Strange Virtues Bernard T. Adeney-Riskotta 2009-09-20 Theologian and veteran missionary Bernard Adeney addresses in-depth what may be the stickiest crosscultural communication problem of our day: differing approaches to morality. In this comprehensive treatment, he considers ethics across cultures, addresses the ethical import of other religions and gender relations, explores how the Bible and culture interact to produce ethical stances, and includes particular case studies. *Strange Virtues* will benefit not only missionaries, ethicists and students, but all Christians who want to better understand their neighbors here at home.

Should We Live Forever? Gilbert Meilaender 2013-01-14 In *Should We Live Forever?* Christian ethicist Gilbert Meilaender puzzles over the implications of the medical advances that have lengthened the human life span, wrestling with what this quest for living longer means for our conception of living well and completely. As he points out in his introduction, "That we often desire, even greedily desire, longer life is clear; whether what we desire is truly desirable is harder to say." The six chapters of this book take multiple perspectives on issues surrounding aging and invite readers to consider whether "indefinitely more life" is something worth pursuing and, if humans are created for life with God, whether longer life will truly satisfy our underlying hunger.

Gay and Catholic Eve Tushnet 2014-10-20 Winner of a 2015 Catholic Press Award: Gender Issues Category (First Place). In this first book from an openly lesbian and celibate Catholic, widely published writer and blogger Eve Tushnet recounts her spiritual and intellectual journey from liberal atheism to faithful Catholicism and shows how gay Catholics can love and be loved while adhering to Church teaching. Eve Tushnet was among the unlikeliest of converts. The only child of two atheist academics, Tushnet was a typical Yale undergraduate until the day she went out to poke fun at a gathering of philosophical debaters, who happened also to be Catholic. Instead of enjoying mocking what she termed the "zoo animals," she found herself engaged in intellectual conversation with them and, in a move that surprised even her, she soon converted to Catholicism. Already self-identifying as a lesbian, Tushnet searched for a third way in the seeming two-option system available to gay Catholics: reject Church teaching on homosexuality or reject the truth of your sexuality. *Gay and Catholic: Accepting My Sexuality, Finding Community, Living My Faith* is the fruit of Tushnet's searching: what she learned in studying Christian history and theology and her articulation of how gay Catholics can pour their love and need for connection into friendships, community, service, and artistic creation.

The Spiritual Danger of Donald Trump Ronald J. Sider 2020-06-01 What should Christians think about Donald Trump? His policies, his style, his personal life? Thirty evangelical Christians (listed below) wrestle with these tough questions. They are Republicans, Democrats, and Independents. They don't all agree, but they seek to let Christ be the Lord of their political views. They seek to apply biblical standards to difficult debates about our current political situation. Vast numbers of white evangelicals enthusiastically support Donald Trump. Do biblical standards on truth, justice, life, freedom, and personal integrity warrant or challenge that support? How does that support of President Trump affect the image of Christianity in the larger culture? Around the world? Many younger evangelicals today are rejecting evangelical Christianity, even Christianity itself. To what extent is

that because of widespread evangelical support for Donald Trump? Don't read this book to find support for your views. Read it to be challenged--with facts, reason, and biblical principles. Liberating the Politics of Jesus Darryl W. Stephens 2020-09-03 Bold, faithful, challenging - this volume uncovers the social and political implications of the gospel message by looking at Anabaptist theology and practice from a female perspective. The contributors approach the gospel from a wide range of disciplines and backgrounds, liberating the radical political ethic of Jesus Christ from patriarchal distortions and demonstrating that gender justice and peace theology are inseparable. Beautifully illustrated with pen drawings, *Liberating the Politics of Jesus* recognizes the authority of women to interpret and reconstruct the peace church tradition on issues such as subordination, suffering, atonement, the nature of church, leadership, and discipleship. The contributors confront difficult topics head-on, such as the power structures in South Africa, armed conflict in Colombia, and the sexual violence of John Howard Yoder. The result is a renewed Anabaptist peace theology with the potential to transform the work of theology and ministry in all Christian traditions.

Learning Together to Preach John S. McClure 2023-11-10 Preaching is best learned and improved when preachers receive excellent, supportive reflection on their lived experiences and sermons. For nearly ten years at Vanderbilt Divinity School a group of scholars and practicing preachers joined together to develop and hone several models of peer-group and individual coaching. In this book, they describe the key dimensions of "collaborative coaching," a learner-centered approach to coaching that emphasizes covenant-building, deep spiritual curiosity, care-filled listening, ethical awareness, attention to bodies and places, parallel learning, careful sermon analysis, and the art of asking excellent questions. In the final section of the book, practitioners provide examples of this kind of coaching in practice.

Vocation and Violence Miryam Clough 2022-01-17 As #MeToo and its sister movement #ChurchToo demonstrated, sexual violence is systemic in many and varied workplace settings, including Christian churches, and can destroy women's careers and vocational aspirations. The study draws on empirical evidence - personal stories from survivors and the views of church leaders and educators - in dialogue with theoretical perspectives, to consider clergy sexual abuse of adult women and the conditions that support it. Institutional abuse only changes when survivors come forward. This study focusses on New Zealand Anglicanism, the locus of the author's experience, and has resonance for a range of denominational settings. It aims to be a useful resource to clergy, ministry educators, and those training for ministry, and to academics and scholars with an interest in theology, gender, and professional ethics. Notably, it will be a potentially helpful text for women survivors of sexual misconduct by clergy, not least those who are considering a future in the church or grieving the loss of one. The volume concludes by suggesting that alternative theological models and relational ethics are essential if the church is to truly address the problem of clergy sexual abuse and give greater priority to the abused.

Teaching Sexuality and Religion in Higher Education Darryl W. Stephens 2020-04-19 This volume combines insights from secular sexuality education, trauma studies, and embodiment to explore effective strategies for teaching sexuality and religion in colleges, universities, and seminaries. Contributors to this volume address a variety of sexuality-related issues including reproductive rights, military prostitution, gender, fidelity, queerness, sexual trauma, and veiling from the perspective of multiple religious faiths. Christian, Jewish, and Muslim scholars present pedagogy and classroom strategies appropriate for secular and religious institutional contexts. By foregrounding a combination of "perspective transformation" and "embodied learning" as a means of increasing students' appreciation for the varied social, psychological, theological and cultural contexts in which

attitudes to sexuality develop, the volume posits sexuality as a critical element of teaching about religion in higher education. This book will be of great interest to graduate and postgraduate students, researchers, academics, and libraries in the fields of Religious Studies, Religious Education, Gender & Sexuality, Religion & Education, and Sociology of Religion.

Methodist Morals Darryl W. Stephens 2016 *Methodist Morals* offers keen insight into the public church, interpreting the United Methodist Social Principles as a dynamic discourse about morality and human rights in light of faith. Revised every four years by the General Conference of the United Methodist Church, the Social Principles exposes the moral deliberations of this distinctly American and increasingly "worldwide" church as it struggles to achieve community across multiple languages and cultures. Perhaps no other document provides as rich a depiction of Protestants participating in the moral argument of public life. This is the first full-length study of Methodist social teachings in over fifty years. Examining official Methodist teachings from institutional, historical, and cross-cultural perspectives, Darryl Stephens provides a rich analysis of this case study of Protestant social witness, drawing on his expertise in church polity, Methodist history, and Christian social ethics. A wide range of comparisons—with documents of the United Nations, with moral debate in Germany and Zimbabwe, and with historical Methodist statements of social witness—shows the Social Principles to be a unique form of social witness. The issues of war, abortion, human sexuality, and marriage illustrate the messiness of democratic deliberation in an ecclesial context and the evolution of a people ever concerned with the sin of "worldliness" even as they become more attuned to transforming social structures. Stephens also contrasts this conception of the public church with the ecclesiologies of prominent Methodist ethicists Stanley Hauerwas and Paul Ramsey. Intended for students of Methodism, ecumenical church leaders, and scholars of Christian social ethics and contemporary US mainline religion, this work reveals the challenges to and possibilities for achieving moral community in an increasingly global and diverse world—from publisher's website.

Sex in the Parish Karen Lebacqz 1991-01-01 Karen Lebacqz and Ronald Barton examine the gift of sexuality in relation to the parish and the dynamics of sexual desire and temptation. An Introduction to Christian Ethics Robin W. Lovin 2011-11-01 A few years ago, the first distinction that ethicists drew was the line between Christian ethics and philosophical ethics. However, in our global context, Christian ethicists must now, in addition, compare and contrast various ethics. Christian ethics has become increasingly multivocal not only because of a plurality of faiths but also because of a plurality of Christianities. In light of these new realities, this book will introduce Christian ethics. It will lay out history, methods, and basic principles every student must know. The author also will include case studies for further explanation and application.

Sacred Encounter Lisa L. Grushcow 2014-03-01 This wide-ranging anthology takes a close look at the breadth of human sexuality from a Jewish perspective. The essays begin with a look at biblical and rabbinic views on sexuality, and then proceed to explorations of sexuality at different moments in the life cycle, sexuality and the marital model, diverse expressions of sexuality, examples of sexuality education, the nexus of sexuality and theology, and the challenges of contemporary sexual ethics. The Sacred Encounter is a thought-provoking and important Jewish resource. Perfect for personal study, or for high school or adult classes.

Intersex, Theology, and the Bible Susannah Cornwall 2016-01-26 Intersex bodies have been figured as troubling by doctors, parents, religious institutions and society at large. In this book, scholars draw on constructive and pastoral theologies, biblical studies, and sociology, suggesting intersex's capacity to 'trouble' is positive, challenging unquestioned norms and assumptions in religion and beyond.

Sexual Ethics Todd A. Salzman 2012-05-18 Two principles capture the essence of the Catholic tradition on sexual ethics: that each and every marriage act must remain open to the transmission of life, and that any human genital act must occur within the framework of marriage. In the Catholic tradition, moral sexual activity is institutionalized within the confines of marriage and procreation, and sexual morality is marital morality. But theologians Todd Salzman and Michael Lawler contend that there is a disconnect between many of the Church's absolute sexual norms and other theological and intellectual developments explicitly recognized and endorsed in the Catholic tradition, especially since the Second Vatican Council. These developments include the shift from a primary static worldview to a historically conscious worldview, one that recognizes reality as dynamic, evolving, changing, and particular. By employing such a historically conscious worldview, alternative claims about the moral legitimacy of controversial topics such as contraception, artificial reproduction, and homosexual marriage can faithfully emerge within a Catholic context. Convinced of the central role that love, desire, and fertility play in a human life, and also in the life of Christian discipleship, the authors propose an understanding of sexuality that leads to the enhancement of human sexual relationships and flourishing. This comprehensive introduction to Catholic sexual ethics—complete with thought-provoking study questions at the end of each chapter—will be sure to stimulate dialogue about sexual morality between Catholic laity, theologians, and the hierarchy. Anyone seeking a credible and informed Catholic sexual ethic will welcome this potentially revolutionary book.

The Integrity of the Body of Christ Arden Mahlberg 2016-05-23 For religious communities to have integrity and credibility they must flourish as places of love and respect. Every aspect of church life is defined and protected by essential boundaries: boundaries around space, time, thought, speech, will, emotion, and behavior--both for clergy and church members. Lack of awareness and attention to boundary keeping diminishes the integrity of the church and harms its mission, whereas insight and vigilance about best practices lend freedom and energy to the calling of the church to care for others and to reach out to the world. In a flourishing Christian community, a wide array of boundaries must be recognized, celebrated, and navigated--from the boundaries that define and protect us as individual persons to role boundaries and the boundaries that define essential communal functions, such as worship. This book is no conventional account of boundaries. It takes a comprehensive approach to the challenge of understanding and creating healthy boundaries. It applies the lessons from the emerging field of behavioral ethics to the rich and rewarding complexity of boundaries in church life, helping us to be more loving and responsible in how we think, speak, and act, so that the church can be true to its identity and mission.

A House Divided Geoffrey W. Sutton 2016-03-29 A House Divided helps answer the question, how do Christians form moral judgments about sex-

linked issues? After analyzing key differences between conservative and progressive Christians on such divisive issues as abortion, sex education, and same-sex marriage, readers will learn how a combination of four factors can lead to principled Christian morality. First, a review of diverse interpretive comments on relevant Scriptures can help identify a foundation for agreement as well as sharpen differences. Second, a review of psychological factors can help identify prejudices, personality traits, and powerful emotions that intensify and color public debate. Third, new research on moral psychology will add six dimensions of analysis to appreciating the reasons conservatives and progressives draw upon when forming moral judgments. And finally, knowledge about sexual attraction, sexual orientation, conception, and sexual health is vital to thinking ethically about the specific issues addressed in this book.

Liberating Sexuality Miguel A. De La Torre 2016-09-06 For two thousand years, Christianity has been wrong about sex. To this day Christians grapple with defining gender, sexism, heterosexism, and what constitutes healthy sex. Miguel A. De La Torre-noted ethicist and scholar on the intersection of religion with race, class, gender, and sexuality-shines new light on these intimate issues in *Liberating Sexuality*, a provocative compilation of his writings that apply justice to the most private parts of our lives. Grounded in biblical scholarship, *Liberating Sexuality* will help you discover new ways of thinking about God beyond gender, heterosexism, masturbation, and many other topics. Wrestle with controversial topics such as an androgynous Jesus, ethical S&M, and confronting racism in one's sexual preference. Gain a critical understanding of how others view their own sexuality in ways you could never before comprehend.

Sexual Abuse Within the Church Chris Rush Burkey 2021 This book takes a holistic approach by providing insight into the behavior and nature of sex offenders within the church. The text covers various types of sex offenders as well as their criminal propensities and methods of acquiring victims. Warning signs associated with sex crimes within the church are explained as well as security measures and prevention strategies that church leaders and criminal justice professionals can utilize to minimize risk to congregants. Discussion questions and case study scenarios are provided to allow the reader to examine relevant issues and explore a range of potential solutions and interventions. This comprehensive book is intended for criminal justice academicians who teach courses on sex crimes and sex offenders, criminal justice agents (police and investigators), seminary professors and students, and clergy members. It can also assist security teams, church board members, leaders, and teachers in developing intervention and prevention strategies.

Listening to Listeners Many preachers long to understand the dynamics of thought, feeling, and behavior at work in congregations. They use many techniques to evaluate the needs of their congregation and to sharpen their sermons, but preachers seldom give members of their congregation the opportunities to identify qualities of preaching that motivate them to engage sermons, and qualities of sermons that prompt disengagement. This book draws on one of the first large scale attempts in North America to do just that. Drawing on extensive interviews and analysis based on traditional rhetorical categories derived from Aristotle-the listener's perception of the character, personality and trustworthiness of the preacher (ethos), the appeals to reason in the content of the sermon (logos), and the role of feeling in the event of preaching (pathos)-the authors present case illustrations to help preachers listen pastorally to their own parishioners, to understand how their listeners' participation in the sermon is affected by the ethos, logos, and pathos, and how the pastor can use this understanding to preach in ways that engage listeners. Pastors are encouraged to compare and contrast their own perceptions of preaching with those expressed by their parishioners and to reflect more broadly and deeply about preaching in the preacher's own congregational setting.

Bible and Ethics in the Christian Life Bruce C. Birch 2018-05-01 Earth is changing in ways it hasn't for hundreds of thousands of years. At the same time, Christianity is breaking away from its millennium-long geographical and cultural center in the Euro-West. Its growth is in Asia, Africa, and

Latin America, primarily in Pentecostal, evangelical, and independent churches. These dramatically changed planetary and ecclesial landscapes have led many to conclude that we need a new way of thinking about our collective existence: who are we and what is the nature of our responsibility in this deeply altered world? To address that question, biblical scholars Bruce C. Birch and Jacqueline E. Lapsley and Christian ethicists Larry L. Rasmussen and Cynthia Moe-Lobeda carry on "a new conversation" that engages how Christians are to understand the authority and use of Scripture, the basic elements of any full-bodied Christian ethic attuned to our circumstances, and the nature of our responsibility to our planetary neighbors and creation itself.

Giving Counsel Donald Capps 2001-11-01 For most ministers, pastoral counseling is a part of daily ministry, whether it is in an office counseling session or in a chance meeting with a parishioner outside the church. Whatever the setting, ministers are often called on to provide counsel and, by virtue of their calling and training, are expected to do so. This "how-to" guide for seminary students and ministers explores the role of the minister as counselor and provides a method for giving counsel. Renowned pastoral care expert Donald Capps equips readers with basic knowledge and skills and helps them to create a framework to ensure that all conversations where counsel is given will be valuable and not harmful to the person involved. Using a "problem-resolving" approach, Capps leads readers through: -- How to Create a Listening Environment -- How to Construct a Conversation -- How to Think Systemically -- How to Interpret Stories -- How to Manage Boundaries Giving Counsel is the perfect resource for seminary students and ministers of all faiths, whether you are beginning your study or looking for a single resource to serve your ministry.

Reenvisioning Christian Ethics Darryl W. Stephens 2020-12-29 Christian ethics is a wide and varied field; so diverse are the methods and approaches, theological perspectives and starting points, and scopes of inquiry and purposes—dare we even call it a discipline?—that the field is rarely considered as a whole. Christian ethics includes historical, descriptive, critical, constructive, and applied projects on countless topics. Lending creative energy to this field of study are a range of partner disciplines, including, most prominently, theology, philosophy, and sociology, each containing multiple schools themselves. To envision the entire field of Christian ethics is a difficult task; to reenvision the entire field may perhaps be impossible for one person. Thus, this publication includes original research by multiple scholars, each offering a distinct perspective from their primary partner discipline. Chapters include Roman Catholic and Protestant voices from Europe, Asia, and North America. In aggregate, these writings contribute to a composite reenvisioning of Christian ethics, refracting our collective vision through the prisms of diverse academic and methodological perspectives in this vast field of inquiry, study, and practice.

Theologies of Failure Roberto Sirvent 2019-03-26 What does failure mean for theology? In the Bible, we find some unsettling answers to this question. We find lastness usurping firstness, and foolishness undoing wisdom. We discover, too, a weakness more potent than strength, and a loss of life that is essential to finding life. Jesus himself offers an array of paradoxes and puzzles through his life and teachings. He even submits himself to humiliation and death to show the cosmos the true meaning of victory. As David Bentley Hart observes, "most of us would find Christians truly cast in the New Testament mold fairly obnoxious: civically reprobate, ideologically unsound, economically destructive, politically irresponsible, socially discreditable, and really just a bit indecent." By incorporating the work of scholars working with a range of frameworks within the Christian tradition, Theologies of Failure aims to offer a unique and important contribution to understanding and embracing failure as a pivotal theological category. As the various contributors highlight, it is a category with a powerful capacity for illuminating our theological concerns and perspectives. It is a category that frees us to see old ideas in a brand-new light, and helps to foster an awareness of ideas that certain modes of analysis may have obscured from our vision. In short, this book invites readers to consider how theology and failure can help us ask new questions, discover new possibilities, and

refuse the ways of the world.

Sex on Earth as It Is in Heaven Patricia Beattie Jung 2016-12-28 Offers a new theology of desire and delight based on the Christian hope for bodily resurrection. This work is part of a growing chorus of theological voices raised in support of erotic desire. Although most theologians have concluded that there will be no experience of sexual desire and delight in the world to come, Patricia Beattie Jung critically examines the historical traditions and biblical rationales for this teaching. She defends an alternative claim that there will be a healed and glorified experience of sex in heaven based on a compelling account of the Christian hope for bodily resurrection. The first half of the work focuses on Christian foundations for the notion of sex in heaven, while the second goes on to discuss some of the implications of those convictions for sex on earth. Jung concludes with discussions of how best to nurture sexual delight on earth and how and why internet pornography fails in that regard. Patricia Beattie Jung is Visiting Professor of Christian Ethics, Saint Paul School of Theology and coauthor (with Ralph F. Smith) of *Heterosexism: An Ethical Challenge*, also published by SUNY Press.

Pastoral Ethics David John Atkinson 1994-01-01 A treatment of the central ethical questions from the point of view of how they affect people's day-to-day living. Spiritual Abuse Recovery Barbara M. Orlowski 2010-01-01 What factors contribute to active Christians in ministry leaving their church and becoming exiting statistics? Every year dedicated Christian people leave churches because of spiritual abuse. The stories of people who left their home church because of a negative and hurtful experience paint a picture of a widespread occurrence which beckons consideration by church leaders and church congregants alike. Spiritual abuse, the misuse of spiritual authority to maltreat followers in the Christian Church, is a complex issue. This book shows how people processed their grief after experiencing spiritual abuse in their local church and how they rediscovered spiritual harmony. Their spiritual journey shows how one may grow through this devastating experience. This book offers a thoughtful look at the topic of spiritual recovery from clergy abuse through the eyes of those who have experienced it. It invites church leaders to consider this very real dysfunction in the Church today and aims to demonstrate a path forward to greater freedom in Christ after a season of disillusionment with church leadership.

Introduction to Christian Ethics Ellen Ott Marshall 2018-10-30 All Christians read the Bible differently, pray differently, value their traditions differently, and give different weight to individual and corporate judgment. These differences are the basis of conflict. The question Christian ethics must answer, then, is, "What does the good life look like in the context of conflict?" In this new introductory text, Ellen Ott Marshall uses the inevitable reality of difference to center and organize her exploration of the system of Christian morality. What can we learn from Jesus' creative use of conflict in situations that were especially attuned to questions of power? What does the image of God look like when we are trying to recognize the divine image within those with whom we are in conflict? How can we better explore and understand the complicated work of reconciliation and justice? This innovative approach to Christian ethics will benefit a new generation of students who wish to engage the perennial questions of what constitutes a faithful Christian life and a just society.
