Intra-Asian Trade and the World Market - A.J.H. Latham 2006-04-18

Intra-Asian trade is a major theme of recent writing on Asian economic history. From the second half of the nineteenth century, intra-

Asian trade flows linked Asia into an integrated economic system, with reciprocal benefits for all participants. But although this was a network from which all gained, there was also considerable inter-Asian competition between Asian producers for these Asian markets, and those of the wider world. This collection presents captivating snap-shots of trade in specific commodities, alongside chapters comprehensively covering the region. The book

covers: China's relative backwardness, Japanese copper exports, Japan's fur trade, Siam's luxury rice trade, Korea, Japanese shipbuilding, the silk trade, the refined sugar trade, competition in the rice trade, the Japanese cotton textile trade to Africa, multilateral settlements in Asia, the cotton textile trade to Britain, and the growth of the palm oil industry in Malaysia and Indonesia. The opening of Asia, especially in Japan and China, liberated the creative forces of the market within the new intra-Asian economy. Filling a particular gap in the literature on intra-Asian trade prior to the twentieth century, this is an insightful study that makes a considerable contribution to our knowledge of the Asian trade both prior to, and after, the arrival of colonial states. It will be of great interest to historians and economists focusing on Asia.

Old Path White Clouds - Thich Nhat Hanh
2010-03

Old Path White Clouds presents the life and teachings of Gautama Buddha. Drawn directly from 24 Pali, Sanskrit, and Chinese sources, and

retold by Thich Nhat Hanh in his inimitably beautiful style, this book traces the Buddha's life slowly and gently over the course of 80 years, partly through the eyes of Svasti, the buffalo boy, and partly through the eyes of the Buddha himself. Old Path White Clouds is destined to become a classic of religious literature. Thich Nhat Hanh is a Vietnamese Buddhist monk. His life long efforts to generate peace and reconciliation moved Martin Luther King, Jr. to nominate him for the Nobel Peace Prize in 1967. He is the founder of Van Hanh Buddhist University in Saigon, and has taught at Columbia University and the Sorbonne. He is the author of *Being Peace*, *The Miracle of Mindfulness*, *Peace Is Every Step*, and 75 other books. I have not avoided including the various difficulties the Buddha encountered, both from his own disciples and in relation to the wider society. If the Buddha appears in this hook as a man close to us, it is partly due to recounting such difficulties. --from the author's afterword

Mass Media in Vietnam - David G. Marr 1998 "Transformations in print publication, radio, film and television are an integral part of broader changes taking place in Vietnam since the mid-1980s. Although the Communist Party continues to scrutinise content, and every mass

media outlets is formally state-owned, new market economy imperatives, technological upgrades, international linkages, and persistent audience demand for novelty all serve to propel media experimentation and innovation, whatever the intentions of Hanoi's elderly leadership. This is the first book in English to describe these significant changes, drawing on the knowledge and experience of both vietnamese and foreign experts." -- p. [4] of cover.

Sapiens - Yuval Noah Harari 2014-09-04

In just a fraction of that time, one species among countless others has conquered it: us. No Death, No Fear - Thich Nhat Hanh
2012-02-29

'(Thich Nhat Hanh) shows us the connection between personal, inner peace and peace on earth' His Holiness the Dalai Lama Thich Nhat Hanh says: 'Our biggest fear is that we will become nothing when we die. If we think that we cease to exist when we die, we have not looked very deeply at ourselves.' With his usual blend of stories, exquisite analogies and guided meditations, Thich Nhat Hanh takes the reader through the same examination of death, fear and the nature of existence that Buddhist monks and nuns have been performing in their meditations for 2500 years. The understanding of no death comes from exploding the myth of how we think we exist. Knowing how we actually exist produces the state of no fear. This is a new subject for Thich Nhat Hanh and many people will turn to him for his help with fear and death, just as they did for his help with anger.
