Your Sun sign (often referred to simply as your sign) is the zodiac sign the Sun was traveling through at the time of your birth. Your Sun sign is the most important and pervasive influence in your horoscope and in many ways determines how others see you. It governs your individuality, your distinctive style, and your drive to fulfill your goals. It symbolizes the role you are given to play in this life. It's as if at the moment of your birth you were pushed onstage into a drama called This Is My Life. In this drama, you are the starring actor—and your sign is the character you play. This elegant little volume is packed with what your Sun sign tells you about you. You'll read about your many positive qualities as well as your negative issues and inclinations. You'll find insights into your power, potentials, and pitfalls; advice about relationships, love, and sex; clarification on erogenous zones and how you combine romantically with other signs; guidance regarding career, health, and diet; and information about myriads of objects, places, concepts, and things to which you're attached. You'll also find topics not usually included in other astrology

books—such as how you fit in with Chinese astrology and with numerology.

**Astrology and Sex** - Vivian E. Robson 2005-03

Synastry is the branch of astrology that tells us how we relate to other people. How Joe relates to Mary & what Mary may think of that. In this complete, classic guide to astrology & relationships, Robson goes far beyond the usual "his planets vs: her planets." He studies the overall weight of the two charts, the fertility of the inner planets, the condition of the 7th house. He compares her-planets-to- his-planets as well as his-houses-to-her-houses. Robson considers how strongly the individual wants relationships - and how many, whether he/she will marry early or late - or not at all, the likelihood of children, the possibility of divorce. He gives rules for wedding dates. In an extraordinary appendix, he lists some 266 classified rules & aphorisms, culled from many ancient sources. This is perhaps the finest book ever written on astrology & relationships. About the author: Vivian Erwood Robson lived from 1890 to 1942. By trade he was a librarian. Like many librarians he had a natural bent for research, and, in his particular case, astrology. He studied ancient astrologers closely, including Ptolemy & William Lilly. His books on electional astrology, fixed stars, and relationships, are 20th century classics.

**Chinese Zodiac Compatibility** - Hogy Ja 2014-12-08

Chinese Zodiac Compatibility Astrology Compatible Chinese Zodiac Signs are the results of 4,000 years of observations and study. Oriental sages have long understood the horoscope relationships among the astrological signs based on personality traits, the ancient philosophy of I Ching, and the primal forces of the Tao Compatibility (and incompatibility) are "hard-wired" into the brain. More than that, the evidence can be found in our chromosomes and genes. Research has revealed that the genetic structures that trigger sex development are determined by an initial positive or negative (yin/yang) charge at conception. And, this process will continue throughout our psycho-sexual (sometimes life-long) search for our missing compliment. with this eBook: complete each other Chinese sign compatibility astrology
