a relationship, giving clear and engaging strategies to help you overcome any relationship issues. In other words, it is couples therapy without the therapist! How to be romantic and rekindle love The best relationships do not start with physical action, rather they start in the mind. This book outlines how to build a tighter and more intimate bond between the couple, which in turn can help to rekindle love and romance in the relationship. Many relationship guides only focus on very specific issues within love or marriage, and fail to give practical advice. However, this book offers a variety of healthy relationship tips that anyone can use to immediately start improving the romance in their relationship. How to spice things up in a relationship Romance is not just about love, but also about the sexual attraction couples share. If you want to spice things up in the bedroom, or improve the sex in your relationship, you first have to understand your partner on a deeper level. It is

no surprise that couples in long-term relationships, or couples that are struggling to be romantic, may see sexual acts as a chore rather than a pleasurable activity. The key to rekindling this romance is to re-attract your partner by understanding exactly what they want. In turn, this will allow your sex life and love life to flourish simultaneously. Overall, this book offers great relationship advice for men and women alike to help couples rebuild their relationships, rekindle their love, and establish a happy future together.

Rekindling Love - Louisa Jackson 2017-08-12

If your partner has told you it's over, if you're devastated and you want them back - this book is for you. Perhaps you're still with your partner but they're losing interest or pulling away - this book is also for you. Not all relationships can be saved. However, there are those that definitely can, and should, be saved. Given the right inner

conditions, broken relationships can, and do, heal. Here you will learn precisely how to cultivate those conditions. Author, Louisa Jackson, describes how her life spiralled downwards after the break-up of a relationship. In crisis, she turned to the Law of Attraction and slowly mastered the subtle art of harnessing this intelligence in her favour. This brought miraculous changes to all areas of her life. Her long-term battle with depression, social anxiety, and an eating disorder came to an end. So, too, did the cycle of toxic and dysfunctional relationships that she kept repeating over and over.

Louisa now enjoys a happy and loving, long-term relationship - one which was successfully rekindled after applying the techniques and principles outlined in this book. The focus here is what's going on inside you, rather than on the outer circumstances of your life - for when you transform your inner world, your outer world transforms in equal measure.

As you'll see, this isn't merely a

spiritual concept but is backed up by quantum physics principles. Rekindling Love will teach you: - how not to behave in the immediate aftermath of a break-up - how to move step-by-step out of heartache and pain - how to avoid the intense suffering so common after a break-up - the power of letting go - why most people are living their life back-to-front - the importance of happiness in the rekindling process - what real happiness is, and how to cultivate it - why the Western approach to happiness causes so much suffering - how the concept of 'like attracts like' impacts every area of your life - how to prevent a repeating pattern of failed relationships - how to reverse the flow of love from getting to giving If your relationship does successfully rekindle, you'll discover methods for sustaining the honeymoon period and preventing further heartbreak. This book is about magnetizing you for love, whether that's with your existing partner or a new one. With practice and repetition, you'll stop needing

love and instead start to radiate love. When this happens, you cannot help but attract love. Whether you want to save a long-term marriage or a short-term romance, the same formula applies. This is a new way of 'being' which will radiate out into all areas of your life. You may even find after reading this that you no longer want, or need, your partner to return. About the Author Louisa Jackson lives in London with her partner and son. She has an Honours and Masters degree in Psychology and a passion for all things scientific and psychological.
