTER THE CHILDREN? Now with ageing parents, teenage daughters, a bigger bum and a To-Do list without end, Caitlin Moran is back with *More Than A Woman*: a guide to growing older, a manifesto for change, and a celebration of all those middle-aged women who keep the world turning.

Defining Females - Shirley Ardener 1978

To what are we referring when we speak of women? What is the nature of women in society; what is the

nature of women in society? These are the central questions of this classic text which looks at areas ranging from England and Greece to Mongolia and Africa. The authors - anthropologists, sociologists, ethnologists, neurologists and psychologists - consider the structural position of women; how they are defined by reference to physiological and social markers, and how they are required to behave. They also consider ways in which different cultures identify and deal with such natural' aspects of women as virginity, sexuality and childbearing. The broad variety of geographical perspectives reveals dissimilar as well as similar ideas about women - in their use of language and of space, matrifocality, and life trajectories.

22 Things a Woman Must Know If She Loves a Man with Asperger's Syndrome - Rudy Simone 2009-05-15

Although having Asperger Syndrome (AS) can make romantic relations difficult, having a fulfilling relationship with an Asperger man is certainly not impossible. A woman in love with a man with AS may interpret his difficulties with communication and socialization as a lack of interest in the relationship. He may vacillate between being gentle and caring to seeming cold and distant. She may find his behaviour hard to understand, resulting in feelings of loneliness, isolation, and confusion. This book shows how to overcome these difficulties and maintain a loving relationship with an AS partner. From an unwillingness to show affection in public or even sleep in the same bed to problems holding down a job, this book looks at 22 common traits that women may discover when they are dating, living with or married to a man with Asperger's Syndrome. Rudy Simone explores the complications of Asperger's relationships with honesty and understanding, drawing on research and personal experience to inform and advise women with AS partners. She offers helpful tips for improving the relationship and finding fulfillment both individually and as a couple. This book will help women to understand the male Asperger's mind and, equally, it can help men with AS to see things from their partner's perspective. It will also be of interest to counsellors working with couples where the male partner has Asperger's Syndrome.

Wander Woman - Marcia Reynolds 2010-06-14

Presents fresh research and powerful stories to give voice to a new generation of women driven by challenge and change Offers compelling advice on how to make wandering a life strategy, not just a series of unplanned events Includes probing questions and thought-provoking exercises to help readers find peace in life's chaos and confusion 2011 Axiom Award Gold Medal winner in the category of Women in Business There's a new generation of high-achieving women today—confident, ambitious, accomplished, driven. And

yet, as master coach Marcia Reynolds discovered, many of them are also anxious, discontented, and frustrated. They're constantly questioning their purpose, juggling multiple roles, and reevaluating their goals. As a result they're restless—they move from job to job, from challenge to challenge, almost on impulse. They're wander women. Existing personal growth books, so focused on empowerment and encouragement, can't help these women. They don't need to find their voice—they know how to roar. They don't expect balance in their lives—but they long to find peace in the chaos. They aren't necessarily focused on gaining a seat in the boardroom—they want projects that mean something or businesses they run on their own. Reynolds helps wander women understand the roots of their restlessness and make their wandering a conscious strategy, not a reaction. Drawing on extensive research and interviews she illuminates the needs that drive their decisions and the core assumptions that lock them into rigid perfectionist patterns. She offers a wealth of exercises and practices that will enable wander women to reset their mental programming, discover new ways of finding direction, and thoughtfully choose and plan their futures, whether they climb the corporate ladder, find satisfaction below the glass ceiling, or set out on their own. For every woman plagued by frustration and self-doubt—"Will what I've done ever feel good enough?"—Wander Woman sets the stage to uncover the answers to life's tough questions about meaning and purpose, significance and value, and the legacy you can leave from a life lived well.

And why does everyone ask you when you're going to have a baby? Part memoir, part rant, Caitlin Moran answers these questions and more in How To Be A Woman - following her from her terrible 13th birthday ('I am 13 stone, have no friends, and boys throw gravel at me when they see me') through adolescence, the workplace, strip-clubs, love, fat, abortion, TopShop, motherhood and beyond.

Women & Power - Mary Beard 2017-11-02

An updated edition of the Sunday Times Bestseller Britain's best-known classicist Mary Beard, is also a committed and vocal feminist. With wry wit, she revisits the gender agenda and shows how history has treated powerful women. Her examples range from the classical world to the modern day, from Medusa and Athena to Theresa May and Hillary Clinton. Beard explores the cultural underpinnings of misogyny, considering the public voice of women, our cultural assumptions about women's relationship with power, and how powerful women resist being packaged into a male template. A year on since the advent of #metoo, Beard looks at how the discussions have moved on during this time, and how that intersects with issues of rape and consent, and the stories men tell themselves to support their actions. In trademark Beardian style, using examples ancient and modern, Beard argues, 'it's time for change - and now!' From the author of international bestseller SPQR: A History of Ancient Rome.

Subordination of Woman - Mrs. M. A. Kelkar 1995

Many debates in feminism centre round the issue of subordination of woman. Anthropologists and sociologists have tried to trace the origin of subordinate position of woman by giving various explanatory theories. The author examines the reductionist and constructionist theories and using a hermeneutic device of the Beejakshetra model explores the images of feminity to be found in the Mahabharata and in the rules of conduct in the Manusmriti. She shows how these models of feminity have shaped the life experiences and self-interpretation of woman down to present day. The last part attempts formulation of a feminist ethic of friendship and raises the discussion beyond protest and recrimination.

It's obvious why only men develop prostate cancer and why only women get ovarian cancer. But it is not obvious why women are more likely to recover language ability after a stroke than men or why women are more apt to develop autoimmune diseases such as lupus. Sex differences in health throughout the lifespan have been documented. Exploring the Biological Contributions to Human Health begins to snap the pieces of the puzzle into place so that this knowledge can be used to improve health for both sexes. From behavior

and cognition to metabolism and response to chemicals and infectious organisms, this book explores the health impact of sex (being male or female, according to reproductive organs and chromosomes) and gender (one's sense of self as male or female in society). Exploring the Biological Contributions to Human Health discusses basic biochemical differences in the cells of males and females and health variability

between the sexes from conception throughout life. The book identifies key research needs and opportunities and addresses barriers to research. Exploring the Biological Contributions to Human Health will be important to health policy makers, basic, applied, and clinical researchers, educators, providers, and journalists-while being very accessible to interested lay readers.
