Works Well with Others Ross McCammon,2016-10-04 A hilarious and indispensable guide to the weirdness of the workplace from Esquire editor and Entrepreneur etiquette columnist Ross McCammon Ten years ago, Ross McCammon made an incredible and unexpected transition from working at an in-flight magazine in suburban Dallas to landing his dream job at Esquire in New York. What followed was a period of almost debilitating anxiety and awkwardness—interspersed with minor instances of professional glory—as McCammon learned how to navigate the workplace while feeling entirely ill-equipped for achieving success in his new career. Works Well with Others is McCammon’s “relentlessly funny and soberingly insightful”* journey from impostor to authority, a story that reveals the workplace for what it is: an often absurd landscape of ego and fear guided by social rules that no one ever talks about. By mining his own experiences at the magazine, McCammon provides advice on everything from firm handshakes to small talk in elevators to dealing with jerks and underminers. Here is an inspirational new way of looking at your job, your career, and success itself; an accessible guide for those of us who are smart, talented, and ambitious but who aren’t well-“leveraged” and don’t quite feel prepared for success . . . or know what to do once we’ve made it. *Entertainment Weekly

Consensusland: A Cryptocurrency Utopia Mark Helfman,2018-11-20 Entertaining and fascinating. The prose is crisp and engaging, the voice confident, and the plot skillfully imagined. -- Readers' Favorite Book Review In this blockchain version of Gulliver's Travels, a businessman gets the offer of a lifetime from the tiny, island country of Consensusland, but the catch is troubling: give up everything he knows about business and finance on a leap of faith in cryptocurrency and the power of blockchain. Will he take that leap? Possibly the first fiction book about blockchain, Consensusland infuses a strong narrative with dramatic realism to show readers how the world changes when it uses cryptocurrency, not cash. This book answers, in a very clever and engaging way, the question of what a society running on the blockchain could look like. But really, it goes deeper than that, intertwining allegory to capture a lot of the current debate amidst the naysayers that are resistant to change. -- Misha Yurchenko, author, Bullish on Bitcoin

Show Your Work! Austin Kleon, 2015-11-04 Kata Edgar Allan Poe, sebagian besar penulis takut jika proses berkaryanya diketahui orang lain. Sementara itu, Pablo Picasso kerap membuat orang yang berkomunikasi dengannya justru kehilangan energi dan motivasi berkarya. Ya, keduanya memang maestro legendaris, tapi sekarang bukan saatnya lagi berkarya ala mereka. Bukan juga zamannya Mozart sang genius musik. Ini eranya kamu, siapa pun kamu, bisa berkarya! Lalu, apa kuncinya? Tunjukkan saja. Di zaman keterbukaan ini, semua orang punya kesempatan sama untuk jadi hebat. Jangan sembunyikan proses kreatifmu. Undang orang-orang untuk melihatnya. Jangan khawatir kritik, karena itu bahan pelajaran buatmu. Ide yang menurutmu tidak menarik, siapa tahu luar biasa bagi orang lain. Lebih dari itu, karyamu juga bisa menginspirasi orang lain. Jadi, tunggu apa lagi? Tak perlu ragu atau malu. Berbagi karya membuatmu kaya! ... Semakin banyak kamu memberi, semakin banyak yang kembali kepadamu.-Paul Arden [Mizan, Noura Books, Karya, Hidup, Berkarya, Kerja, Indonesia]

The Philosophy of Friendship M. Vernon, 2005-09-08 In this new accessible philosophy of friendship, Mark Vernon links the resources of the philosophical tradition with numerous illustrations from modern culture to ask what friendship is, how it relates to sex, work, politics and spirituality. Unusually, he argues that Plato and Nietzsche, as much as Aristotle and Aelred, should be put centre stage. Their penetrating and occasionally tough insights are invaluable if friendship is to be a full, not merely sentimental, way of life for today.

How to Not Die Alone Logan Ury, 2021-02-02 A “must-read” (The Washington Post) funny and practical guide to help you find, build, and keep the relationship of your dreams. Have you ever looked around and wondered, “Why has everyone found love except me?” You’re not the only one. Great relationships don’t just appear in our lives—they’re the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn’t lead to results. You have to actually change your behavior. Ury shows you how. This “simple-to-use guide” (Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone*) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You’ll learn: -What’s holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn’t) -How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) - Why “the spark” is a myth (but you’ll find love anyway) This “data-driven” (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. *How to Not Die Alone* will help you find, build, and keep the relationship of your dreams.

How to Fall in Love with Anyone Mandy Len Catron, 2017-09-01 A deeply personal investigation into the meaning of love, from the author of the popular New York Times essay ‘To Fall in Love with Anyone, Do This’ Why does love last? Does love ever work the way it does in films, books and social media? Or does our obsessing over love stories harm real relationships? These were questions Mandy Len Catron set out to answer when her parents’ 28-year marriage and her own 10-year relationship finished almost concurrently. In a series of candid, charming and wise essays, she explores what it means to love someone, be loved, and how we present our love to the world. She deconstructs her own personal canon of love stories, going back to when her grandparents first met in a coal mining town, and also her own dating life as a professor in Vancouver, drawing insights from her fascinating research into the psychology, biology, history and literature of love. She uses biologists’ research into dopamine triggers to ask whether the need to love is an innate human drive. She uses literary theory to show why we prefer certain kinds of love stories. And she tells the story of how she decided to test a psychology experiment - where the objective was to create intimacy between strangers using a list of thirty-six questions - and ended up having millions of people following her brand-new relationship. ‘Personal musings and reminiscences paired with solid research provide an interesting stroll through an abstract topic.’ —Kirkus Reviews ‘In our age of total romantic confusion, Mandy Len Catron is a voice of good sense, warm humor and consoling wisdom. Through the lens of her own relationships, she teaches us—with a deft, convincing intelligence—some of the vital moves in the art of love.’ —Alain de Botton, author of

Perfect fodder for the romantic and the cynic in all of us.' —Booklist 'Catron melds science and emotion beautifully into a thoughtful and thought-provoking meditation on the most universal topic.' —Bookpage 'It's hard to imagine a more timely endeavour. Clear-eyed and full of heart, How to Fall in Love With Anyone is mandatory reading for anyone coping with—or curious about—the challenges of contemporary courtship.' —Toronto Star

The Guyde Howie Reith, 2016-11-19 The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the law of attraction. You won't be reading anecdotes telling you about my successes or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and ghosting. You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be
