[The Scientific American Book of Love, Sex and the Brain](#) - Judith Horstman 2011-11-15

Who do we love? Who loves us? And why? Is love really a mystery, or can neuroscience offer some answers to these age-old questions? In her third enthralling book about the brain, Judith Horstman takes us on a lively tour of our most important sex and love organ and the whole smorgasbord of our many kinds of love—from the bonding of parent and child to the passion of erotic love, the affectionate love of companionship, the role of animals in our lives, and the love of God. Drawing on the latest neuroscience, she explores why and how we are born to love—how we're hardwired to crave the companionship of others, and how very badly things can go without love. Among the findings: parental love makes our brain bigger, sex and orgasm make it healthier, social isolation makes it miserable—and although the craving for romantic love can be described as an addiction, friendship may actually be the most important loving relationship of your life. Based on recent studies and articles culled from the prestigious *Scientific American* and *Scientific American Mind* magazines, *The Scientific American Book of Love, Sex, and the Brain* offers a fascinating look at how the brain controls our loving relationships, most intimate moments, and our deep and basic need for connection.

After interviewed thousands of couple around the world I have many conclusions, however, one of those is very important: Many couple when divorced they still love each other, the root cause was that they forgot how to maintain the passion. With that in mind, I since 1986, I have been writing about tools or behavior that singles or couple could improve their relationship. Since their teenager fase, most of people are prepared to conquer your love (pre sales), but they do not know how to maintain it (after sales). With this, I hope you enjoy and use those tools I selected in this book.. Of course each couple do not need just "erotic" or "sensuality," but it is very important.. Women Loving Women - Jamye Waxman 2007-04-01

Women Loving Women explores the phenomenon of the contemporary "bi-sexual" or "lesbian" experience for the heterosexual woman. However, while women loving women is indeed an emerging trend, it is also an age-old obsession that this book also addresses and places in a historical perspective. The book investigates the reasons modern women are more open to same-sex encounters, how these experiences can connect people and help them grow, and how regardless of one's sexual orientation, there is much to learn here about the nature of love, sex, and physical attraction and its unconscious determinants. In addition, Women Loving Women also responds to how these same-sex encounters are less apt to create conflict in their heterosexual relationships, and actually might spice things up with their male partner (many men fantasize about same-sex women relationships), break the ice with a best friend, or simply add a new dimension to their sexual history. Women Loving Women features sophisticated photographs that will capture the warm and enlightening approach of exploring erotic possibilities with other women, even when you don't identify yourself as a bisexual or lesbian. Testimonials from heterosexual women who have experienced same-sex romantic encounters will be featured throughout. Sidebars will also feature quotations from women-who-have-loved-women throughout history, such as Virginia Woolf, Simone de Beauvoir, Anais Nin, and Eleanor Roosevelt, amongst others. The photographs, shot on location in New Hampshire, tell a story of three beautiful women who leave their boyfriends/husbands behind for a "girls weekend"-and discover a new dimension to their friendship
