I'll Be There For You Meetali Pandit 2021-12-22 So, let's talk about friends and friendship. What does friendship mean to everyone most specifically. Friends are the family we choose, the beat to our hearts, the reason we laugh a lot, cry a little less, and smile a lot more. And we all believe friends bring more happiness into our lives than anything else in our days. Friendships are most successful if the expectations are natural and no ulterior purposes are set. When there is a motive behind it, normally we all have experiences of failing in life. And for every individual there's a support who he/she can turn to that is a friend. Where they ease your stress, give support and delight, prevent loneliness. I can warmly say all must've reminded of the friends they have made till now. And we all feel blessed in many ways because we are somehow connected them even today or not much. -Meetali Pandit

Reading, Writing, and Talking Gender in Literacy Learning Barbara J. Guzzetti 2013-10-08 Until now, there has been no systematic analysis or review of the research on gender and literacy. With all the media attention and research surveys surrounding gender bias and the inequities that continue to flourish in education, a synthesis of the research studies was needed to raise awareness of gender issues in learning and literacy, to provide successful interventions and recommendations to educators, and to point out the direction for future inquiries by examining the unanswered questions of the existing research. For the convenience of readers, the studies are organized by genre: gender and discussion, reading, writing, electronic text, and literacy autobiography. Talking College Anne H. Charity Hudley 2022 Talking College shows that language is fundamental to Black and African American culture and that linguistic justice is crucial to advancing racial justice, both on college campuses and throughout society. Writing from a linguistics-informed, Black-centered educational framework, the authors draw extensively on Black college students' lived experiences to present key ideas about African American English and Black language practices. The text presents a model of how Black students navigate the linguistic expectations of college. Grounded in real-world examples of Black undergraduates attending colleges and universities across the United States, the model illustrates the linguistic and cultural balancing acts that arise as Black students work to develop their full linguistic selves. Talking College provides Black students with the knowledge they need to make sense of anti-Black linguistic racism and to make decisions about their linguistic experiences in college. It also offers key insights to help college faculty and staff create the liberating and linguistically just educational community that Black students deserve. Book Features: Weaves together information and approaches drawn from the authors' extensive experience working with Black and other students of color in higher education. Provides an up-to-date discussion of Black language practices and their role in Black students' college experiences. Discusses the racial politics of language, including anti-Black linguistic racism and the struggle for linguistic justice as part of racial justice. Offers a detailed model of Black college students' diverse linguistic and racial identities. Outlines concrete steps toward racial and linguistic justice that students and faculty can take today. Accessible to students and faculty without a background in linguistics, while also engaging and informative for linguistics scholars.

The College Life of Jimmy Maxwell Oghenekparobo Godswill Oghotomo 2020-09-14 Jimmy Maxwell always had one true crush on a girl called Janet, he does not often see her around and also he haven't gotten the courage to talk to Janet even the few times that he manages to see her around due to his shy nature. Sadly, his crush was a senior student in the warriton college while Jimmy was a junior student, which makes such feelings theoretically impossible to work out. Well luckily for him he got an admission into the same college which his girl crush Janet do attends, but then some thing happened on the first day of his college resumption, he found him self attending a wrong class on his first day of college and luckily for him he found his crush seated in that same class but the bad news was that the class was meant for the senior students only. So now Jimmy is left with the decision to either stay back in that class and keep on pretending to be a senior student so he can get to his crush or to go back to his rightful assigned junior class and forget about getting to his crush.

Mass Media and the Shaping of American Feminism, 1963-1975 Patricia Bradley 2009-09-18 Beginning in 1963 with the publication of Betty Friedan's *The Feminine Mystique* and reaching a high pitch ten years later with the televised mega-event of the "Battle of the Sexes"—the tennis match between Billie Jean King and Bobby Riggs—the mass media were intimately involved with both the distribution and the understanding of the feminist message. This mass media promotion of the feminist profile, however, proved to be a double-edged sword, according to Patricia Bradley, author of *Mass Media and the Shaping of American Feminism, 1963-1975*. Although millions of women learned about feminism by way of the mass media, detrimental stereotypes emerged overnight. Often the events mounted by feminists to catch the media eye crystalized the negative image. All feminists soon came to be portrayed in the popular culture as "bra burners" and "strident women." Such depictions not only demeaned the achievements of their movement but also limited discussion of feminism to those subjects the media considered worthy, primarily equal pay for equal work. Bradley's book examines the media traditions that served to curtail understandings of feminism. Journalists, following the craft formulas of their trade, equated feminism with the bizarre and the unusual. Even women journalists could not overcome the rules of "What Makes News." By the time Billie Jean King confronted Bobby Riggs on the tennis court, feminism had become a commodity to be shaped to attract audiences. Finally, in mass media's pursuit of the new, counter-feminist messages came to replace feminism on the news agenda and helped set in place the conservative revolution of the 1980s. Bradley offers insight into how mass media constructs images and why such images have the kind of ongoing strength that discourages young women of today from calling themselves "feminist." The author also asks how public issues are to be raised when those who ask the questions are negatively defined before the issues can even be discussed. *Mass Media and the Shaping of American Feminism, 1963-1975* examines the media's role in creating the images of feminism that continue today. And it poses the dilemma of a call for systematic change in a mass media industry that does not have a place for systematic change in its agenda.

Smith College Stories Josephine Daskam Bacon 2021-05-18 "Smith College Stories" by Josephine Daskam Bacon is a collection of simple tales that serve to deepen in the slightest degree the rapidly growing conviction that the college girl is very much like any other girl—that this likeness is, indeed, one of her most striking characteristics—the author will consider their existence abundantly justified. Excerpt: "THE EMOTIONS OF A SUB-GUARD Theodora pushed through the yellow and purple crowd, a sea of flags and ribbons and great paper flowers, caught a glimpse of the red and green river that flowed steadily in at the other door, and felt her heart contract. What a lot of girls! And the freshmen were always beaten... "
