

Sex And Gender Pelicans

Women's Health and Social Change - Ellen Annandale 2008-07-14

"Traditional distinctions between the experiences of women and men are breaking down and being reconfigured in new, more complex ways. The long-established life expectancy gap between men and women appears to be closing in many affluent societies. Many men appear to be far more 'body and health conscious' than they ever were in the past and there are perceptible changes in women's 'health behaviours', such as increases in cigarette smoking and alcohol consumption.

Gender, Power and Organization - Paula Nicolson 2015-06-10

Work organizations are a major site of gender politics for professional women and men, and although there are more women in senior positions than ever before, these increased opportunities have not been gained without psychological consequences. Evidence-based and theoretically driven, the new edition of *Gender, Power and Organization* raises important questions about gender and power in the workplace, and the psychology of women's advancement. Twenty years on from the first edition, it re-examines gender relations at work and asks why, despite many years of feminist critique and action, we are able to understand the dynamics of the workplace but fail to make them more representative. The struggles women face in professional and public life remain intense, not least because many men experience an increasing sense of threat to their long-term aspirations and professional positions. Using examples from recent research and the author's own consultancy experience, this important volume offers a fresh exploration of the psychology of gender and power at work, from the development of gender identities and roles, to explanations of bullying and sexual harassment in the organization. It offers an accessible survey of the subject for professional managers and students of leadership, psychology, management, sociology, gender, and women's studies.

Plato and Sex - Stella Sandford 2010-09-14

What does the study of Plato's dialogues tell us about the modern meaning of 'sex'? How can recent developments in the philosophy of sex and gender help us read these ancient texts anew? *Plato and Sex* addresses these questions for the first time. Each chapter demonstrates how the modern reception of Plato's works in both mainstream and feminist philosophy and psychoanalytical theory has presupposed a 'natural-biological' conception of what sex might mean. Through a critical comparison between our current understanding of sex and Plato's notion of *genos*, *Plato and Sex* puts this presupposition into question. With its groundbreaking interpretations of the *Republic*, the *Symposium* and the *Timaeus*, this book opens up a new approach to sex as a philosophical concept. Including critical readings of the theories of sex and sexualization in Freud and Lacan, and relating such theories to Plato's writings, *Plato and Sex* both questions our assumptions about sex and explains how those assumptions have coloured our understanding of Plato. What results is not only an original reading of some of the most prominent aspects of Plato's philosophy, but a new attempt to think through the meaning of sex today.

Gender, Power and Organisation - Paula Nicolson 2003-09-02

Work organisations have become a major site of gender politics for professional women and men over the last twenty years. There are more senior women today, but increased opportunities have not been gained without psychological consequences. Rather than catalogue the barriers to women's success, Paula Nicolson examines the problems they can face as a result. She re-examines the ways that patriarchal structures resist women's progress, and how male success has psychological implications for women's sense of subjectivity, self-esteem and gender identity, and how achieving against such odds has an impact on women's everyday lives.

Social and Personality Development - Tina Abbott 2021-09-17

Social and Personality Development looks at the processes by which we come to be who we are. It covers a range of topics central to personality and developmental psychology. The book is arranged in three sections, the first covering the main theories of personality, the second describing the development of gender and the third focusing on adolescence. It is suitable for the AQA-A A2 Level examination, but will also be of interest to those studying education, nursing and other related disciplines.

The Psychology Of Gender And Sexuality - Stainton Rogers, Wendy 2001-01-01

The authors introduce and explain traditional approaches to the study of sex and gender whilst acknowledging their weaknesses and exploring a range of alternative ways of tackling this extremely complex subject.

Feminist Theory and the Body - Janet Price 1999

First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

Sex and Gender - John Archer 1982

Sex in Society - Alex Comfort 1963

Reassessing Gender and Achievement - Becky Francis 2005

This text draws together the findings and arguments from the vast array of material available on this topic, in order to provide a comprehensive and clear overview of the various debates about, and explanations for gender and achievement.

Gender and Sexual Identities in Transition - Patricia Bou 2009-05-05

The aim of this volume is to offer an international panorama of gendered and sexualised experiences, with new and original data collected from a variety of cultural settings and sociopolitical contexts. We look at many parts of the world (Japan, Sweden, Poland, Cyprus, Spain, US, Australia, Canada, Hungary) with different assumptions and expectations, often revealing various research practices and traditions. Gendered or sexualized discourses are unstable constructions, in permanent transition, in a perpetual struggle to gain social legitimacy and to counter the workings of opposite discourses. They constitute privileged vantage points from which one can observe and judge power relationships. New identities are created and reproduced, refused and challenged. This volume explores, among other issues, the perpetuation of hegemonic masculinity in Evangelical universities; the pharmaceutical industry's promotion of biometaphors involving a shopping strategy which revolves around compulsory heterosexuality; the perpetuation of Greek-Cypriot men's sexual superiority over women; the Catholic Church's attempt to impose a restrictive view of religion and of sexual ethics; the consolidation of American TV shopping channels as a setting where middle-class femininity and consumption are linked stereotypically; the negotiation of gender- and sex-related norms in groups of British Bangladeshi girls. Even heterosexuality, as the unmarked form of sexual identity and the primary site for the reproduction of gender difference, needs to reassert its normative and prescriptive status, maybe through the silent workings of tradition. By suggesting the concept of transition, we resist seeing the idea of identity as a fixed and definitive category. Gender and sexual identities are never at rest. One is never finished developing into a woman or a man, or any other gender/sexual identity. Contributors include: Joan Pujolar, Andrea Simon-Maeda, Allyson Jule, Stina Ericsson, Agnieszka Kielkiewicz-Janowiak, Joanna Pawelczyk, Nóra Schleicher, Elli Doukanari, Pilar Garcés-Conejos, Lidia Tanaka, José Santaemilia and Pia Pichler.

Gender and Sexuality - Momin Rahman 2010-12-06

'The book offers a thorough overview both of long-standing debates around gender and sexuality and of current issues. It nicely locates the debates within the sociological tradition, and this provides a distinctive and valuable feature. Not the least of the merits of this book is its international focus, and it will prove invaluable for students exploring the diverse pattern of sexuality and gender in an age of globalization. The authors are at the cutting edge of their subject, and so is the book.' Jeffrey Weeks, author of *Sexuality*, Third Edition and Emeritus Professor of Sociology, London South Bank University 'Finally, a book that bridges feminism and critical sex studies. Rahman and Jackson have written a smart, accessible overview of the dynamic relationship between gender and sexuality that will seriously engage an undergraduate audience. This book teaches students by raising questions and providing the intellectual resources to navigate the complex terrain of contemporary sexual and gender politics. One of the few "must-use" classroom texts I've read in a long time.' Steven Seidman, author of *The Social Construction of Sexuality*, State University of New York This new introduction to the sociology of gender and sexuality offers a fresh take on the importance of these concepts in modern society. It provides an insight into our rapidly changing attitudes towards sex and our understanding of masculine and feminine identities, relating the study of gender and sexuality to wider

social concerns throughout the world and presenting a comprehensive yet readable summary of recent research and theory. In an accessible and engaging style, the book demonstrates how thinking about gender and sexuality can illuminate and enliven other contemporary sociological debates about social structure, social change, and culture and identity politics. Emphasis is placed on the diversity of gendered and sexual lives in different parts of the world. The book offers detailed coverage of wide-ranging topics, from international sex tourism to celebrity culture, from gender in the work-place to new sexual lifestyles, drawing examples from everyday life. By demonstrating the links between gender and sexuality this book makes a clear case for thinking sociologically about these important and controversial aspects of human identity and behaviour. The book will be of great value to students in any discipline looking to understand the roles gender and sexuality play in our lives.

Legislating Gender and Sexuality in Africa - Lydia Boyd 2020-05-26

In recent decades, a more formalized and forceful shift has emerged in the legislative realm when it comes to gender and sexual justice in Africa. This rigorous, timely volume brings together leading and rising scholars across disciplines to evaluate these ideological struggles and reconsider the modern history of human rights on the continent. Broad in geographic coverage and topical in scope, chapters investigate such subjects as marriage legislation in Mali, family violence experienced by West African refugees, sex education in Uganda, and statutes criminalizing homosexuality in Senegal. These case studies highlight the nuances and contradictions in the varied ways key actors make arguments for or against rights. They also explore how individual countries draft and implement laws that attempt to address the underlying problems. *Legislating Gender and Sexuality in Africa* details how legal efforts in the continent can often be moralizing enterprises, illuminating how these processes are closely tied to notions of ethics, personhood, and citizenship. The contributors provide new appraisals of recent events, with fresh arguments about the relationships between local and global fights for rights. This interdisciplinary approach will appeal to scholars in African studies, anthropology, history, and gender studies.

Handbook on Gender and Violence - Laura J. Shepherd 2019

Containing contributions from leading experts in the field, this Handbook explores the many ways gender and violence interact across different contexts and offers a range of disciplinary perspectives. This comprehensive volume connects micro-level interpersonal violence to macro-level structural forms of violence across three discrete but interrelated sections: concepts, representations, and contexts.

Rethinking Sex and Gender - Tina Chanter 1997

Sexuality, Gender and Schooling - Mary Jane Kehily 2005-06-29

The sexuality of young people arouses controversy and remains a source of concern for parents, teachers, policy-makers and politicians. But what young people really think about sexuality and gender and how these issues impact upon their lives is often marginalized or overlooked. Based upon extensive ethnographic research with young people and teachers, *Sexuality, Gender and Schooling* offers a telling and insightful account of how young people acquire sexual knowledge and how they enact their understanding of their own gender. It highlights the ways in which young people's constructions of gender and sexuality are formed outside the school curriculum, through engagements with various forms of popular culture - such as teen magazines and television programmes - and through same-sex friendship groups. Offering a fresh perspective on a subject of perennial interest and concern, *Sexuality, Gender and Schooling* provides accounts from the inside - some of which may challenge and eclipse current approaches to sexuality education. It has significant implications for policy and practice in Personal, Social and Health Education and is also an excellent introduction to key debates and

issues in the study of gender and sexuality.

Gender, Sex and Sexuality - Gerda Siann 2013-05-24

For some time sex has been defined as the biological difference between men and women, and gender as the manner in which culture defines and constrains these differences. Feminine/masculine, male/female, women/men, boy/girl - terms of sexual and gender division like these permeate the way we think and talk about ourselves and each other. On most occasions we find their use non-problematic and people employ them easily, at other times, however, particularly if we are interested in psychology, we may wonder whether this ease is illusory.; One may speculate whether being a woman necessarily implies being "feminine". One may question why young women are often referred to as girls, while men are seldom referred to as boys. Is dressing in a stereotypically feminine manner a reliable indication that a woman is heterosexual? What about cross dressing? Why do these topics hold so much fascination for the media?; "Gender, Sex and Sexuality" examines the effects that the inequalities experienced between men and women have had on the psychologies of both sexes, and the battle to remove them. It aims to introduce the reader to current research and theories, drawing on novels, theatre, soap operas, as well as research for case histories.

Sexy Bodies - Elizabeth Grosz 2013-02-01

Are bodies sexy? How? In what sorts of ways? *Sexy Bodies* investigates the production of sexual bodies and sexual practices, of sexualities which are dyke, bi, transracial, and even hetero. It celebrates lesbian and queer sexualities but also explores what runs underneath and within all sexualities, discovering what is fundamentally weird and strange about all bodies, all carnalities. Looking at a pleasurable variety of cultural forms and texts, the contributors consider the particular charms of girls and horses, from National Velvet to Marnie; discuss figures of the lesbian body from vampires to tribades to tomboys; uncover 'virtual' lesbians in the fiction of Jeanette Winterson; track desire in the music of legendary Blues singers; and investigate the ever-scrutinised and celebrated body of Elizabeth Taylor. The collection includes two important pieces of fiction by Mary Fallon and Nicole Brossard. *Sexy Bodies* makes new connections between and amongst bodies, cruising the borders of the obscene, the pleasurable, the desirable and the hitherto unspoken rethinking sexuality anew as deeply and strangely sexy.

Theorizing Sexuality - Jackson, Stevi 2010-03-01

The book confronts the anxieties associated with sexuality in the late modern, western world and engages with wider debates on social transformations in late modernity. As such, it provides both an overview of the field of sexuality as well as setting a new agenda for debating the topic.

The Oxford Handbook of Global LGBT and Sexual Diversity Politics - Michael J. Bosia 2020

Struggles for LGBT rights and the security of sexual and gender minorities are ongoing, urgent concerns across the world. For students, scholars, and activists who work on these and related issues, this handbook provides a unique, interdisciplinary resource. In chapters by both emerging and senior scholars, the *Oxford Handbook of Global LGBT and Sexual Diversity Politics* introduces key concepts in LGBT political studies and queer theory. Additionally, the handbook offers historical, geographic, and topical case studies contextualized within theoretical frameworks from the sociology of sexualities, critical race studies, postcolonialism, indigenous theories, social movement theory, and international relations theory. It provides readers with up-to-date empirical material and critical assessments of the analytical significance, commonalities, and differences of global LGBT politics. The forward-looking analysis of state practice, transnational networks, and historical context presents crucial perspectives and opens new avenues for debate, dialogue, and theory.
