Intersectionality in Anglophone Television Series and Cinema

Kévin Drif 2020-10-15 This book takes an intersectional approach to explore gender, race, ethnicity and social class in television series and films produced by English-speaking countries. Starting from Kimberlé Crenshaw's 1989 concept of intersectionality, and encompassing film studies, television studies, cultural studies, gender studies, Queer theory, African American studies, and post-colonial studies, this volume sheds light not only on revealing intersectional elements of on-screen fiction, but also on the very nature of intersectional criticism.

Feminist Studies Nina Lykke 2010-04-05 In this book, feminist scholar Nina Lykke highlights current issues in feminist theory, epistemology and methodology. Combining introductory overviews with cutting-edge reflections, Lykke focuses on analytical approaches to gendered power differentials intersecting with other processes of social in/exclusion based on race, class, and sexuality. Lykke confronts and contrasts classical stances in feminist epistemology with poststructuralist and postconstructionist feminisms, and also brings bodily materiality into dialogue with theories of the performativity of gender and sex. This thorough and needed analysis of the state of Feminist Studies will be a welcome addition to scholars and students in Gender and Women's Studies and Sociology.

Intersectionality Patricia Hill Collins 2016-09-26 The concept of intersectionality has become a hot topic in academic and activist circles alike. But what exactly does it mean, and why has it emerged as such a vital lens through which to explore how social inequalities of race, class, gender, sexuality, age, ability and

ethnicity shape one another? In this new book Patricia Hill Collins and Sirma Bilge provide a much-needed, introduction to the field of intersectional knowledge and praxis. They analyze the emergence, growth and contours of the concept and show how intersectional frameworks speak to topics as diverse as human rights, neoliberalism, identity politics, immigration, hip hop, global social protest, diversity, digital media, Black feminism in Brazil, violence and World Cup soccer. Accessibly written and drawing on a plethora of lively examples to illustrate its arguments, the book highlights intersectionality's potential for understanding inequality and bringing about social justice oriented change. Intersectionality will be an invaluable resource for anyone grappling with the main ideas, debates and new directions in this field.

Transfeminist Perspectives in and beyond Transgender and Gender Studies Finn Enke 2012-05-04 Lambda Literary Award for Best Book in Transgender Nonfiction, 2013 If feminist studies and transgender studies are so intimately connected, why are they not more deeply integrated? Offering multidisciplinary models for this assimilation, the vibrant essays in *Transfeminist Perspectives in and beyond Transgender and Gender Studies* suggest timely and necessary changes for institutions of higher learning. Responding to the more visible presence of transgender persons as well as gender theories, the contributing essayists focus on how gender is practiced in academia, health care, social services, and even national border patrols. Working from the premise that transgender is both material and cultural, the contributors address such aspects of the university as administration, sports, curriculum, pedagogy, and the appropriate location for transgender studies. Combining feminist theory, transgender studies, and activism centered on social diversity and justice, these essays examine how institutions as lived contexts shape everyday life.

Queer Necropolitics Jin Haritaworn 2014-02-03 This book comes at a time when the intrinsic and self-evident value of queer rights and protections, from gay marriage to hate crimes, is increasingly put in question. It assembles writings that explore the new queer

vitalities within their wider context of structural violence and neglect. Moving between diverse geopolitical contexts - the US and the UK, Guatemala and Palestine, the Philippines, Iran and Israel - the chapters in this volume interrogate claims to queerness in the face(s) of death, both spectacular and everyday. Queer Necropolitics mobilises the concept of 'necropolitics' in order to illuminate everyday death worlds, from more expected sites such as war, torture or imperial invasion to the mundane and normalised violence of racism and gender normativity, the market, and the prison-industrial complex. Contributors here interrogate the distinction between valuable and pathological lives by attending to the symbiotic co-constitution of queer subjects folded into life, and queerly abjected racialised populations marked for death. Drawing on diverse yet complementary methodologies, including textual and visual analysis, ethnography and historiography, the authors argue that the distinction between 'war' and 'peace' dissolves in the face of the banality of death in the zones of abandonment that regularly accompany contemporary democratic regimes. The book will appeal to activist scholars and students from various social sciences and humanities, particularly those across the fields of law, cultural and media studies, gender, sexuality and intersectionality studies, race, and conflict studies, as well as those studying nationalism, colonialism, prisons and war. It should be read by all those trying to make sense of the contradictions inherent in regimes of rights, citizenship and diversity.

Disputing Citizenship John Clarke 2014-01-01 Many people take citizenship for granted, but throughout history it has been an embattled notion. This unique book presents a new perspective on citizenship, treating it as a continuous focal point of dispute. Written by scholars from Brazil, France, Britain, and the United States, it offers an international and interdisciplinary exploration of the ways different forms and practices of citizenship embody contesting entanglements of politics, culture, and power. In doing so, it offers a provocative challenge to the ways citizenship is normally conceived of and analyzed by the social sciences and develops an innovative view of citizenship as something always emerging from struggle.

Ambivalent Childhoods Jacob Breslow 2021-07-20 Explores childhood in relation to blackness, transfeminism, queerness, and deportability to interrogate what “the child” makes possible The concept of childhood contains many contested and ambivalent meanings that have extraordinary implications, particularly for those staking their claim for belonging and justice on the wish for inclusion within it. In *Ambivalent Childhoods*, Jacob Breslow examines contemporary U.S. social justice movements (including Black Lives Matter, transfeminism, queer youth activism, and antideportation movements) to discover and reveal how childhood operates within and against them. *Ambivalent Childhoods* brings together critical race, trans, feminist, queer, critical migration, and psychoanalytic theories to explore the role of childhood in

shaping and challenging the disposability of young black life, the steadfastness of the gender binary, the queer life of children's desires, and the precarious status of migrants. Through an engagement with "the psychic life of the child" that combines theoretical discussions of childhood, blackness, transfeminism, and deportability with critical readings of films, narrative, images, and social justice movements, Breslow demonstrates how childhood requires sustained attention as a complex and ambivalent site for contesting the workings of power, not only for the young. *Ambivalent Childhoods* is a forward-thinking and intersectional analysis of how childhood affects activism, national belonging, and the violence directed against queer, trans, and racialized people.

The Multicultural Question Stuart Hall 2001

Terrorist Assemblages Jasbir K. Puar 2017-12-08 Tenth

Anniversary Expanded Edition Ten years on, Jasbir K. Puar's pathbreaking *Terrorist Assemblages* remains one of the most influential queer theory texts and continues to reverberate across multiple political landscapes, activist projects, and scholarly pursuits. Puar argues that configurations of sexuality, race, gender, nation, class, and ethnicity are realigning in relation to contemporary forces of securitization, counterterrorism, and nationalism. She examines how liberal politics incorporate certain queer subjects into the fold of the nation-state, shifting queers from their construction as figures of death to subjects tied to ideas of life and productivity. This tenuous inclusion of some queer subjects depends, however, on the production of populations of Orientalized terrorist bodies. Heteronormative ideologies that the U.S. nation-state has long relied on are now accompanied by what Puar calls homonationalism—a fusing of homosexuality to U.S. pro-war, pro-imperialist agendas. As a concept and tool of biopolitical management, homonationalism is here to stay. Puar's incisive analyses of feminist and queer responses to the Abu Ghraib photographs, the decriminalization

of sodomy in the wake of the Patriot Act, and the profiling of Sikh Americans and South Asian diasporic queers are not instances of a particular historical moment; rather, they are reflective of the dynamics saturating power, sexuality, race, and politics today.

This Tenth Anniversary Expanded Edition features a new foreword by Tavia Nyong'o and a postscript by Puar entitled "Homonationalism in Trump Times." Nyong'o and Puar recontextualize the book in light of the current political moment while reposing its original questions to illuminate how Puar's interventions are even more vital and necessary than ever.

Lives beyond Borders Ina C. Seethaler 2021-11-01 A cross-cultural, comparative study of contemporary life writing by women who migrated to the United States from Mexico, Ghana, South Korea, and Iran, *Lives beyond Borders* broadens and deepens critical work on immigrant life writing. Ina C. Seethaler investigates how these autobiographical texts—through genre mixing, motifs of doubling, and other techniques—challenge stereotypes, social hierarchies, and the supposed fixity of identity and lend literary support to grassroots social justice efforts. Seethaler's approach to literary analysis is both interdisciplinary and accessible. While *Lives beyond Borders* draws on feminist theory, critical race theory, and disability and migration studies, it also uses stories to engage and interest readers in issues related to migration and social change. In so doing, the book reevaluates the purpose, form, and audience of immigrant life writing.

LGBTQ Politics Marla Brettschneider 2017-09-19 "From Harvey Milk to Barney Frank, and from ACT UP to Proposition 8, in the past few decades, no political change has been more significant than the civil rights advancements of LGBTQ citizens. *LGBTQ Politics* is the first authoritative reader to approach the complexity of queer politics from a political science perspective, bringing together original contributions from leading scholars in the field on key issues in LGBTQ politics. These original essays

cover a wide range of essential topics, including marriage equality, transgender discrimination, gay and lesbian political candidates, LGBTQ human rights advocacy, HIV prevention, and LGBTQ movements of the Global South. The volume also includes a number of critical essays that reflect upon the state of political science as a discipline that has struggled to address queer politics. Contributors draw from a variety of subfields in political science, including comparative politics, political theory, American politics, public law, and international relations. Essays that focus on mainstream institutional politics appear alongside contributions grounded in grassroots movements and critical theory. While some essays express concerns that the democratic basis of the LGBTQ movement has been undermined, others celebrate the movement's successes and offer visions for the future. A comprehensive, thought-provoking, and authoritative collection, *LGBTQ Politics: A Critical Reader* is required reading for anyone looking to learn about the politics of sexuality"--Back cover.

Working-Class Lesbian Life Yvette Taylor 2007-07-13 This is an original study of women self-identified as working-class and lesbian, showing the significance of class and sexuality in their biographies, everyday lives and identities. It provides insight, a critique of queer theory and an empirical interrogation of the embodied, spatial and material intersection of class and sexuality.

Gender Ironies of Nationalism Tamar Mayer 2012-10-12 This book provides a unique social science reading on the construction of nation, gender and sexuality and on the interactions among them. It includes international case studies from Indonesia, Ireland, former Yugoslavia, Liberia, Sri Lanka, Australia, the USA, Turkey, China, India and the Caribbean. The contributors offer both the masculine and feminine perspective, exposing how nations are comprised of sexed bodies, and exploring the gender ironies of nationalism and how sexuality plays a key role in nation building and in sustaining national identity. The contributors

conclude that control over access to the benefits of belonging to the nation is invariably gendered; nationalism becomes the language through which sexual control and repression is justified masculine prowess is expressed and exercised. Whilst it is men who claim the prerogatives of nation and nation building it is, for the most part, women who actually accept the obligation of nation and nation building.

Sexuality and Citizenship Diane Richardson 2017-09-18 Sexual citizenship has become a key concept in the social sciences. It describes the rights and responsibilities of citizens in sexual and intimate life, including debates over equal marriage and women's human rights, as well as shaping thinking about citizenship more generally. But what does it mean in a continually changing political landscape of gender and sexuality? In this timely intervention, Diane Richardson examines the normative underpinnings and varied critiques of sexual citizenship, asking what they mean for its future conceptual and empirical development, as well as for political activism. Clearly written, the book shows how the field of sexuality and citizenship connects to a range of important areas of debate including understandings of nationalism, identity, neoliberalism, equality, governmentality, individualization, colonialism, human rights, globalization and economic justice. Ultimately this book calls for a critical rethink of sexual citizenship. Illustrating her argument with examples drawn from across the globe, Richardson contends that this is essential if scholars want to understand the sexual politics that made the field of sexuality and citizenship studies what it is today, and to enable future analyses of the sexual inequalities that continue to mark the global order.

Queer Roma Lucie Fremlova 2021-10-04 This book offers in-depth insight into the lives of queer Roma, thus providing rich evidence of the heterogeneity of Roma. The lived experiences of queer Roma, which are very diverse regionally and otherwise, pose a fundamental challenge to one-dimensional, negative misrepresentations of Roma as homophobic and antithetical to European and Western modernity. The book platforms Romani agency and voices in an original and novel way. This enables the reader to feel the individuals behind the data, which detail stories of rejection by Romani families and communities, and non-Romani communities; and unfamiliar, ground-breaking stories of acceptance by Romani families and communities. Combining intersectionality with queer theory innovatively and applying it to Romani Studies, the author supports her arguments with data

illustrating how the identities of queer Roma are shaped by antigypsyism and its intersections with homophobia and transphobia. Thanks to its theoretical and empirical content, and its location within a book series on LGBTIQ lives that appeals to an international audience, this authoritative book will appeal to a wide range of readers. It will be a useful resource for libraries, community and social service workers, third-sector Romani and LGBTIQ organisations, activists and policymakers; an invaluable source of information for scholars, teachers and students of bigger modules in undergraduate, graduate and postgraduate courses in a cross section of academic disciplines and subject areas. These include, but are not limited to, LGBTIQ/Queer Studies; Women's, Gender and Sexuality Studies; Romani Studies; Sociology; Anthropology; Human Geography; Area Studies; Cultural Studies; Social Movement Studies; Media Studies; Psychology; Health Science; Social Science; Political Science.

Companion to Feminist Studies Nancy A. Naples 2020-11-24 A comprehensive overview of feminist scholarship edited by an internationally recognized and leading figure in the field Companion to Feminist Studies provides a broad overview of the rich history and the multitude of approaches, theories, concepts, and debates central to this dynamic interdisciplinary field. Transnational Marriage and Partner Migration Anne-Marie D'Aoust 2022-02-11 This multidisciplinary collection investigates the ways in which marriage and partner migration processes have become the object of state scrutiny, and the site of sustained political interventions in several states around the world.

Covering cases as varied as the United States, Canada, Japan, Iran, France, Belgium or the Netherlands, among others, contributors reveal how marriage and partner migration have become battlegrounds for political participation, control, and exclusion. Which forms of attachments (towards the family, the nation, or specific individuals) have become framed as risks to be managed? How do such preoccupations translate into policies? With what consequences for those affected by them, in terms of rights and access to citizenship? The book answers these questions by analyzing the interplay between issues of security, citizenship and rights from the perspectives of migrants and policymakers, but also from actors who negotiate encounters with the state, such as lawyers, non-governmental organizations, and translators.

The Promise of Adolescence National Academies of Sciences, Engineering, and Medicine 2019-08-26 Adolescence "beginning with the onset of puberty and ending in the mid-20s" is a critical period of development during which key areas of the brain mature and develop. These changes in brain structure, function, and connectivity mark adolescence as a period of opportunity to discover new vistas, to form relationships with peers and adults, and to explore one's developing identity. It is also a period of resilience that can ameliorate childhood setbacks and set the stage for a thriving trajectory over the life course. Because adolescents comprise nearly one-fourth of the entire U.S. population, the nation needs policies and practices that will better leverage these developmental opportunities to harness the promise of adolescence rather than focusing myopically on containing its risks. This report examines the neurobiological and socio-behavioral science of adolescent development and outlines how this knowledge can be applied, both to promote adolescent well-being, resilience, and development, and to rectify structural barriers and inequalities in opportunity, enabling all adolescents to flourish.

Sexuality, Citizenship and Belonging Francesca Stella 2015-10-23

This book brings together a diverse range of critical interventions in sexuality and gender studies, and seeks to encourage new ways of thinking about the connections and tensions between sexual politics, citizenship and belonging. The book is organized around three interlinked thematic areas, focusing on sexual citizenship, nationalism and international borders (Part 1); sexuality and "race" (Part 2); and sexuality and religion (Part 3). In revisiting notions of sexual citizenship and belonging, contributors engage with topical debates about "sexual nationalism," or the construction of western/European nations as exceptional in terms of attitudes to sexual and gender equality vis-à-vis an uncivilized, racialized "Other." The collection explores macro-level perspectives by attending to the geopolitical and socio-legal structures within which competing claims to citizenship and belonging are played out; at the same time, micro-level perspectives are utilized to explore the interplay between sexuality and "race," nation, ethnicity and religious identities. Geographically, the collection has a prevalently European focus, yet contributions explore a range of trans-national spatial dimensions that exceed the boundaries of "Europe" and of European nation-states.

Burnt by Democracy Jacqueline Kennelly 2023-11-30 *Burnt by Democracy* traces the political ascendance of neoliberalism and its effects on youth. The book explores democracy and citizenship as described in interviews with over forty young people - ages 16 to 30 - who have either experienced homelessness or identify as an activist, living in five liberal democracies: Canada, Australia, New Zealand, the United States, and the United Kingdom. Highlighting significant cuts to social and affordable housing, astronomical increases in the costs of higher education, and the transformation and erosion of state benefits systems, Jacqueline Kennelly argues that democracy's decline is not occurring because young people are apathetic, or focused on informal

politics, or unaware of their civic duties. Rather, it is because of collective misunderstanding about how democracy is actually structured, how individuals learn to participate, and how growing wealth inequality has undermined the capacity of those at the bottom to meaningfully advocate for changes that might improve their conditions. Against a vivid and often heart-breaking backdrop of stories from young people struggling to survive and thrive under conditions of ever-expanding state retrenchment and inequality, *Burnt by Democracy* makes a timely and impassioned plea for protecting and strengthening democracy by truly levelling the playing field for all.

Theorizing Intersectionality and Sexuality Y. Taylor 2010-11-24 This book re-examines political, conceptual and methodological concerns of 'intersectionality', bringing these into conversation with sexuality studies. It explores sexual identifications, politics and inequalities as these (dis)connect across time and place, and are re-constituted in relation to class, disability, ethnicity, gender and age.

Translocational Belongings Floya Anthias 2020-06-10 This book explores the multiform and shifting location of borders and boundaries in social life, related to difference and belonging. It contributes to understanding categories of difference as a building block for forms of belonging and inequality in the world today and as underpinning modern capitalist societies and their forms of governance. Reflecting on the ways in which we might theorise the connections between different social divisions and identities, a translocational lens for addressing modalities of power is developed, stressing relationality, the spatio-temporal and the processual in social relations. The book is organised around contemporary dilemmas of difference and inequality, relating to fixities and fluidities in social life and to current developments in the areas of racialisation, migration, gender, sexuality and class relations, and in theorising the articulations of gender, class and ethnic hierarchies. Rejecting the view that

gender, ethnicity, race, class or the more specific categories of migrants or refugees pertain to social groups with certain fixed characteristics, they are treated as interconnected and interdependent places within a landscape of inequality making. This innovative and groundbreaking book constitutes a significant contribution to scholarship on intersectionality.

The Age of Migration Stephen Castles 2014 This leading text in the field provides a comprehensive assessment of the nature, extent and dimensions of international population movements and of their consequences. Intersectionality as Critical Social Theory Patricia Hill Collins

2019-08-23 In *Intersectionality as Critical Social Theory* Patricia Hill Collins offers a set of analytical tools for those wishing to develop intersectionality's capability to theorize social inequality in ways that would facilitate social change. While intersectionality helps shed light on contemporary social issues, Collins notes that it has yet to reach its full potential as a critical social theory. She contends that for intersectionality to fully realize its power, its practitioners must critically reflect on its assumptions, epistemologies, and methods. She places intersectionality in dialog with several theoretical traditions—from the Frankfurt school to black feminist thought—to sharpen its definition and foreground its singular critical purchase, thereby providing a capacious interrogation into intersectionality's potential to reshape the world.

Going Stealth Toby Beauchamp 2018-01-11 In *Going Stealth* Toby Beauchamp demonstrates how the enforcement of gender conformity is linked to state surveillance practices that identify threats based on racial, gender, national, and ableist categories of difference. Positioning surveillance as central to our understanding of transgender politics, Beauchamp examines a range of issues, from bathroom bills and TSA screening practices to Chelsea Manning's trial, to show how security practices extend into the everyday aspects of our gendered lives. He brings the fields of disability, science and technology, and surveillance studies into conversation with transgender studies to show how the scrutinizing of gender nonconformity is motivated less by explicit transgender identities than by the perceived threat that

gender nonconformity poses to the U.S. racial and security state. Beauchamp uses instances of gender surveillance to demonstrate how disciplinary power attempts to produce conformist citizens and regulate difference through discourses of security. At the same time, he contends that greater visibility and recognition for gender nonconformity, while sometimes beneficial, might actually enable the surveillance state to more effectively track, measure, and control trans bodies and identities.

Queer Migration and Asylum in Europe Richard C. M. Mole
2021-03-08 Europe is a popular destination for LGBTQ people seeking to escape discrimination and persecution. Yet, while European institutions have done much to promote the legal equality of sexual minorities and a number of states pride themselves on their acceptance of sexual diversity, the image of European tolerance and the reality faced by LGBTQ migrants and asylum seekers are often quite different. To engage with these conflicting discourses, *Queer Migration and Asylum in Europe* brings together scholars from politics, sociology, urban studies, anthropology and law to analyse how and why queer individuals migrate to or seek asylum in Europe, as well as the legal, social and political frameworks they are forced to navigate to feel at home or to regularise their status in the destination societies. The subjects covered include LGBTQ Latino migrants' relationship with queer and diasporic spaces in London; diasporic consciousness of queer Polish, Russian and Brazilian migrants in Berlin; the role of the Council of Europe in shaping legal and policy frameworks relating to queer migration and asylum; the challenges facing bisexual asylum seekers; queer asylum and homonationalism in the Netherlands; and the role of space, faith and LGBTQ organisations in Germany, Italy, the UK and France in supporting queer asylum seekers.
