Development Tourism Dr Rochelle Spencer 2012-11-28 Tourism in Cuba – described by Fidel Castro as 'the evil we have to have' – has been regarded both with ambivalence, and as a crucial aspect of development and poverty alleviation. The result is a remarkable approach to tourism, one which often compels tourists to become agents of development through solidarity. Drawing on her experiences of working in an NGO in Cuba, the author uses a multi-sited ethnographic approach to investigate tourism motivations and experiences, and to examine the very nature of development. Her analysis covers a wide range of issues including social change, globalization, social theory, and sustainability. Also discussed is the way in which tourism in Cuba relates to broader debates surrounding transformation, capacity building, social action and solidarity.

Capitalist Family Values Polly Reed Myers 2015-09 Though best known for aircraft and aerospace technology, Boeing has invested significant time and money in the construction and promotion of its corporate culture. Boeing's leaders, in keeping with the standard of traditional American social norms, began to promote a workplace culture of a white, heterosexual family model in the 1930s in an attempt to provide a sense of stability for their labor force during a series of enormous political, social, and economic disruptions. For both managers and workers, the construction of a masculine culture solved problems that technological innovation and profit could not. For managers it offered a way to govern employees and check the power of unions. For male employees, it offered a sense of stability that higher wages and the uncertainties of the airline market could not. For scholar Polly Reed Myers, Boeing's corporate culture offers a case study for understanding how labor and the workplace have evolved over the course of the twentieth century and into the present day amid the rise of neoliberal capitalism, globalization, and women's rights. *Capitalist Family Values* places the stories of Boeing's women at the center of the company's history, illuminating the policy shifts and economic changes, global events and modern controversies that have defined policy and workplace culture at Boeing. Using archival documents that include company newspapers, interviews, and historic court cases, *Capitalist Family Values* illustrates the changing concepts of corporate culture and the rhetoric of a "workplace family" in connection with economic, political, and social changes, providing insight into the operations of one of America's most powerful and influential firms.

Geographies of Young People Stuart C. Aitken 2001 "Anxieties over children's safety or teenage propensities towards violence and sex have precipitated a moral panic in a large swathe of our society. This provocative work traces the changing scientific and societal notions of what it is to be a young person, and argues that there is a need to rethink how we view childhood spaces, child development and the politics of growing up. The book challenges popular myths that evoke general notions of childhood as a natural stage in the development towards adulthood and offers alternative theories that value the embodiment and local embeddedness of young people."--Publisher's description

Giving Voice to Diversity in Criminological Research Windle, James 2021-09-03 The people most impacted by criminal justice policies and practices are seldom included in the decision-making processes that affect their lives. Building on the 'nothing about us without us' social movement, this edited volume advocates an inclusive approach to criminology that gives voice to historically marginalized, silenced, and ignored groups. Incorporating the experiences of service users, academics, and state and grassroots practitioners, this volume considers how researchers might bridge the gap between theory and lived experience. It furthers criminological scholarship by capturing the voices of marginalized groups and exploring how criminology can authentically incorporate these voices.

Inside Out Evelyn Lau 2001 Ten years after the publication of her bestselling memoir "Runaway: Diary of a Street Kid, in a collection of eloquent and affecting pieces, Evelyn Lau reflects on her life, her relationships, and her identity as a writer. Moving seamlessly through past and present, Lau describes how her complex, painful relationship with her parents has shaped her adult desires, thwarting her efforts to connect with both men and women. She recalls her dangerous battle with bulimia and examines her continued struggle against crippling depression. Revisiting her life as a prostitute, she explores the extent to which it continues to distort her perception of herself and how

others view her. Lau discusses how she now values home and traces this new attitude back to her time on the streets. Above all, she considers her life as a writer, remembering the force with which her childhood passion for writing was once suppressed. She reveals the supreme importance she has come to place on her writing and explains her controversial willingness to breach the boundaries between public and private in the name of art. Beautifully written, each of these pieces is remarkable for its startling honesty, sensitivity, and painful insight. With "Inside Out Evelyn Lau, an author of superb poetry and fiction, establishes herself as an accomplished nonfiction writer.

What We Don't Talk About When We Talk About #MeToo Joann Wypijewski 2020-06-02 An exquisite examination of a sexual culture in crisis What if we took sex out of the box marked "special," either the worst or best thing that a human person can experience, and considered it within the complexity of reality? In this extraordinary book, despite longstanding tabloid-style sexual preoccupations with monsters and victims, shame and virtue, JoAnn Wypijewski does exactly that. From the HIV crisis to the paedophile priest panic, Woody Allen to Brett Kavanaugh, child pornography to Abu Ghraib, Wypijewski takes the most famous sex panics of the last decades and turns them inside out, weaving what together becomes a searing indictment of modern sexual politics, exposing the myriad ways sex panics and the expansion of the punitive state are intertwined. What emerges is an examination of the multiple ways in which the ever-expanding default language of monsters and victims has contributed to the repressive power of the state. Politics exists in the mess of life. Sex does too, Wypijewski insists, and so must sexual politics, to make any sense at all.

In the post-Weinstein era handling the production of sensitive content has become more nuanced and important than ever. *A Best Practice Guide to Sex and Storytelling* serves as a helpful tool for guiding creators through these waters.

These texts range from those of classical antiquity to others composed during the Arab Spring and represent Asia, the Middle East, Latin America, Western Europe, and the United States. In a Queer Country Terry Goldie 2001 In terms of rights and freedoms for queers, Canada holds an international reputation as among the most liberal of nations. Yet this picture of harmonious gay and lesbian assimilation is nothing if not fractured and fraught with the contradictions of place, privilege, race, and gender. "In a Queer Country" is a groundbreaking collection of fourteen essays on the struggles, pleasures, and contradictions of queer culture and public life in Canada. Versed in queer social history as well as leading-edge gay and lesbian studies, queer theory, and post-colonial studies, "In a Queer Country" confronts queer culture from various perspectives relevant to international audiences. Topics range from the politics of the family and spousal rights to queer black identity, from pride parade fashions to lesbian park rangers. Specific essays include Tom Waugh ("Hard to Imagine," "Lust Unearthed" (Arsenal), "Outlines" (Arsenal)) on Montreal and Toronto's queer cinema of the '60s and '70s; Gary Kinsman's critique of nationalism, both queer and Canadian; Lynn Fernie in an interview on her extraordinary award-winning documentary about lesbians in the 1950s, "Forbidden Love"; Elaine Pigeon on Michel Tremblay's classic play "Hosanna" and its author's attempts to mingle sexual, class and Quebec Nationalist politics; and Gordon Brent Ingram on nude beaches and aspects of gay male public space. Includes numerous photographs and illustrations. Lambda Literary Award Finalist.

Fans, Bloggers, and Gamers Henry Jenkins 2006 Henry Jenkins at Authors@Google (video) Henry Jenkins's pioneering work in the early 1990s promoted the idea that fans are among the most active, creative, critically engaged, and socially connected consumers of popular culture and that they represent the vanguard of a new relationship with mass media. Though marginal and largely invisible to the general public at the time, today, media producers and advertisers, not to mention researchers and fans, take for granted the idea that the success of a media franchise depends on fan investments and participation. Bringing together the highlights of a decade and a half of groundbreaking research into the cultural life of media consumers, *Fans, Bloggers, and Gamers* takes readers from Jenkins's progressive early work defending fan culture against those who would marginalize or stigmatize it, through to his more recent work, combating moral panic and defending Goths and gamers in the wake of the Columbine shootings. Starting with an interview on the current state of fan studies, this volume maps the core theoretical and methodological issues in Fan Studies. It goes on to chart the growth of participatory culture on the web, take up blogging as perhaps the most powerful illustration of how consumer participation impacts mainstream media, and debate the public policy implications surrounding participation and intellectual property.

Changing Corporate America from Inside Out Nicole Christine Raeburn 2004 Despite the backlash against lesbian and gay rights occurring in cities and states across the country, a growing number of corporations are actually expanding protections and benefits for their gay and lesbian employees. Why this should be, and why some corporations are increasingly open to inclusive policies while others are determinedly not, is what Nicole C. Raeburn seeks to explain in *Changing Corporate America from Inside Out*. A long-overdue study of the workplace movement, Raeburn's analysis focuses on the mobilization of lesbian, gay, and bisexual employee networks over the past fifteen years to win domestic partner benefits in Fortune 1000 companies. Drawing on surveys of nearly one hundred corporations with and without gay networks, intensive interviews with human resources executives and gay employee activists, as well as a number of case studies, Raeburn reveals the impact of the larger social and political environment on corporations' openness to gay-inclusive policies, the effects of industry and corporate characteristics on companies' willingness to adopt such policies, and what strategies have been most effective in transforming corporate policies and practices to support equitable benefits for all workers. Nicole C. Raeburn is assistant professor and chair of sociology at the University of San Francisco.

Inside Out David Henderson 2016-11-02 This book is written for my sons and is a patchwork of my thoughts, prayers, journal entries, and emails. These emails, etc. were written to family, friends, and the youth group students I have had the privilege of getting to know and love for the past 25 years. Some of the questions I get are about creation/evolution, the deity of Christ, the end times as well as personal issues such as sexual purity, and how to live a holy life. Part of the book is also about the journey God has brought me through in my personal life. My hope is that however God uses this book, that it pleases and glorifies Him.
