As morbid as it sounds, it's just how our energy works. The planets and luminaries are then split into two categories: inner/internal and outer/external, and every planet possesses their own type of energy and specialty. From the internal planets, the Sun shines on planets that impact our personalities. It's how we function as an individual. From the external planets, the darkness of these worlds helps us utilize our personality and inner strengths to overcome events of the physical realm. It's how we shine our light in dark spaces." About the Author Joan Zodianz is a professional astrologer, angel medium, intuitive artist, and tarot reader. She has been developing her spiritual gifts since childhood. She has a love of spirituality, obsession with astrology, and strong connection with Archangels.
